## TRADE COMMISSIONER SERVICE.

The Department of Trade and Commerce invites correspondence from Canadian exporters or importers upon all trade matters, and will cause special inquiries to be made by the Trade Commissioners and Commercial Agents into any subject of general interest.

Canadian Trade Commissioners and Commercial Agents should be kept supplied with catalogues, price lists, discount rates, &c., and the names and addresses of trade representatives by Canadian exporters. Catalogues should state whether prices are at factory point, f.o.b. at port of shipment, or, and more preferable, c.i.f. at foreign port.

### CANADIAN TRADE COMMISSIONERS.

#### Australasia.

J. S. Larke, The Exchange, Sydney, agent also for New Zealand.  
D. H. Ross, Stock Exchange Building, Melbourne.

#### British West Indies.

E. H. S. Flood, Barbados, agent also for the Bermudas and British Guiana.

#### China.

Alex. MacLean, care of H.B.M. Consul General, Shanghai.

#### France.

A. Poindron, 101 Rue Réaumur, Paris.

#### Great Britain.

P. H. Ball, Rooms 39 and 40 Central House, Birmingham.

J. B. Jackson, cor. of E. Parade and Greek Streets, Leeds.

P. B. MacNamara, Canada Chambers, 36 Spring Gardens, Manchester.

W. A. MacKinnon, Sun Buildings, Clare Street, Bristol.

#### Japan, China and Korea.

W. T. R. Preston, No. 14 Bund, Room B, Yokohama, Japan.

#### México.

A. W. Donly, Apartado, 91B, Mexico, D.F. Newfoundland.

E. D. Arnaud, Gazette Building, Water St., St. John's.

#### South Africa.

John A. Chesley, Rhodes Buildings, Cape Town, Cape Colony.

### CANADIAN COMMERCIAL AGENTS.

#### British West Indies.

E. A. H. Haggart, Kingston, Jamaica.  
R. Bryson, St. John, Antigua.  
S. L. Horsford, St. Kitts.  
Edgar Tripp, Port of Spain, Trinidad.

#### Norway.

C. E. Sontum, Grubbege, No. 4, Christiania, Norway, agent for Sweden and Denmark also.

### CANADIAN HIGH COMMISSIONER'S OFFICE.

#### Great Britain.

W. L. Griffith, Secretary, 17 Victoria Street, London, S.W., England.

L. Burnet, 16, Parliament St., York.  
John Webster, 17-19 Victoria St., Belfast.  
John McLennan, 26 Guild St., Aberdeen.  
E. O'Kelly, 44 Dawson St., Dublin.  
Malcolm McIntyre, 35-37 St. Enoch Sq., Glasgow.

## MANCHESTER.

### REPORT OF TRADE COMMISSIONER.

(*P. B. MacNamara.*)

MANCHESTER, 36 SPRING GARDENS, June 15, 1908.

#### MANCHESTER SHIP CANAL.

The continued increase in the volume of traffic imported to and exported from Manchester, fully justifies the enterprise of the promoters in constructing this great waterway, and there is no gainsaying the fact that the canal has been the chief factor in making Manchester one of the most prosperous cities in the empire.

Although the Manchester Ship Canal was only opened some fourteen years ago, Manchester already ranks amongst the leading ports in the country. She is the sixth port in order of merit in respect to the value of the goods imported and exported, and is well to the front as regards some of the leading commodities including grain, cotton, iron, coal, machinery, textiles, and paper-making materials. It is worthy of note that this comparatively new port actually imports more oil per annum by direct steamers than any other port with the exception of London, the tankage accommodation having a capacity for over 26,000,000 gallons, whilst her imports of cattle, grain, timber, provisions, apples, wood pulp, &c. from Canada are also extensive.

#### NEW CONNECTIONS TO MANCHESTER.

During the year 1907 all the regular lines were well maintained, and it is understood that negotiations are in progress which it is hoped will result in the establishment at an early date of new connections between Manchester and ports not already served. Besides the regular service to and from Canadian ports, there are now regular steamers trading from Manchester to Bombay, Australia and New Zealand, Persian Gulf, Egypt, the principal ports in North America, Mediterranean, Baltic, Continental ports, and also to the various coastal ports.

#### CANAL TRAFFIC.

The total tonnage in traffic that passed over the canal during the year 1907 was 5,210,759 tons as against 4,700,924 tons during 1906, whilst the total revenue for 1907 was £535,585 as compared with £498,837 in 1906. Not only has the canal been a great boon to the manufacturers located in Manchester and district prior to the opening of the canal, by enabling them to have their raw material landed in close proximity to the works, and also cheapening the cost of delivering the manufactured goods f.o.b., but it has also been the means of bringing many new works to Manchester thereby benefiting the city and the whole community.

During 1907 there was a record import of grain to Manchester, amounting to 406,170 tons as against 344,457 tons during 1906.

#### FRUIT IMPORTS.

The imports of fruit have been well maintained, and Manchester is now recognized as one of the leading fruit markets in the country, enormous quantities of oranges are imported from Spain, apples from Canada and the United States, whilst Manchester is easily the first port in the country for bananas with a record of 2½ million bunches imported from Costa Rica and Jamaica.

#### COAL SHIPMENTS.

In order to cope with increased shipments of coal the Canal Company have erected two additional tips at their Partington coaling basin. Excellent despatch is given at these tips and during 1907 there has been a notable increase in the shipments of coal, viz.:—about 380,000 tons in excess of the shipments during 1906.

During the past 18 months the Canal Company have been busily engaged in deepening the canal an additional two feet, and a depth of 28 feet is now available throughout the whole length of the canal docks.

#### INCREASING SIZE OF STEAMERS.

In view of the increased size of steamers using the canal a crane has been constructed at Eastham, near the entrance to the canal, for the purpose of lifting off the tops of funnels of steamers when they are too high to pass under the bridges. In a wonderfully short time the top portion of the funnel can be unbolted and lifted off to remain at Eastham until the steamer reaches there on her outward voyage, when the funnel is quickly replaced into position.

At no other venture in this country has there been such rapid development as that witnessed on the Trafford Park estates which abut on the Manchester docks. This excellent property, which but a few years ago was a stately park, is now one hive of industry, embracing works of all descriptions employing 50,000 men, and naturally all these works contribute traffic for the steamers trading to and from the port.

#### MANCHESTER LINERS SS. CO., LTD.

The service operated by the Manchester Liners, Ltd., between St. John, N.B., Halifax, N.S., and Manchester, during the past winter season was well maintained, and the commodities imported show an increase as compared with the shipments during the preceding season. The principal traffics carried by the Manchester Liners' steamers from the ports named to Manchester during the 1907-1908 season were as follows:—

|                                    |           |         |
|------------------------------------|-----------|---------|
| Wheat . . . . .                    | Bushels.  | 516,720 |
| Barley . . . . .                   | Bushels   | 8,469   |
| Lard . . . . .                     | Packages. | 21,414  |
| Bacon and hams. . . . .            | Boxes.    | 1,684   |
| Cheese . . . . .                   | Boxes.    | 5,032   |
| Grape nuts . . . . .               | Cases.    | 24,377  |

There were also regular shipments of various cereal foods, apples, canned goods, woodware, paper in rolls, rags, leather, confectionery, phosphorus, carborundum ore, carbide of calcium, &c.

It might be mentioned that there is a special depot adjoining the Manchester docks for the storage of carbide of calcium, large quantities of which are manufactured in Canada and exported to this country, and Manchester bids fair to becoming one of the chief centres of distribution in England.

#### MANCHESTER ASSOCIATION OF IMPORTERS AND EXPORTERS.

A powerful association has recently been formed in Manchester under the above title, and it includes amongst its members nearly all the principal firms of manufacturers and merchants in Manchester and district. The objects for which the association is established are:—

(a) To assist in developing British oversea import and export trade with British colonies and possessions and foreign countries, more especially in connection with the great manufacturing district of which Manchester is the centre.

(b) To negotiate as a united body with shipowners and combinations of ship-owners in order to secure the observance of just and equitable principles with regard to freight contracts, bills of lading and other matters.

(c) To assist in the development of the port of Manchester.

#### CHEESE.

One of the largest wholesale provision firms in Manchester furnished the following market report :—

‘Since writing you last, the state of our market has been very quiet, being between the two seasons. The stocks of old white cheese are getting into a small compass, and fetching higher prices than last month. Coloured is plentiful and the prices ruling, white, 63/ and coloured 62/.

We are pleased to report that the new Canadian cheese are showing good quality and in good request at 56/, white and coloured.

We have one pleasing feature to report since our last, respecting our business with Canadian farmers, and that is that many of them have decided to send us cheese on consignment, and we have our first consignment in the river to-day of Ontario cheese direct through from the factories to ourselves. We believe we are the first in the history of the Canadian cheese trade to have produce arriving on these conditions.

We trust by strict attention to any consignments that may be sent to us that we shall gain the confidence of the farmers in Canada so much that they will consign the bulk of their produce to this country.

We shall probably write you further respecting this later, as this is only in the initial stage. From favourable reports on the other side, we are looking forward to a big make in Canadians this year, and we trust a more profitable one to us than last.’

P. B. MACNAMARA.

#### DIRECT SHIPMENTS TO MANCHESTER.

##### SHIPMENTS OF CANADIAN PRODUCTS DIRECT TO MANCHESTER VIA MANCHESTER SHIP CANAL, COMPARED WITH SIMILAR GOODS FORWARDED FROM CANADA TO LIVERPOOL.

In connection with the preceding report from the Canadian Trade Commissioner at Manchester it may be observed that the saving, if any, per ton made by placing Canadian products, especially cheese, butter, and meats direct upon the Manchester markets via the Manchester Ship Canal, or forwarding them to Liverpool for distribution from that port is one of special importance.

Some information upon the subject has been gathered by the Department of Trade and Commerce which would lead to the belief that there is a material saving.

The managing director of a large produce firm in Manchester acknowledges the question to be a complex one; but he states that the distributing facilities offered by the Manchester Ship Canal are very great, and its importance is steadily growing. He further makes the statement that Manchester is the centre of the largest industrial population in the world.

The actual saving is estimated by one correspondent of the department as being three or four per cent commission, though it is stated in other quarters that the saving is very considerably more. It is frankly acknowledged by business men in the maritime provinces that the saving resulting from the establishment of a direct line of steamships between Canada and Manchester is of very considerable proportions and of very far reaching results. The department is informed by Messrs. Furness, Withy & Co., who perform the service between Canada and Manchester that they communicated upon the subject with the agents of the Manchester Ship Canal both in Manchester and in New York with the view of obtaining the latest information they had in this connection, and they now forward published lists which have been continually before the public for a number of years.

The situation at Manchester, they state, is very favourable, being located as it is within the radius of which economic delivery of goods can be made at a cost less than via Liverpool. and there being in that district a population of no less than ten million people, and the people representing, as they do, the labour employed in the great manufacturing centres of the Midlands, ready spenders and consumers of all classes of products from Canada.

The ocean rate from Montreal, Boston, New York, &c., to Manchester is the same as that to Liverpool; but Manchester has a population of two million people within carting limits. There is, therefore, saved the difference between the haulage from Liverpool and that payable ex steamship at Manchester.

The following is a statement of the comparative cost of conveying the various products mentioned, extracted from the published list referred to above:—

COMPARATIVE COST in cents per hundred pounds at \$4.80 per £1, of conveying the various products mentioned by rail to the towns named ex. Ship. Manchester and ex. Ship Liverpool, respectively.

## JAPAN, CHINA AND KOREA.

### REPORT OF COMMISSIONER OF TRADE.

(Mr. W. T. R. Preston.)

YOKOHAMA, June 10, 1908.

#### MUSICAL INSTRUMENTS.

Enquiries have reached here from Canada, as to the probable market in Japan for musical instruments, particularly organs and pianos. There is practically no market in Japan for foreign-made organs. There are, at present, several large companies in Japan engaged in manufacturing organs, not only for the home demand, but also for the foreign market. Very good instruments are manufactured, and are exported from Japan to eastern countries. From this it will be seen that the local market is more than supplied.

On the question, however, of pianos, there is a steady increase in the importation of this musical instrument to Japan. The quantity and values imported during the last three years may be seen from the following statement:—

|           | Germany. |        | Great Britain. |        | United States. |       |
|-----------|----------|--------|----------------|--------|----------------|-------|
|           | Quantity | Yen    | Quantity       | Yen    | Quantity       | Yen   |
| 1904..... | 43       | 2,547  | 8              | 949    | 9              | 2,007 |
| 1905..... | 43       | 11,470 | 290            | 5,187  | 1              | 887   |
| 1906..... | 96       | 22,132 | 44             | 15,561 | 41             | 8,883 |

The complete figures are not yet to hand; but I have reason to believe that the market has continued favourable to the importers. The principal countries represented by the importation of pianos are Germany, Great Britain, and the United States, in the order named.

It will be seen that the importation from Great Britain declined very considerably from 1905 to 1906, while from Germany and the United States the trade increased largely. The reason for the marked difference between the importations from Great Britain and the United States in the two years named, was incident to the fact that representatives of the United States manufacturers gave this subject their personal attention, while the British manufacturers were represented either by commission houses, or endeavoured to carry on their business by correspondence. The main reasons why Germany has increased its trade on this article are (1) on account of giving the subject personal attention, and (2) because the German manufacturers have thoroughly studied the Japan market, and manufacture the smaller pianos which are more suitable for Japanese rooms.

#### PULP.

I have received inquiries for samples of wood pulp. The only samples of Canadian wood pulp that I can find in Japan, are in the hands of commission houses; but large Japanese dealers and mills are desirous to transact their business directly with the traders or manufacturers in the west.

In respect to a very small specimen of Canadian pulp, inquiries from Japanese elicited the opinion that it seemed to be of the same character as the pulp which comes from Europe, and which represents a larger importation than any other kind of pulp that is imported into Japan. If Canadian pulp manufacturers will send specimens of their manufacture to this office, I will have them submitted personally to some of the leading buyers and paper mills, and if the quality and prices are favourable, I have no question, whatever, but an active demand will be secured here for this commodity. As I intimated in my reports on this subject, some months ago, the importation of pulp into Japan, more especially from Europe, is very large, and it is likely to be much greater in future.

#### BUCKWHEAT PULP.

Scientists in Japan have been investigating for some time into the possibility of discovering a substitute for wood pulp in the manufacture of paper. The demand for wood pulp is increasing here, to an amazing amount, and those who are engaged in the manufacture of paper have begun to fear that possible local demands in foreign exporting countries may make it difficult, in the near future, to secure the necessary supply to keep their mills running. The announcement that has just been made regarding the possibilities of manufacturing paper from buckwheat straw, has created considerable interest, both among the manufacturers and the consumers of paper.

For a while it was hoped that the pulp made from rice straw, rags and waste, would supply the reasonable demand in the market; but the materials have increased in price so enormously that these sources have been practically closed. The pulp that

is now made from buckwheat stock, is the result of many experiments on the part of a leading scientist. He claims now that he has not only been successful, but that the product of his manufacture is decidedly economical. I am informed that the paper made from this pulp is excellent, and that the Japanese paper which is made with a mixture of the buckwheat pulp is much better than which is made, as heretofore, mostly from wood pulp. The new product produces a result that is smoother, less blurred, has more lustre, and is a better paper than when made from wood pulp. It is stated that while wood pulp costs about 30 cents per kwan (8½ lbs.) buckwheat pulp, as the new material is called, can be placed upon the market for from 15 to 20 cents per kwan.

## FERTILIZERS.

The market for fertilizers in Japan is rather weak just now; but this is due to the fact that the demand was very great last year, and there was a slight over-importation.

The special kind of fertilizers that find a favourable market in Japan are those which are made from fish. This commodity has been in use, in this country, for centuries, so that the effect of fertilizing the soil is well understood by the agricultural population of Japan. The Japanese are finding other and more profitable channels for disposing of certain kinds of fish than by using them as heretofore in the manufacturing of fertilizers.

In consequence of this, there is a gradual decline in the home production of fish manures, and the importation is showing a considerable annual increase. This increase is naturally due also to the value that is placed upon fertilizers in Japan.

Among the fish fertilizers that are imported into Japan from foreign countries are dried fish, oil cake, and fish guano. The following statement of importations, for the last three years, will be read with interest by possible exporters of this commodity in Canada :—

| Imports of | Dried Fish. | Fish Oil Cake. | Fish Guano. |
|------------|-------------|----------------|-------------|
|            | Yen.        | Yen.           | Yen.        |
| 1905.....  | 258,470     | 304,094        | 196,542     |
| 1906.....  | 262,166     | 339,159        | 427,311     |
| 1907.....  | 564,956     | 447,491        | 1,447,455   |

A cursory glance at these figures proves that there is an opening here for business of this character, provided, of course, intending traders can compete with the other markets of supply.

At the present moment, however, owing to the reason given in the preceding paragraph and to the general depression in business now existing in Japan, the stock that is held is ample for the present needs. But this is only the temporary condition, and will, within a reasonable time, be followed by an active demand again for fish fertilizers.

The freight on fish manures from Australia to Yokohama is 22 shillings per long ton, which is equal to about \$5.34 currency for 2,240 lbs. Freight from Seattle and San Francisco is \$5 per short ton.

## JAPANESE SARDINES.

One of the channels which a Japanese company lately became interested in, with a small fish which is so enormously plentiful in the seas around Japan, is the sardine industry. The company has developed very rapidly during the last three years, and has found a very profitable market in Europe. The sardines are being prepared with very great care by Japanese experts who apprenticed themselves and studied sardine

industry in France, so that the company is now able to place on the European market a product which is entering into competition with the best known of the French brand of sardines.

#### THE LEAD INDUSTRY.

According to official statistics, the production of pig lead in Japan since 1900 has been as follows, estimated at :—

|                | Kin.      |
|----------------|-----------|
| 1900.. . . . . | 3,130,080 |
| 1901.. . . . . | 3,004,983 |
| 1902.. . . . . | 2,740,741 |
| 1903.. . . . . | 2,875,601 |
| 1904.. . . . . | 3,004,381 |
| 1905.. . . . . | 3,787,006 |
| 1906.. . . . . | 4,687,823 |
| 1907.. . . . . | 5,090,246 |

1 Kin represents 1,322.77 lbs.

The only Japanese lead in the market is mined by the Mitsui Company, and comes from Kameoka, a mining centre in the northern part of Japan. Generally speaking, Japanese lead is inferior in quality, when compared with lead from other countries. For the manufacture of tubes, paint, sheet, &c., where a good quality of lead is required, the local product is quite unsuitable. This lower grade of metal finds its market for army and naval purposes, and also for weighting fishing appliances.

#### THE IMPORTATION OF LEAD

Owing to the limited production in the Japanese mines, and also in consequence of the steady development of industries in which lead is the principal component, such, for instance, as sulphite acid, the manufacture of tubes, paint, &c., the importation of pig lead is increasing. In 1907, lead to the value of yen 853,000, representing 7,360,000 kin, was imported for domestic use. This was a much smaller quantity than was imported in 1905 or 1906. That, however, was due to the fact that immediately after the war with Russia, a large quantity of unused lead was put on the market by the military authorities. This was the main cause for the reduction in the volume of importations between 1906 and 1907.

The distribution of the imports of lead countries in 1907 was as follows :—

|                           | Kin.      | Yen.    |
|---------------------------|-----------|---------|
| Great Britain.. . . . .   | 1,072,981 | 126,517 |
| Austria-Hungary.. . . . . | 373,595   | 43,462  |
| United States.. . . . .   | 3,560,191 | 415,983 |
| Canada.. . . . .          | 762,973   | 81,197  |
| Australia.. . . . .       | 1,542,977 | 180,826 |
| Total others . . . . .    | 49,811    | 5,113   |

As the above table shows, the importation of lead from the United States of America last year nearly equalled the aggregate importation from all the other countries.

The particular brand of lead that comes from the United States is very well known in Japan and easily finds a market, on account of its high reputation. A market for this particular mineral has been assiduously canvassed for by representatives of the United States dealers, and accounts for the very great proportion of the total quantity that is imported.

The freight on lead from foreign countries to Yokohama are as follows :—

From Australia, 20s. per long ton, or about \$4.86 currency.

“ Germany, Mk. 37.50 per long ton, or about \$9.32 currency.

“ Seattle \$8 currency per short ton.

“ Seattle \$8 currency per short ton.

## JAPANESE LEAD INDUSTRY.

The Japan Paint Manufacturing Company of Tokoyo with a branch established at Osaka, is the largest one of this kind in the empire. It is somewhat difficult to secure detail information in respect to the quantity of imported lead that is being used by this company. But the information which has reached me justifies the conclusion that at least twelve hundred tons of this material is used annually by this establishment. The brand of lead known as 'The Trail,' which is, probably a Canadian product from British Columbia, is used to a considerable extent in type foundries. It is also used among paint manufacturers, although objection is sometimes taken to the products of this lead not being sufficiently clear in colour. For this reason, the Canadian lead is not as popular as it otherwise might be. Almost the entire importation of the Australian lead is used by the Japan Lead Tube Manufacturing Company, which is one of the largest consumers of lead in Japan. It is only fair to say that as regards quality and care in preparation before shipment, the Australian lead enjoys a very high reputation among all the leads which are imported into Japan. There are great possibilities for the Canadian trade in lead products. All the leads used for the manufacture of tubes, paints, sheet lead, &c., should be very carefully analyzed before being exported. It will, however, be easily understood that the milling companies, or the Canadian exporters, that can supply pig lead of a good quality, will have no difficulty in finding an opening for business in Japan. The lead merchants and consumers here, are keenly alive in their search of a market where they can purchase good mineral, and which can be delivered here at reasonable freight rates.

In answer to the personal inquiries of one of my officials, at the Tube Manufacturing Company referred to, he was told that if there is any lead suitable for their purposes in Canada, they would be pleased to receive a sample; and if satisfactory, will undoubtedly order a supply. When mining companies, or lead exporters in Canada, communicate with Japanese consumers it will be necessary to send an analyzed table of the lead that they desire to sell. In the case of testing the Canadian lead for the purpose of manufacturing tubes, it might be as well to state that three or four pieces of pig lead will be required.

## BLANKET INDUSTRY.

Notwithstanding the fact that the Japanese have begun the manufacturing of blankets, the foreign importations continue to increase. Blankets to the value of yen 350,000 were imported in 1906, which increased to yen 530,000 in value in 1907. There is an increasing demand for this line of merchandise. The white and red blankets are most in demand. The former are imported from Germany, and the latter from Great Britain. Grey blankets, and those of a similar character are going out of use. All classes of the Japanese prefer either one or the other of the kind referred to in the preceding paragraph. The importation of blankets from these countries may be stated as follows :—

|                            | 1906.<br>Yen. | 1907.<br>Yen. |
|----------------------------|---------------|---------------|
| From Great Britain.. . . . | 144,186       | 235,116       |
| “ Germany.. . . .          | 145,062       | 229,514       |
| (1 Yen = 50 cents.)        |               |               |

In respect to the two kinds, the consensus of opinion as a result of personal inquiries, by an official of this office, leads to the conclusion that the market for the white blanket is much more promising than for the red. It should always be remembered that the Japanese prefer the shorter hair blankets. They do not take kindly to the coarse blankets in which the weaving is readily visible.

The Customs tariff is Yen 7.45 per 100 Kin, thus making the duty at about sixteen cents currency for an eight pound blanket.

The freight rate on blankets is as follows: Germany, \$10.50 (currency) per ton, and from Great Britain, \$11 (currency) per ton.

## THE YALU TIMBER CONVENTION.

As a result of long drawn out negotiations, an arrangement has at last been made between China and Japan, whereby a company equally representative of capital from China and Japan will engage in cutting timber on the banks of the Yalu River in China and Korea. This timber consists mostly of hickory, oak, and other domestic hardwoods. For the first year, the two governments will engage in the business, after which that work will be transferred to a private company. The introduction of this timber on the market, however, will not affect the demand for the softer and coarser lumber from North America.

## THE CHINESE BOYCOTT OF JAPANESE GOODS.

The boycott of Japanese goods by Chinese merchants, as a result of the difficulties surrounding the seizure of the SS. *Tatsu-maru*, a Japanese steamship alleged to be smuggling arms and ammunition into China, has about spent its force. It was evident from the beginning, that the evil effects of the boycott were likely to press more severely upon Chinese than upon the Japanese, in view of the fact that the most important commodities that were being imported into China from Japan, were absolutely necessary for Chinese industries. There is no question but that 'commercial enterprise' on the part of a certain class of foreign merchants in China was exerted in the direction of inciting the Chinese to boycott trade with Japan. In so far as it was possible, the reports about what is alleged to be transpiring in the district of Canton, were given a wide circulation throughout the world. This was done with a view of fostering a spirit of bitterness between the Chinese and the Japanese. At the date of writing this report, it is doubtful whether the boycott is still being maintained anywhere in China beyond the limits of Hong Kong. And it is also doubtful whether it even assumed the proportions which the cable reports from Chinese centres indicated from time to time. When all the facts become known it will likely be revealed that the so-called 'boycott' agitation was simply used by the revolutionists in China as a means to an end, in an effort to discredit the ruling authorities in Peking.

## IMPROVED RAILWAY AND MAIL SERVICE.

Arrangements have now been completed between all the Railway Companies interested in pushing forward the completion of the railways between Harbin, on the Siberian Railway, and Fusan, the southern port of Korea; so that passengers and mails from Europe, destined for Japan or Southern China, shall be carried to Fusan instead of to Vladivostok. This will shorten the journey between London and Japan to about 15 days, and it will also result in European mail matter being delivered at Shanghai and Hongkong nearly a week earlier than by the fastest steamship services now existing, as well as giving a tri-weekly postal connection between the east and the west. It will probably be a year or eighteen months before these facilities are all available. It is expected, also, that within three or four years, with the improvements that it is proposed to make on the main line of the Siberian railway, by the substitute of heavier rails, that the time, both for mails and passengers, between London and the far east, will be still further reduced. The changes contemplated in the running of the Siberian service will also result, shortly, in that route being available, between Europe and the far east, for parcel post and newspaper mails as well. These prospective and speedy services by rail to Europe are being welcomed by the business community, who have long claimed that the fast mail steamship services to the east have been carried on at the sacrifice of the real commercial interests of the country. The effect that an efficient railway service via Siberia will have upon the postal service of the world will be better understood by the statement that New York merchants have lately been transmitting their correspondence to the far east across the Atlantic, via London and Siberia, and they have been able to secure more regular and speedy delivery than by the steamships sailing the Pacific Ocean.

## THE CABLE MONOPOLY.

The monopoly which has been held for many years in Japan by one of the great cable company is about expiring. In the early history of Japan, the cable company in question was able to make very favourable terms, extending over a considerable period, for the monopoly of all telegraphic and cable business between Japan and the outside world. At that time Japanese statesmen were not as well versed in the burdens and restrictions connected with the monopolistic possibilities of a cable company as they are now. With the approach of the termination of the cable companies agreement with various countries in the east, the usual means were resorted to with a view of securing a renewal of those privileges. In Russia and China, arrangements were made without any difficulty with the respective governments for an extension of the privileges hitherto enjoyed under the arrangement that is now expiring, and it was hoped that Japan would be equally agreeable to renew the contract with the Cable Company. Japan, however, has declined to do so,—a fact which has caused very serious misgivings as to the future among those who are interested in the cable monopoly of the east.

The following rates are charged upon cable messages from Japan:—

|                                | Via<br>Vladivostock.<br>Yen. | Via<br>Shanghai.<br>Yen. | Via<br>Manila.<br>Yen. |
|--------------------------------|------------------------------|--------------------------|------------------------|
| From Tokyo to London . . . . . | 2.42                         | 2.42                     | ....                   |
| “ “ “ New York . . . . .       | 3.74                         | 3.64                     | 2.54                   |
| “ “ “ Ottawa . . . . .         | 3.52                         | 3.52                     | 2.74                   |

In addition to these rates, the cable companies are threatening to withdraw the privileges that the mercantile community have long enjoyed in the use of cipher codes. These codes have been developed upon such a scale so that the cost per word is very greatly reduced. In point of fact, if it was not for the use of cipher codes being allowed the cable companies could not transact the business between the far east and the west in the ordinary phraseology, so that while the public have been the gainers of the use of the codes, the business of the companies has increased enormously, as the lines are practically busy all the time. The Japanese government, so far, decline to renew the monopoly with the Cable Company, because they have in view the establishment of an overland system of telegraphic communication between Europe and Japan, via Siberia, with either cable lines of their own between the Empire and the mainland of the continent of Asia, or by the establishment of a wireless telegraphic system between Japan and the state telegraphic system of Russia. If this idea is carried out and a tariff of rates is introduced, based upon the present cheap Russian inland rates, telegraphic communication between Japan and Europe, and Japan and North America via the Atlantic Ocean Cable system, the cost of cabling will be reduced to one-half of the present rates.

## TRADE DEPRESSION.

The depression in commercial circles which has been in evidence ever since peace was signed between Japan and Russia, has been somewhat severely experienced during the last few months. It is not necessary that any extended reference should be made to the possible causes. They may, or may not, be all problematical. It is evident, however, that the financial panic in New York, a few months ago, was immediately followed by financial stringency in Japan. In so far as the general public is concerned outside of the ocean ports, and certain districts in the cotton and cotton yarn manufactured places, the evidences of financial stringency are not locally troublesome. Heavy holders of imported commodities have suffered considerably by the trifling demand for these commodities. But owing to a general credit system among the masses of the people not being in vogue in Japan, to the extent that it is in other countries, the smallest business concerns are largely managed on personal capital instead of through the banks, and these people know little or nothing of the financial stringency which is existing in the larger circles. Where running accounts are kept of a domestic character the Japanese invariably, as is the national custom, settle

their accounts before the beginning of each New Year. It is looked upon almost as an unpardonable offence, and a Japanese considers himself disgraced in the eyes of his acquaintances, if he fails to pay the amounts of his personal accounts before midnight on the 31st December. This, in fact, is an eastern trait of character, or a custom, which reaches back to time immemorial. Merchants will sacrifice their goods on the last day of the old year, so as to possess money to pay their accounts rather than go into the New Year burdened with debt. For this reason a period of financial stringency in countries like Japan and China, does not so seriously affect the masses as similar commercial experiences do in the west. As to the present situation it may be said that the money market is much easier, and appears to be steadily growing. The rate of interest is still high, but has fallen considerably within the last three weeks, and it is expected that there will be a further decline. The demand for money, which will undoubtedly be active in connection with sericulture (silk industry), is not expected to produce any marked influence in monetary circles.

#### ENCOURAGEMENT OF NATIONAL THRIFTINESS.

A proposal has been submitted to the Imperial Government to encourage thriftiness, by which it is intended that provision should be made for something in the form of financial provision for old age. It is recommended that regulation shall be passed providing that every Japanese on obtaining his 10th year, shall be required to deposit 10 sen (5 cents currency) per month (with the exception of those who are incompetent), and that this shall continue to accumulate, and to remain in the hands of the government for the period of 30 years. The government is to pay a low interest for these deposits, and the post office, it is suggested, shall transact the business of this compulsory personal saving system. It is proposed that the money shall not be returned to the depositors before the expiration of the term, except when on the death of the depositors, in which event the sum of Yen 36, an amount representing the total of deposits for 30 years, should be paid irrespective of the length of time that the deceased persons had been depositing. This sum should be paid in special national bonds, the market price of which would correspond to their face values. A leading financial authority in making this calculation, estimates that at least thirty million of the fifty millions of the Japanese population, could safely be counted on capably responding to the proposed saving system, so that the amount of deposits obtained at the end of one year would amount to 36 million Yen. The proposals are worked out somewhat elaborately, both in respect to deaths and births, and it is calculated that such a national movement as this, will effectively prevent any marked degree of poverty in future decades in Japan.

#### THE PUBLIC FINANCES.

The public revenue is holding its own in one way or another, so that the Minister of Finance is not being disappointed in the receipt of the public treasury. It may perhaps be interesting to note that the revenue received last year from State investments yielded the following revenues to the Public Exchequer :—

|                            | Yen.       |
|----------------------------|------------|
| State railways.. . . .     | 32,180,000 |
| Tobacco monopoly . . . . . | 35,000,720 |
| Camphor “ . . . . .        | 440,000    |
| Salt “ . . . . .           | 12,790,000 |
| Total.. . . .              | 80,410,720 |

The season is opening well for the agricultural and silk prospects of Japan. The earlier part of the season was rather unfavourable for the silk crop; but it is now believed that the product of the silk worm will be above the average. The wheat and barley which are now being harvested, are quite above the average. Unless unforeseen events occur, it is, however, expected that if the prospects continue with the silk worm, Japan will be easily able to stand weak markets for her natural products elsewhere, and thus await the financial stream with no worse results than are now evident. The

imports and exports, detailed statement of which will be given elsewhere, show a marked diminution in imports, with not as great a falling off of the exports of the country, as was feared.

W. T. R. PRESTON.

## AUSTRALASIA.

### REPORT OF TRADE COMMISSIONER FOR NEW SOUTH WALES, QUEENSLAND AND NEW ZEALAND.

(*Mr. J. S. Larke.*)

THE ROYAL EXCHANGE, SYDNEY, June 8, 1908.

#### SUMMARY OF AUSTRALIAN TRADE.

The Australian trade for the first four months of the year has been made public.

#### IMPORTS.

| —                 | 1907.      | 1908.      | —                 |
|-------------------|------------|------------|-------------------|
|                   | £          | £          | £                 |
| January. ....     | 4,293,522  | 4,673,689  | Inc. .... 380,167 |

| Four months. .... | 25,105,401 | 20,612,530 | Dec. .... 4,492,871 |

#### DECREASE IN EXPORTS OF WOOL.

These figures show that despite the re-action in trade there was a considerable increase in the imports for the first three months, but the imports for April show a decrease. A decrease of importations of gold amounted to £125,445. There is no doubt that this decrease in imports will continue throughout the twelve months, due to a lowering of prices rather than a decrease of quantities imported. If the exports of gold were eliminated from the total exports, the decline in the out-going merchandise would be greater, for while the total decrease is 17·9 per cent for the four months, without the gold the decrease is 29·3 per cent. One half of the decrease in merchandise was due to wool, wheat and flour being next in order. The increase in the exports of gold amounted to £1,950,467.

But there is a probability that this decrease will be somewhat lessened for the remaining nine months of the year. Much wool remains unsold, the rapid decline in the price, which characterized the sales for the first four months of the year, has reached bottom and the reaction has set in. Prices at the last sale showed an improvement of 10 to 15 per cent and in all probability there will be further small advances.

#### NEW ZEALAND TRADE RETURNS.

The returns of the trade of New Zealand for the first three months are a repetition of those of Australia and are as follows:—

|              | March<br>Quarter<br>1907. | March<br>Quarter<br>1908. |                    |
|--------------|---------------------------|---------------------------|--------------------|
| Exports..... | £8,534,714                | £6,331,927                | Dec.....£2,202,787 |
| Imports..... | 3,986,377                 | 4,894,395                 | Inc..... 908,018   |

The increase in imports shown were orders given six months previously at old prices. Succeeding returns will show a decrease in imports somewhat in proportion to the decline in exports. In Australia the decline in exports was considerably due to a partial failure of the wheat crop, and in New Zealand to the decline in export of butter owing to the drought.

#### OUTLOOK IS FOR MODERATE BUSINESS ONLY.

Notwithstanding some improvement in the prices for wool, the outlook favours but moderate business for the balance of the year. Nearly one-half of the State of New South Wales is suffering from drought conditions. The poor harvest of last year has left small supplies in stock, especially of coarse grains. This is accentuated by the fact that Victoria is in as poor condition as the southern part of New South Wales and will, therefore, be unable to supply the needs of the New South Wales' pastoralists. Some stock has died and it is feared that there will be a very considerable loss before the spring growth of grass. The drought conditions have been unsuitable for the sowing of grains. In this state, while about the same acreage was sown as last year, yet the prospects are very much inferior. In about one-third of the state the growth is good; in another one-third moderate and in the balance there is danger of a failure.

Early rains would, of course, change the conditions very materially, but at present the prospects are of a decreased shear of wool, a harvest below the average, and but a moderate output of butter. Such conditions will seriously affect the orders sent abroad for goods until there is an assurance of a change for the better.

#### ENQUIRIES FOR CANADIAN GRAIN.

Owing to the scarcity of feed, oats and maize have already reached very high moderate output of butter. Such conditions will seriously affect the orders sent figures. In the Sydney market, oats are quoted at 3s. 6d. per bushel of 40 lbs., while 3s. 8d. to 3s. 9d. are offered for good seed grain. Maize is quoted at 4s. 6d. to 4s. 7d. There is every probability that prices will go up during the next two or three months. Inquiries have been made as to whether supplies can be obtained from Canada. I have suggested that cables might secure prices for frozen wheat that would enable it to be imported. There would, however, be some difficulty in introducing it to the trade as its shrivelled condition and dark colour would be likely to materially prejudice buyers against it.

## GOOD PRICES FOR CANADIAN OATS.

Owing to the drought conditions, there may be a demand for good oats at prices that would warrant exportation from Canada at the end of the year. Very much, of course, will depend upon the changes that may take place in Victoria and the harvest in New Zealand. It would be well for Canadian exporters to be ready to meet a demand from Australia should the necessity for importation arise. I should be glad to receive samples of wheat and oats as soon as fair samples of the Canadian new crop can be obtained, with probable prices.

## QUEENSLAND TRADE SUMMARY.

The Collector of Customs at Brisbane has furnished me with this return for the State of Queensland of the imports and exports from and to Canada for 1907 with the principal items of such imports and exports. I add similar figures for 1905 and 1906 for the purpose of comparison.

|              | 1905.  | 1906.  | 1907.  |
|--------------|--------|--------|--------|
|              | £      | £      | £      |
| Imports..... | 26,128 | 28,493 | 34,185 |
| Exports..... | 1,469  | 4,910  | 10,278 |

## IMPORTS FROM CANADA.

These figures do not include the Canadian articles received from other States. The principal articles imported from Canada during these years were:—

|                                            | 1905.  | 1906. | 1907.  |
|--------------------------------------------|--------|-------|--------|
|                                            | £      | £     | £      |
| Apparel and attire.....                    | 940    | 982   | 163    |

## EXPORTS TO CANADA.

The principal articles exported to Canada for the three years were:—

|                    | 1905. | 1906. | 1907. |
|--------------------|-------|-------|-------|
|                    | £     | £     | £     |
| Butter.....        | 985   | 47    | 8,826 |
| Bacon and ham..... | 46    | 154   | ..... |
| Maize.....         | 89    | 158   | ..... |
| Potatoes.....      | ..... | 46    | ..... |
| Tin ingots.....    | ..... | 4,224 | ..... |
| Eggs.....          | ..... | ..... | 747   |

## SLOW PROGRESS IN DIRECT TRADE.

The growth of the direct trade with Queensland has been slow. In part this is, perhaps, due to the fact that a portion of the goods for Queensland have been supplied from Sydney and are, therefore, included in the imports into New South Wales. The development of the export of butter to Canada marks the rapid extension of butter production in Queensland. Ingots of tin, formerly sent from Queensland direct, last year were exported from New South Wales.

## NATIONALITY OF SHIPPING.

An interesting return of the nationality of vessels which have entered and cleared the ports of the Commonwealth for three years, has been published.

| Nationality.         | Tonnage.  |           |           | Percentage. |       |       |
|----------------------|-----------|-----------|-----------|-------------|-------|-------|
|                      | 1904.     | 1905.     | 1906.     | 1904.       | 1905. | 1906. |
| British—             |           |           |           |             |       |       |
| Australian .....     | 548,039   | 569,210   | 642,422   | 8·20        | 7·65  | 8·06  |
| United Kingdom ..... | 3,827,883 | 4,201,185 | 4,341,502 | 57·28       | 56·43 | 54·50 |

## DECLINE IN BRITISH SHIPPING.

The decline in British shipping is slow but at an increasing rate. Thus of the increased tonnage from 1904 to 1906, 59·78 per cent was British, but in the increase from 1905 to 1906 only 49·32 per cent was British. The record in respect to Canada is somewhat humiliating. Though some of the sailing vessels that come to Australia were built in Canada, yet not one of them sailed under a Canadian register, all had passed out of the hands of the Canadian owners. The decline in the United States' shipping was due mainly to the withdrawal of the mail steamers from the San Francisco-Sydney service. Though the tonnage has nearly doubled in fifteen years yet there were less vessels in number in 1906 than in 1891. The change from sail to steam largely accounts for this, but mainly it is due to the great increase in the capacity of the steamships used in the trade. The tonnage of vessels trading directly with Canada increased from 79,809 in 1904 to 100,989 tons in 1906 and the number of vessels in the year from 36 in 1904 to 47 in 1906. There was, therefore, little change in the capacity of the ships engaged in this direct trade.

## SOUND FINANCIAL POSITION IN NEW ZEALAND.

It is anticipated that the exports from New Zealand in 1908 will show a diminution of £3,000,000 as compared with 1907. This does not create concern in the minds of the business people of New Zealand, who say that after all it is but a reduction to the trade of 1906 which was a good year. Imports will naturally decrease with the exports, but the financial position is sound and no reaction leading to any stress is anticipated.

## TRADE INQUIRIES FOR CANADIAN LINES.

There are inquiries for Canadian lines from manufacturers' agents and I shall be glad to have any Canadian manufacturer, not represented in New Zealand, and who desires to secure trade there, to communicate with me.

## NEW ZEALAND INDUSTRIAL LEGISLATION.

Marked changes in the Arbitration Act of New Zealand have been announced. One is the abolition of the present Conciliation Boards and in their place the appointment of a board consisting of three representatives from the employers and three from the workers with an independent chairman. This board will endeavour to affect a mutual agreement, which, when arrived at, will be taken as an award.

The second change relates to the payment of fines inflicted upon workmen for breaches of the Act. It has been found to be difficult and in some cases impracticable to collect such fines. It is proposed that the employer of a worker under a fine shall retain 20 per cent of the workman's wages until the fine is paid. Discussion indicates that there will be considerable opposition to the change. It substitutes the employer for the government as the collection agent, and it is claimed that the employer may find it as difficult to retain the 20 per cent as the government to collect the fine.

## CANADA LOSING PAPER AND LUMBER CONTRACTS.

I am advised from New Zealand that Canada is losing contracts for paper, the British mills considerably under-bidding the Canadian and also that Canada is not securing the share of the newly opened timber market for Pacific coast lumber. Nearly two-thirds of the last cargo, carried in a Canadian subsidized steamer, is represented to have been from Puget Sound instead of British Columbia. I have no means of examining into the truthfulness of these statements, but my authorities are reputable firms. Neither can I give an explanation from this side, of why this is so unless it be that in the case of timber, the mills of the State of Washington have been suffering from financial stress more severely than the mills of British Columbia.

## CANNED SALMON BILL MODIFIED.

The objection of the salmon canners of British Columbia to the proposed legislation of the government of New South Wales, which contemplated the requirement that every tin should have stamped upon it the name of the packer and the year in which it was packed, has been taken up with the premier. He stated that the government had no intention of passing laws prohibitory to the trade or unduly burdening the salmon packer, and I have every reason to believe that the bill will be modified before it is presented at the next meeting of the New South Wales parliament.

## CODLIN MOTH PREVENTIVE.

A preventive of the Codlin moth pest, which is as troublesome to apple growers in Australia as it is in Canada, is reported as the result of experiments made for

some time in the vicinity of Sydney. Small bunches of herbs, thyme and penny-royal, are fastened securely around the stem of each apple tree. Over this is placed a close rain-proof bandage to protect the herbs from rain. This is said to be a perfect protection. The moth crawls up the tree until it reaches the herbs and then returns to the ground where it is destroyed by ants. It is claimed that trees protected in this way had perfect fruit, while others not treated were worthless. The advantage over the commonly used system of bandages is that there is no necessity of frequent visits to the bandages and destruction of the moths.

J. S. LARKE.

## BIRMINGHAM.

### REPORT OF TRADE COMMISSIONER.

(*Mr. P. B. Ball.*)

39 AND 40 CENTRAL HOUSE, CHRISTCHURCH BUILDING,  
BIRMINGHAM, ENG., June 23, 1908.

#### BRITISH FRUIT CROP PROSPECTS.

It is now pretty definitely settled that the apple and pear crop of Great Britain will be large. The fruit is so far advanced that there is very little likelihood of any damage taking place. In view of the prospective large crop, it will be necessary for Canadian apple shippers to act with considerably more care than last year. Of course, this is an enormous market, and the quantity of apples grown in Great Britain is nothing like sufficient to supply the demands; but nevertheless, a good or poor crop makes all the difference in the price of Canadian apples.

#### WARNING AGAINST BAD PACKING.

Canadian packers will have to remember that every year sees fresh competing fruit growers entering the British market, and what was considered a fine pack a few years ago is not considered as such to-day. Canada has much to learn from Tasmania and New Zealand in apple packing, and if the packers were to allow a few more shipments to enter here like those of last year, not much will be heard of Canadian apples in Great Britain. That good packing is done, and can be done, is proved from some of the consignments received last year.

#### RECORD CROP ANTICIPATED.

This spring has been particularly free from night frosts, consequently, the blossoms were not interfered with, neither has there been anything in the nature of destructive hail storms, or winds. Weather conditions have been specially favourable, and a good crop of apples is anticipated. Last year it will be remembered, pears were very scarce in Great Britain, but this year there will be a good all round crop of all varieties. The plum crop last year was almost a total failure. This year, however, excellent reports are heard on every hand, and in my district, which has a reputation for plum growing, it is believed that a record crop will be taken from the trees.

P. B. BALL.

## BARBADOS.

## REPORT OF TRADE COMMISSIONER.

*(Mr. E. H. S. Flood.)*

28 BROAD STREET,

BRIDGETOWN, BARBADOS, June 29, 1908.

## TRADE OF BARBADOS FOR 1907.

The total trade of this colony for the fiscal year 1907, amounted to £2,206,782 against £2,125,213 for the year 1906, an increase of £81,490.

## INCREASE IN IMPORTS.

The imports for this year were £1,271,531, an increase of £70,203 over the previous year. The imports from the three principal exporting countries showed the following increases:—United Kingdom, £76,032; United States, £56,291; Canada, £15,270.

From the United Kingdom there were about 40 per cent of the total imports; from the United States 34 per cent, and from Canada  $7\frac{1}{2}$  per cent.

There was an increased importation of the following articles: Cheese, butter, carriages and carts, manufactures of cotton, linen and wool, pickled fish, flour, hardware, manufactures of leather, lumber, musical instruments and stationery, and a considerable increase in the importation of coal, boots and shoes, the total for the year being; coal and coke, £91,399; boots and shoes, £19,786, against £57,170 and £12,256 respectively for 1906. The importation of hemlock, birch, beech, white pine and spruce amounted to £40,034 against £30,683, an increase of £9,351. The bulk of this import came from Canada.

A decrease was noticed in the importation of the following articles: oxen, bulls, beef, bread and crackers, fish (salted and dried), hay, iron nails, manures, pork (salted) rice, salt, staves and shooks.

## COUNTRIES OF ORIGIN.

The following table will show the country of origin of the imports for 1906 and 1907:—

|                                  |                  |                  |
|----------------------------------|------------------|------------------|
| United Kingdom . . . . .         | £482,116         | £558,148         |
| United States . . . . .          | 404,334          | 460,725          |
| Canada . . . . .                 | 86,673           | 101,943          |
| British West Indies . . . . .    | 84,792           | 58,237           |
| British Guiana . . . . .         | 35,779           | 46,002           |
| East Indies (Calcutta) . . . . . | 33,564           | 1,232            |
| Foreign West Indies . . . . .    | 15,016           | 8,917            |
| France . . . . .                 | 13,347           | 53               |
| Chili . . . . .                  | 7,642            |                  |
| Other places . . . . .           | 30,083           | 36,275           |
|                                  | <hr/> £1,192,328 | <hr/> £1,271,532 |

The returns of this year compared with those of 1906, in the principal articles of import, are:—

|                                           |          |          |
|-------------------------------------------|----------|----------|
| Cotton, silk and woollen goods . . . . .  | £208,166 | £241,497 |
| Manures and fertilizers . . . . .         | 103,747  | 60,067   |
| Coal and coke . . . . .                   | 57,170   | 91,399   |
| Staves and shooks . . . . .               | 42,470   | 40,673   |
| Lumber . . . . .                          | 41,545   | 44,274   |
| Oats . . . . .                            | 20,630   | 21,709   |
| Corn and grain . . . . .                  | 39,111   | 7,812    |
| Beef (salted) . . . . .                   | 28,802   | 24,294   |
| Pork . . . . .                            | 22,477   | 20,477   |
| Bacon and ham . . . . .                   | 3,166    | 5,258    |
| Flour . . . . .                           | 75,574   | 84,846   |
| Fish (salted) . . . . .                   | 39,774   | 37,642   |
| Leather (dressed and undressed) . . . . . | 6,628    | 7,142    |
| Boots and shoes . . . . .                 | 12,258   | 19,786   |
| Leather (unenumerated) . . . . .          | 1,807    | 1,818    |
| Rice . . . . .                            | 63,595   | 47,991   |
| Hardware . . . . .                        | 22,931   | 32,813   |
| Animals (live) . . . . .                  | 18,717   | 14,985   |
| Cornmeal . . . . .                        | 24,027   | 29,833   |
| Bread and crackers . . . . .              | 12,000   | 8,329    |
| Oilmeal . . . . .                         | 12,268   | 12,032   |
| Butter . . . . .                          | 14,531   | 20,470   |
| Hay . . . . .                             | 2,604    | 1,270    |

#### CANADIAN AND UNITED STATES IMPORTS.

The following table will show the principal imports for the year from Canada and the United States respectively:—

|                                                |        |         |
|------------------------------------------------|--------|---------|
| Bacon and hams . . . . .                       | £ 38   | £ 3,826 |
| Beef and pork (salted and pickled) . . . . .   | 765    | 42,688  |
| Bran and pollard . . . . .                     |        | 6,824   |
| Bread and crackers . . . . .                   |        | 8,299   |
| Butter . . . . .                               | 1,630  | 3,167   |
| Oleomargarine . . . . .                        |        | 5,205   |
| Corn and maize, (unground) . . . . .           | 5      | 7,511   |
| Cornmeal . . . . .                             |        | 29,609  |
| Fish (salted) . . . . .                        | 17,458 | 12,894  |
| Flour, wheat or rye . . . . .                  | 7,179  | 76,662  |
| Grain (unenumerated) . . . . .                 | 3,445  | 6,411   |
| Oats . . . . .                                 | 2,243  | 16,791  |
| Oilmeal and oilcake . . . . .                  |        | 12,029  |
| Woods:                                         |        |         |
| Hemlock, pine (white), spruce, birch . . . . . | 27,630 | 13,930  |
| Shingles . . . . .                             | 9,136  | 69      |
| Staves . . . . .                               | 1,276  | 35,408  |

#### CANADA CAN IMPROVE HER POSITION.

From these lists it will be seen that practically the import trade is divided up between the United States and the United Kingdom, the latter supplying the manufactured goods, while the bulk of the breadstuffs come from the United States, Canada leading only in salted fish, lumber, shingles, hay, cheese, and a few other unenumerated articles.

If a greater effort was made to secure her rightful share of the trade in such articles as flour, grain, butter, bacon, oats, bran, bread, biscuits, boots and shoes, nails, canned goods, oak staves and hoops for puncheons and many other articles, Canada's position in the list would be much improved. The import of staves, as may be seen by the list, amounted to £36,684 and there can be no good reason why a part of this trade should not be diverted to Canada, the greater part of which at present comes from the United States. An improvement in the trade can only be brought about by representatives of the business houses visiting the island more frequently than in the past, and remaining on the ground a longer time, in order to get acquainted with the business. This has been pointed out in two former reports. No considerable increase can be hoped for unless this method is adopted.

## EXPORT FOR 1907.

The following table shows the exports to countries of the products and manufactures of the island, exclusive of goods of other countries re-exported.

|                                             |          |          |
|---------------------------------------------|----------|----------|
| United Kingdom . . . . .                    | £155,985 | £158,693 |
| Canada . . . . .                            | 318,671  | 243,225  |
| United States . . . . .                     | 50,107   | 149,586  |
| Newfoundland . . . . .                      | 51,102   | 45,737   |
| British West Indies . . . . .               | 22,248   | 18,550   |
| British Guiana . . . . .                    | 6,370    | 5,042    |
| Germany . . . . .                           | 110      | .....    |
| Bermuda . . . . .                           | 2,694    | 2,670    |
| French Guiana . . . . .                     | 1,283    | 1,830    |
| Madeira . . . . .                           | .....    | 1,515    |
| Foreign West Indies . . . . .               | 2,326    | 1,171    |
| Dutch Guiana . . . . .                      | 78       | 605      |
| Colon . . . . .                             | 850      | 382      |

## CANADA THE BEST CUSTOMER OF BARBADOS.

From these lists it will be seen that Canada is now taking from this colony over one-half of all her natural and manufactured products; the United Kingdom one-fourth and the United States one-tenth;

The shortage in the sugar crop, due to drought, has been levelled up by the enhanced prices obtained. The considerable increase in the Sea Island cotton crop, and the additional amount of molasses manufactured, have brought the exports almost up to those of last year.

E. H. S. FLOOD.

AUSTRALASIA.

REPORT OF TRADE COMMISSIONER FOR VICTORIA, SOUTH AUSTRALIA, WESTERN AUSTRALIA  
AND TASMANIA.

(*Mr. D. H. Ross.*)

STOCK EXCHANGE BUILDING,  
MELBOURNE, June 8, 1908.

THE NEW AUSTRALIAN CUSTOMS TARIFF.

The changes referred to were reviewed in Monthly Reports for September, 1906, page 456 and September, 1907, page 991. The new tariff, after protracted debates in the House of Representatives and the Senate, finally passed through parliament on May 29, 1908. Many alterations and modifications were made in various schedules from the proposals first submitted. A summary of the present customs duties, under the general and British preferential tariff, upon the principal lines of Canadian goods and products exported to Australia, and a comparison with rates under the old tariff, is appended.

The changes referred to were reviewed in Weekly Reports Nos. 145 and 194. The new tariff, after protracted debates in the House of Representatives and the Senate, finally passed through parliament on May 29, 1908. Many alterations and modifications were made in various schedules from the proposals first submitted. A summary of the present customs duties, under the general and British preferential tariff, upon the principal lines of Canadian goods and products exported to Australia, and a comparison with rates under the old tariff, is appended.

NOTE.—N.E.I., means not elsewhere included.

## NET DUTIES HIGHER THAN TARIFF RATES.

In Monthly Report for September, 1907, page 991, I stated that the net customs duties collected in Australia on *ad valorem* goods were higher than superficially expressed in the tariff, for the reason that 10 per cent is added to the invoice value of the goods before the duty is computed thereon. As correspondence has recently reached this office requesting additional details of the net duties, it might be advisable to repeat the particulars for general information.

| "                             | 12½        | "     | 13½              |
| "                             | 15         | "     | 16½              |
| "                             | 17½        | "     | 19½              |
| "                             | 20         | "     | 22               |
| "                             | 25         | "     | 27½              |
| "                             | 27½        | "     | 30½              |
| "                             | 30         | "     | 33               |
| "                             | 35         | "     | 38½              |
| "                             | 40         | "     | 44               |

## INCIDENCE OF AUSTRALIAN TARIFF ON CANADIAN GOODS.

In the same report, just referred to, I reviewed the new tariff proposals, as submitted to the Commonwealth Parliament on August 8, 1907, and commented upon the fact that the new duties were particularly heavy upon the leading lines of Canadian exports to Australia. The tariff when finally passed shows a large number of modifications of which the following items are given as examples:—

|                                              | PROPOSED DUTIES.         |                                 | DUTIES IMPOSED.         |                                 |
|----------------------------------------------|--------------------------|---------------------------------|-------------------------|---------------------------------|

## PREMIER'S IDEA REGARDING RECIPROCITY.

On June 5, I interviewed the Prime Minister of Australia, Hon. Alfred Deakin, with reference to the proposals submitted on behalf of the Canadian government in regard to a reciprocal trade agreement between Canada and Australia. The Prime Minister stated that, as the general and British preferential tariff had only been finally dealt with on May 29, his government had been unable to consider proposals. He again expressed his personal sympathy towards the improvement of trade relations with Canada and intimated that, during the parliamentary recess, the question would be carefully gone into, with a view to taking up the matter later on this year. Parliament was prorogued on the 5th instant, and the next session will likely commence early in October.

On June 9, the Prime Minister of Australia cabled to the Prime Minister of Canada as follows:—

‘General tariff passed as session closed, hence subsidiary proposals for reciprocal preference to Canada, New Zealand and Papua (British New Guiana), which depended upon its passing, not ripe for submission. These probably tabled with iron bounty later this year.’

## AUSTRALIAN IMPORTS OF CARBIDE OF CALCIUM.

In 1906 the Australian Commonwealth imported 85,975 cwt. (112 pounds) of carbide of calcium, valued at £64,601. In 1907 the imports increased to 174,951 cwt., valued at £130,629, showing in both quantity and value an increase of over 100 per cent in comparison with the previous year.

The following return gives the country of origin, quantity and value of the Australian imports in 1907:—

| Country of Origin             | * Quantity. | Value.  |
|-------------------------------|-------------|---------|
|                               | Cwt.        | £       |
| United Kingdom.....           | 318         | 220     |
| Canada.....                   | 96          | 70      |
| Germany.....                  | 49,852      | 38,213  |
| Italy.....                    | 990         | 772     |
| Norway.....                   | 28,114      | 19,606  |
| Sweden.....                   | 78,165      | 58,833  |
| United States of America..... | 17,416      | 12,915  |
| Total.....                    | 174,951     | 130,629 |

## IMPORTATION OF CARBIDE BY STATES.

Quotations to Australian buyers of carbide are almost invariably made by cable upon a c.i.f. basis, *i.e.*, ex-ship's slings at port of destination with bank exchange added. The marine freight to Melbourne and Sydney is generally at the same rate, but to other Australian ports there is approximately an advance of 5s. (\$1.21) to 7s. 6d. (\$1.82) per ton. The 1907 importations of carbide by each Australian state, with principal port of entry, and values, are given, as follow:—

| State.               | Principal Port. | Quantity. | Value.  |
|----------------------|-----------------|-----------|---------|
|                      |                 | Cwt.      | £       |
| New South Wales..... | Sydney.....     | 97,382    | 72,739  |
| Victoria.....        | Melbourne.....  | 34,672    | 25,198  |
| Queensland.....      | Brisbane.....   | 19,462    | 15,110  |
| South Australia..... | Adelaide.....   | 13,797    | 10,408  |
| West Australia.....  | Freemantle..... | 8,325     | 6,139   |
| Tasmania.....        | Hobart.....     | 1,313     | 1,035   |
|                      |                 | 174,951   | 130,629 |

## CANADIAN CARBIDE OF CALCIUM IN AUSTRALIA.

From the preceding tables it will be observed that, while the Australian consumption of carbide is rapidly increasing, Canada is only credited with a very small quantity. Undoubtedly a quantity of Canadian carbide, shipped at New York, is credited to the United States as the country of origin, yet both countries combined only supplied about one-tenth of the Australian importations last year. Canadian exporters are at a disadvantage in competing with European suppliers by reason of the inland freight from factory point to port of shipment (New York), and the marine freight to Australian port of destination is slightly higher than from Europe. It is satisfactory to place on record the determined efforts being made this year by Canadian manufacturers of carbide to place their product on the Australian market. This line is duty free.

P. B. MACNAMARA.

## JAPAN, CHINA AND KOREA.

## REPORT OF TRADE COMMISSIONER.

(Mr. W. T. R. Preston.)

YOKOHAMA, June 30, 1908.

## SHRINKAGE IN NATIONAL TRADE RETURNS.

The returns of the trade of Japan for the last five months, January to May inclusive, show a decline of almost 30,000,000 yen as compared with the corresponding period of last year. The excess of imports over exports amounts to 80,000,000 yen as compared with an excess of 60,000,000 for the first five months of 1907.

The exports for the five months stated, show a decline of 24,000,000 yen when compared with the corresponding period of last year. The total trade of Japan for the five months has declined about 30,000,000 yen, compared with last year.

In articles under the head of food, drink, tobacco, in the export column, the statistics for the last five months show a diminution in comparison of last year's trade, on every class. In raw materials there is a decrease of 2,000,000, in goods partly manufactured a decline exceeding 12,000,000, in articles wholly manufactured a falling off of 9,000,000.

## SUGAR ON UP GRADE

In the export of refined sugar, an increase is shown for the five months of this year of 190,000 yen. This is claimed to be due to the policy of domestic sugar refining companies exporting at comparative low prices this product to North China, so as to secure a permanent market in that part of the world. The exportation of cigarettes continues to decline, the total for the first five months only amounted to 737,000 Yen. For the first five months of last year, the value of the great domestic product, raw silk, export amounted to 32,145,604 yen, while for the corresponding period of this year the exports amounted to 32,008,882 yen, showing a falling off of 136,722 yen. Cotton

yarns show a decline of 4,000,000, copper of 8,000,000, straw-board of over 1,000,000. In the exports for the five months, every item under the head of goods wholly manufactured shows a falling off.

Turning to imports again, it may be noted that for the five months there is a decline in the importation of rice of six and a half million yen. Wheat shows an increase of almost half a million; but in wheat flour there is a considerable falling off. On the other hand there is a large expansion in the import of beans, pease, and pulse, the total for the five months being five and a half millions, compared to three and a half millions in the corresponding period of last year.

Machinery for manufacturing purposes, however, still shows a considerable increase. The figures under this head for the five months being 6,000,000 in excess of the corresponding period last year.

#### VARIOUS THEORIES ON DEPRESSION.

It is difficult to arrive at any well grounded conclusions as to the financial state of Japan from the mere perusal of these trade returns. Political economists of every shade advance their own theories as to the cause of the financial depression which now exists in Japan. British speculators who spent several months here in an effort to purchase for London capitalists, the entire railway system of Japan, returned to the centre of the financial world, having been disappointed in their efforts, and seriously announced to the public of London, that the depression in Japan was due to the determination of the Government to retain the railway as a state investment. The publisher of a newspaper in the English language in Japan, the editor of which is a citizen of the United States, as well as strongly anti-Japanese, attributes the commercial depression in Japan to the large annual expenditure on militia and naval matters, and suggests that the national finances of Japan can only be placed on a proper footing by ceasing to spend public money in naval armaments. Other reasons apparently as self-interested or equally ridiculous, are seriously propounded in Japan as to the causes for the present period of depression.

#### MONEY MARKET IS ELASTIC.

As to the prospects of the future, a careful inquiry, however, among large business houses, whether Japanese or foreigners, as well as in financial circles, justifies the conclusion that within the last few weeks the money market has shown considerable elasticity, and banking corporations are more readily assisting their customers to tide over what they claim to be only a temporary depression in commercial circles.

In the meantime, however, throughout the manufacturing districts, the evidence is conclusive, as may be seen by the importation of machinery, that the industrial expansion of Japan has received but a slight check, if at all. Local expenditures are being carried on in the widening of streets, the installation of public utilities in all the centres of population, and 'the burdens of taxation' are, apparently, causing no uneasiness to the contributing masses. The probabilities are that the season of depression that Japan has been experiencing for the last few months will pass away rapidly, as is likely to be the case in the great countries on the continents of Europe and America.

YOKOHAMA, June 20, 1908.

## RICE TRADE OF JAPAN.

The figures have just been published by the agricultural department, giving the total amount of export and import of rice during the last ten years. The total quantity exported is represented by 19,018,000 bushels and valued at twenty-six million dollars. The quantity imported during the same period was 148,038,000 bushels representing a value of one and fifty-five million dollars.

The rice grown in Japan finds a ready market in foreign countries, and yields to the producer a slightly higher price than the rice which was imported from China for domestic purposes. The quantity, however, which is imported will give a fairly clear idea of the dependence of the enormous population of Japan outside for food supplies.

## PROPOSED MUNICIPALIZATION OF THE STREET RAILWAYS.

The street railways of Tokyo have been developed within the last few years; before the outbreak of the war with Russia, the street railway system was less than a mile in length. The franchise was given to a private company for a period of fifty years, at the expiration of which time the railway with all its appurtenances, extensions and properties is to fall into the possession of the municipality of Tokyo upon very liberal terms. From the very beginning the receipts of the company have furnished liberal dividends to the shareholders. With the constantly increasing mileage, the investment has turned out remarkably profitable to those who were fortunate enough to secure shares.

The agitation has been growing in force during the last two years, for the immediate purchase by the municipality of the property and privileges held by the company. But in the meantime the company has continued to extend the lines with the natural result that every month they have been able to show a constant appreciation in the value of the company's possessions. At the present time, there are about one hundred miles of railway in operation in Tokyo with a revenue last year of 1,550,000 yen, and the amount that was paid to the municipal treasury was 15,000 yen only. As the result of the negotiations between the representative of the municipal councils and the company, the purchase of the railway by the municipality was agreed upon for about 80,000,000 yen, or \$40,000,000 currency. This is the sum that it is calculated will be necessary to purchase the stock of the company. It is hardly necessary to say, that this represents considerably more than the par value of the stock.

## OPPOSITION TO THE SCHEME.

The powers of the municipality of Tokio are limited, and in respect to certain expenditures, the city council has to secure the consent of the Imperial government. The finance department of the Imperial government has had the subject under con-

sideration for some time, and it is now rumoured that the conclusion has been reached not to allow the municipality to purchase the street railway system for this large sums of money, on the grounds that the municipality might better withhold its responsibility until the expiration of the franchise, when the city council may assume possession upon much better terms.

#### A UTOPIAN STREET CAR SERVICE.

The advocates of the purchase of the system by the municipality, however, will undoubtedly continue their agitation, and it will be coupled with an appeal to the public, promising that if the municipality shall become immediately into possession of the system, the fares will be considerably reduced. This, of course, will appeal to popular interests. On the other hand the managers of the company, if the system is not purchased by the municipality, have announced their intention of increasing the fares. The fares now existing under the system of tickets is 4 sen (equal to 2 cents) and carries with it the privilege of any number of transfers that may be necessary to complete the journey. The stopping places are 320 yards apart between the two great railway stations, and 400 yards apart in all the other lines. The cars are always crowded. The system of trailers has not yet been introduced. Passengers are allowed to stand until a car is crowded. If the company was compelled by law to furnish a seat for every passenger, nearly half of those desiring to use the lines would be unable to find accommodation. Notwithstanding the crowded and uncomfortable character of the service, even in hot weather, it is the rarest thing in the world to see any evidence of discourtesy, or impatience, between the officials and the passengers, or among the passengers themselves. The sterner sex invariably give up their seats to the woman-folk, and they also nearly always offer the same courtesy to Europeans.

#### MINIMUM DEATH RATE ON RAILWAYS.

In the last full year, for which the returns are available, it is found that the number of persons employed on government and private railway companies in Japan, and the number of passengers carried by these lines aggregated 125,876,717. Among these were 19 deaths, and 313 injuries from accidents. The number of deaths were therefore in round figures 15 per 100,000,000, and the number of injuries were 25 per 10,000,000.

The government railways carried more than 47,500,000 passengers during the year in question, and among these were no fatal casualties. The eight passengers killed met their death on private lines, and the passengers carried by these lines totalled 78,228,468. This indicates that on all Japanese railways, during that year, the number of passengers killed was 1 to every 15,000,000. This record is all the more remarkable in comparison with the ratio of the passengers killed in Great Britain and Ireland, which was 1 to 8½ millions, and the corresponding figures in the United States was 1 to 2½ millions.

#### MORTALITY AMONG RAILWAY EMPLOYEES.

The number of railway employees during the same year on government and private railways totalled 81,339. There were 11 fatal accidents to employees on these lines. Working the figures out in detail, it is shown that the ratios were 1 to every 14,911 employees on the government lines, and 1 to every 3,098 on the private railways, or 1 to every 7,393 over the whole railway system of Japan.

Turning to the ratio of passengers injured, here again the record is greatly in Japan's favour. In respect to the injuries to employees, the record of Japan during the year in question, was 1 to 732, as compared with 1 to 116 in the United Kingdom, and 1 to 26 in the United States.

In the fatalities in the mining enterprises, Japan does not show as good a record. Four persons per 1,000 of those employed met death in the mines in Japan, in comparison to 3.40 per 1,000 in the United States, and 1.28 per 1,000 in Great Britain.

## PROJECTED RUBBER INDUSTRY.

The import to the Orient of the British Dunlop tyres is growing in an astonishing manner, year after year. The importations of bicycles into Japan has increased from 19,326 in 1905 to 34,523 in 1907, has created an active demand for rubber tyres. The aggregate value of these importations last year represents 1,300,000 yen. The import of rubber tyres alone is said to be not less than 250,000 yen, in addition to which there are imported rubber tyres for automobiles and jinricksha wheels, and for several other technical purposes.

## MERGER OF RUBBER FACTORIES.

It is reported that a representative of a French syndicate is negotiating to bring the rubber factories in Japan into co-operation with the proprietors of the Dunlops and two or three other specialists rubber manufacturing establishments from France. The intention is to supply the local markets, and eventually secure the export business to Korea, China, India, Siam and the Strait Settlements. The new enterprise will shortly be inaugurated with a capital of 750,000 yen fully paid up shares. At present there are six companies engaged in the rubber-making industry in Japan, and the total capital of these enterprises aggregates 450,000 yen.

## QUALITY OF GOODS NOT FIRST-CLASS.

So far, the quality of rubber goods manufactured by these factories in Japan has not been first-class. Nevertheless, it is quite true that the whole product is replacing quantities formerly supplied by imports from foreign countries. The local product has not altogether met with the approval of the public, on account of its weakness and inability to stand wear. This, however, is a natural result from manufacturing a cheap class of goods that domestic enterprises endeavour to supply. One or two of the establishments, however, have made changes in the basis of the material from which these goods are manufactured, have been charging a considerably increased price, and have placed articles on the market quite equal to the best of the kind that have been imported. A pair of men's ordinary rubbers, which probably sell in Canada for sixty cents, cost 2:40 yen, or \$1.20 in currency here.

The tariff on manufactured rubber goods is from 20 to 40 per cent, while the raw materials are admitted free; but the manufacturers of the domestic products have endeavoured to retain almost the price of the imported articles, while supplying the much inferior article. This state of affairs, however, it is expected, will be remedied by the co-operation arrangements that are now being effected with large manufacturing concerns in Great Britain and France.

## COMMISSION OF INQUIRY INTO JAPANESE SHIPPING.

The Imperial government has appointed a commission to investigate and report on the advisability of revising the laws and regulations regarding the encouragement of ship-building and navigation. The duties of the commission will be to investigate the results that have been obtained through the policy of subventions hitherto adopted by the government, to inquire into and report upon the various systems of the government subsidies to steamship lines in Europe and America. The commission is expected to inquire into the revenue and expenditure of the Japanese steamship lines running to Europe, Australia, and the United States; in so far as possible, to secure information of a similar character respecting rival steamship lines; and also report on the present conditions and future prospects of the passenger and freight trade between Japan and these several countries. These inquiries are being made so that the government may decide as to the methods that should be adopted for the encouragement of Japanese shipping, when the present mail and steamship subsidies shall expire in January, 1910.

## JAPANESE ENTERPRISE IN MANCHURIA.

The active manner in which the Japanese are endeavouring to extend their trading operations to Manchuria is evident from the fact that between 25 and 30 Japanese firms have established their headquarters at Tairen, better known as Dalny, under the Russian regime. The authorised capital of these companies aggregate 55,000,000 yen, of which 35,000,000 are paid up.

## MILITARY STUDY OF FOREIGN LANGUAGES.

The official gazette publishes the regulation relating to the encouragement of the study of foreign language by army officers. All the necessary provisions are made to have the language tests conducted under careful conditions. The candidates who are to enjoy these special privileges are all the younger officers in the army. Successful candidates who succeed in passing the official examination will be sent abroad to complete their studies. The allowances to these officers are as follows: Students of the Russian language are divided into three classes, A, 3,200 yen; B, 2,500 yen; and C, 2,000 yen; of English, 2,300 yen; of French, 2,100 yen; of German, 1,900 yen; and of the Chinese 1,400 yen.

## NEW ENTERPRISE IN JAPAN.

Since June, 1905 up to May, 1908, the capital invested in the new enterprises, and in the extension of existing manufactures may be stated as follows:—

|                          | Capital of newly<br>started<br>enterprises.<br>Yen. | Extension of<br>capital.<br>Yen. |
|--------------------------|-----------------------------------------------------|----------------------------------|
| Banking.....             | 57,640,000                                          | 102,532,000                      |
| Spinning.....            | 37,603,000                                          | 52,605,000                       |
| Electric.....            | 138,580,000                                         | 39,760,000                       |
| Mining.....              | 92,720,000                                          | 20,000,000                       |
| Marine products.....     | 33,125,000                                          | 1,760,000                        |
| Railroads.....           | 348,804,000                                         | 119,469,000                      |
| Manufacturing.....       | 382,131,000                                         | 127,262,000                      |
| Navigating.....          | 44,000,000                                          | 14,900,000                       |
| Insurance.....           | 41,600,000                                          | 21,250,000                       |
| Commerce and others..... | 157,653,000                                         | 16,453,000                       |

These figures sub-divided by the years are as follows:—

|                         | Yen.        | Yen.        |
|-------------------------|-------------|-------------|
| Later half of 1905..... | 61,514,000  | 89,428,000  |
| 1906.....               | 717,103,000 | 220,473,000 |
| 1907.....               | 458,091,000 | 216,686,000 |
| Up to May, 1908.....    | 33,148,000  | 29,505,000  |

YOKOHAMA, June 30, 1908.

## ACTIVITY IN THE WHALING INDUSTRY.

The search for whales in Japanese waters is carried on with a considerable degree of activity by Japanese fishing companies. There are about 20 whaling steamers employed in these operations, with crews aggregating 400 or 500 mariners. The total number of whales captured in Japanese waters last year, amounted to 806 as against 268 in 1906. In addition to this catch, the fleet succeeded in taking about 400 in the waters immediately contiguous to Korea. The whaling industry is not intermittent, but is carried on with persistent activity throughout the whole year. The whaling industry has developed almost altogether since the Russian-Japanese war.

The headquarters of the fleet changes from time to time, according to the movement of the whales, incident to the changes in the season. In summer, operations are conducted in the neighbourhood of Choshi and Kinkwasan, and in the winter, from October to April, in Tosa, Kishiu, and Korean waters. According to the Imperial reports, the whaling industry at present is extraordinarily profitable. One of the whaling companies declared a dividend last year of more than one-half the entire capital stock of the company. Only two of the steamers employed in the whaling industry were made in Japan, all the others were imported from Norway. The whaling industry is no longer carried on as it was a few years ago, by launching small boats for the purpose of pursuing the whales and harpooning with implements used by hand. The whaling boats now are well equipped fast screw steamers, in the bow of which is a harpoon gun, which becomes as unerring in its flight at the object aimed as a naval gun. This renders the calling of whalers far less dangerous to human life than under the old system, and at the same time proves much more profitable to those engaged in the business.

#### WHALE MEAT AS FOOD.

The meat of the whale that can be used for eating purposes is very limited. There are two kinds, 'Barena Japonica' and 'Kokujira,' both small whales, are the only ones used. The whale meat is put on the market in cans or tins, by several of the whaling companies. It costs about 4.70 yen (\$2.35 currency) per case, containing four dozen 1 lb. cans or tins, and is mostly used by those who are living in remote and mountainous places in Japan. It is always in demand for food for these distant places because it is cheap.

I have been prompted to make these inquiries in consequence of an application from British Columbia for information as to the possibility of buying Japanese whaling steamers. A rumour having reached British Columbia that the industry here was in an unprofitable condition. My inquiries resulted, as might be expected from the foregoing, in finding that no Japanese whaling boats or ships are for sale.

#### PURCHASING BY AGENTS RAISES PRICES.

I have just come across information respecting two items of trade with Canada which may not be uninteresting. In one case a Canadian buyer made a purchase of silk direct from the manufacturers or merchants in Japan. In the other case a Canadian buyer instructed a commission house in New York to purchase for him certain kinds of silk in Japan. This commission agency in New York then communicated with another commission house in Japan, instructing the party here to make the purchases in question. Eventually the goods purchased under these circumstances will reach the Canadian buyer, if they have not already done so; but in the meantime, they will have passed through the hands of two commission merchants who naturally will have charged for their services, thus adding not a little to the cost of the imported articles.

I frequently hear the statement made in respect to information that is furnished in official records, that government reports are seldom read by the general public. This is probably one of those cases. Anyone in Canada desiring to deal with manufacturers in Japan must get into direct contact with producers here if he desires to make purchase at the lowest possible prices. If it is possible to avoid the expense of two or three outside commission agencies, it seems reasonable that efforts should be made to do so. The information that will enable a Canadian buyer to purchase direct may be procured from the Canadian Government offices here. The officials of the Commercial Service always consider it a pleasure to furnish all the information that may be needed to enable Canadian traders to effect their purchases at the lowest possible cost, and at the same time avoid all unnecessary expenses. The incident that forms the subject of this paragraph is probably one which the circumstances justifies this special reference.

## SPECIFICATIONS MUST BE FULFILLED.

Information has just reached me of the failure of a Canadian firm to carry out instructions as to specifications respecting a certain order placed with them by an extensive importing establishment in Japan.

The shipment, as it was received here, failed in almost every particular to comply with the specifications that were furnished when the order was given. It is almost impossible for a mercantile house to make a greater mistake in opening trade with the Far East than by allowing any carelessness in the details of an order. There never was a more mistaken idea that anything will do for the East, or anything will do for the Japanese. The Japanese are as shrewd, sharp, clear-headed business men as exist anywhere. Every Japanese trader thoroughly understands the difference between commodities required in his business and those that may be furnished that do not comply with the orders that he has given. When a Japanese orders from abroad articles of a certain kind, he is not going to have palmed off another character or another quality of goods. He makes his own choice, and when he gives an order he expects his directions complied with to the letter. Therefore, in dealing with Japanese, or with Chinese so far as the subject matter is concerned, Canadians of every class might better make up their minds to follow implicitly the directions and specifications that are given when they are filling orders for the East. If they are not able to comply with the specifications and conditions, it will be better to refuse the orders altogether. Otherwise they put themselves in a position of creating an unfavourable impression in the first place in regard to their business capacity, and secondly they are certain to meet with financial losses, by failing to fill the orders as they may have been given. In either event, they have only themselves to blame if their business ventures in the East fail to be profitable.

## ENORMOUS INCREASE IN CONDENSED MILK.

The importation of condensed milk in Japan is increasing enormously. In 1901 the value of this product imported into Japan amounted to 641,000 yen, while last year the importation reached 2,062,000 yen. These figures show an increase of more than three times in value within seven years.

In respect to the countries from whence condensed milk is imported, the United States stands first on the list, 58 per cent being the share of that country in this importation into Japan. Next on the list comes Great Britain with 25 per cent, followed by Switzerland with 13 per cent.

## NO CANADIAN BRANDS IN THE FIELD.

The importation from Canada is very small, being only to the value of 600 yen in 1906, which increased to 3,000 yen last year; but no Canadian brand is widely known here. This may be the means of directing the attention of possible importers of condensed milk from Canada upon the advisability of adopting a 'brand,' or name, which should be duly registered as a trade mark in Japan, and then properly advertised.

The high cost of the materials, especially sugar, which in Japan is quite expensive, and the comparative indifference about cattle-breeding is not likely to bring about a development of this industry in the near future. With a constant progress in the change and mode of living in Japan, it is quite within the mark to say that the demand for condensed milk in the future will increase even more largely than it has during recent years. It is well worth while for Canadians engaged in the manufacture of condensed milk to study the market here personally, and put forth efforts to secure the sale of their goods in Japan.

## FOREIGNERS DEMAND CREAM.

It is difficult to arrive at the exact figure of the value of the importation of cream into Japan, inasmuch as this particular commodity is not specified in the customs reports. The demand for cream is limited, and I may say is largely used by foreigners

and by comparatively small number of Japanese. But if the merits of this luxury, put up as it is in the case of 'Jersey cream,' were better known, it might fairly be expected that a demand would increase year-by-year, as has taken place in the case of condensed milk, which at one time had as slight a hold upon the market as cream has now. The Canadian commodity was sent to Japan by a Japanese in Canada to a merchant friend in Tokio as an experiment. The freight charges were paid in Canada, and therefore the rate cannot be given here.

The freight rates on this commodity to Japan from countries other than Canada are as follows:—

From London, per ton or 40 cubic feet, 50s.

From New York via Suez, ton or 40 cubic feet, 90s.

From Switzerland, same rate as from London.

From New York, via San Francisco, 28 cents per case, which works out at about \$8.60 per ton.

#### INCREASING QUANTITIES OF JAMS AND JELLIES.

According to the customs report, it is evident that the importation of jams and jellies is increasing. Last year it may be stated that the quantity imported amounted to 135,300 kin, the value of which was 30,100 yen, or in round figures only \$15,000. Ninety per cent of the total importation came from Great Britain, and was the manufacture of Crosse & Blackwell, London. This firm, as may be seen from the figures, practically monopolises the market in Japan. No jams and jellies are made in Japan. Those engaged in the sale of this commodity state that the demand is increasing in a marked manner, and they expect in the course of a few years that the importation of jams and jellies will take a place with the figures represented by the importation of condensed milk.

#### FOREIGNERS SHARE IN JAPANESE TRADE DECREASING.

Owing to the inexperience of Japanese with foreign trade in the early history of the opening of the markets of the Empire, and the limited knowledge of foreign languages and conditions by the Japanese, the entire import and export trade of Japan was taken possession of by foreign merchants who established their centres of business here. In 1877, 94 per cent of the exports and 95 per cent of the imports were done by the foreign commercial houses at the several ocean ports of the Empire. The balance of the trifling percentages was in the hands of Japanese who were apparently struggling to transact the business of their own country.

Until about twelve years ago very little change was effected between the foreigners and the local traders in the control of the foreign trade of Japan, but during the last few years very great changes have taken place. The percentage of business transacted by the foreign firms has been slowly but surely declining, and the Japanese interests have been increasing in a similar ratio. The changes that have been brought about during the last seven years have been singularly evident, as it was about that time the Japanese merchants really began to awaken to the possibilities that existed for commercial success in the over-sea trade. Up to 1903, it is estimated that 60 per cent of the foreign trade had accumulated in the hands of the Japanese, who in the meantime had opened large receiving houses in Great Britain and the United States.

Absolutely authentic figures for the last four or five years are not available, but a cursory glance at the situation leads to the conclusion that the Japanese share of the import and export trade is increasing rapidly, and that the time is not far off that the figures of 1877 will be absolutely reversed.

#### DEPRESSION IN FLOUR TRADE.

Flour trade in Japan is in a rather depressed condition at present. For some reason or another, the importations from the western of the United States have been very large. Several large consignments have been received by flour dealers here, which had not been ordered by them, and these consignments have been placed on their hands

to be disposed of as soon as the market is at all favourable. This flour is quoted at a slightly lower price than usual, in consequence of the very low freight rate which has been adopted by the liners running from the United States ports.

Prior to the war with Russia, there was only one flour milling company in Japan, namely the Nihon Seifun Kaidha, with a capital of 1,000,000 yen. This company continues to be fairly prosperous, but after the war three new companies were organized in anticipation of the cheapness of new Japan wheat, as well as an expected product from Korea and Manchuria, as a result of the activity of wheat development in both of these countries. Their expectations have not materialized, as they had to import a considerable quantity of wheat from other countries. The mills have not proved as profitable as was expected.

These influences, together with the present depression in the flour trade, and the natural decline in the prices of the various grades of flour that have been placed on the Japanese market, has resulted in the stock of two or three companies being somewhat depressed. One of the most popular brands of flour which a few months ago held a market here at 2.80 yen per bag of 50 lbs., is now quoted at 2.42 yen. A very large flour importer informed an official connected with this office a day or two ago, that he is now selling foreign flours at a loss from twenty to thirty sen a bag. Under these circumstances it can be readily seen that it will not be advisable for Canadian flour to be placed upon the market until there is a recovery in prices, which it is expected will take place, as the result of improved conditions in financial circles towards the end of the year. Thirty-two thousand bags of flour were unloaded here last week from the United States, upon which a freight rate of only \$2 per ton was paid. The rate on Canadian flour from Vancouver at the same date was \$3.50 per ton.

#### DECREASE IN OPIUM SMOKING IN FORMOSA.

Owing to the action of the Government of Formosa, which of course is subject to Japan, it is interesting to note that the number of opium smokers is gradually decreasing on the island. In 1897, the Japanese government took the necessary steps to make the opium traffic an official monopoly, and in that year enacted a law, in virtue of which no person is allowed to use the narcotic without an individual license from the Formosan officials. This system of individual licensing has furnished an opportunity of securing statistics of the number of persons addicted to the use of the drug. In addition, it may be said, that the authorities are doing all they can with a view of instructing the public about the evil effects of the habit.

In 1900 there were 165,750 addicted to the use of opium smoking in Formosa. By the end of 1906 this number had been reduced to 120,330. The official returns for 1907 are not yet issued, but it is unofficially stated in the Statistics Department, that there has been a slight further decline. It might also be noted that the statement that one is addicted to the use of opium does not, by any means indicate that the person is a slave to the habit from the standpoint of using it to a dangerous degree. The stigma attached to the term 'an opium smoker' may simply mean that one is addicted to the use of opium, and perhaps only in the same degree that a moderate drinker of alcoholic liquors might indulge his taste to a moderate extent in Canada. Anyone in Formosa using opium to the slightest degree, has to bear the stigma of being 'an opium smoker.' It is said among those who have given the subject some attention in the East, that a very large percentage of the so-called opium smokers use the drug to a slight degree as a Westerner who may indulge in occasional alcoholic beverages, and yet really be as far removed from being a slave to the habit as the Westerner is from being a drunkard.

A statement has just been issued from Hong Kong, claiming that only two per centum of the entire population of China are opium smokers. But in view of the lack of facilities for collecting such statistics, the figures cannot be regarded as authentic. Although it must be admitted that a tourist to China has no little difficulty in getting into touch with the alleged prevalence of the habit. From the figures available about

Formosa, it is evident that the opium smokers or users, in the degree referred to herein, number four per centum of the people of the island. It is generally acknowledged that the habit is more prevalent in Formosa than in China.

#### FALLING OFF IN EXPORT OF HABUTAI.

The total value of habutai exported from Yokohama during the first five months of this calendar year, aggregated 8,816,000 yen. This shows a decrease of over a million yen compared with the corresponding periods of 1906 and 1907. The quantity exported exceeded that of the periods mentioned in the last two years, but the decrease in value was owing to the general slump in the market price of such goods in the western continent. Notwithstanding the loss or damage in the export of this staple of Japan's, caused by the panic in the United States, there is a largely increased demand for this product from India and Australia. The opening up and expansion of these latter markets to the exportation of this great product of Japanese industry will, it is expected, have a very favourable influence in assisting to improve the financial condition of the Empire.

#### INCREASED RAILWAY FREIGHT RATES IN AMERICA.

Japanese exporters are very much disturbed over the information that has reached here from the United States and Canada, of the intention of all the trans-continental railway lines of North America shortly, to increase largely the freight rate on the products of Japan that may be consigned over these lines to the eastern ports of Canada and the United States. If the proposed freight charges are put into operation, it is very likely that steps will be taken by Japanese who are interested in the eastern trade of the North American continent, to establish regular freight connections with North America via Suez Canal.

Naturally the proposed increase in the freight rates will cause a disturbance of trade at the beginning. The time occupied now in the delivery of goods between a Japanese port and New York, via the Pacific Ocean, takes from thirty to forty days. Nevertheless, the very great difference between the proposed rates on the North American transcontinental lines, and the rates that can be secured via Suez Canal and the Atlantic Ocean, will, so soon as the general export trade can arrange the necessary programme, result in a decrease of exports via the Pacific, and a considerable increase via the Suez Canal.

W. T. R. PRESTON.

#### SOUTH AFRICA.

##### REPORT OF TRADE COMMISSIONER.

(*Mr. John A. Chesley.*)

RHODES BUILDING, CAPE TOWN,

P.O. Box 668, June 19, 1908.

#### IMPORTATION OF CARBIDE OF CALCIUM.

The consumption of carbide of calcium in British South Africa is steadily increasing. The customs returns for 1907 show a large increase in the quantity imported during the year, compared with the corresponding period of the last pre-

ceding year. The total importations during the year ended December 31, 1907, were 4,007,633 lbs., valued at £21,808 sterling (\$109,040.)

The following statement shows the countries whence this carbide of calcium was imported, and the quantities obtained from each during the year 1907, also the quantity, and value, the countries whence imported, and the quantities obtained from each during the year ended December 31, 1906 :—

|                      | 1907.     |        | 1906.     |        |
|----------------------|-----------|--------|-----------|--------|
|                      | Quantity. | Value. | Quantity. | Value. |
|                      | Lbs.      | £      | Lbs.      | £      |
| Sweden.....          | 2,373,679 | 12,985 | 1,020,126 | 5,644  |
| United States.....   | 757,382   | 3,812  | 426,598   | 2,127  |
| Canada.....          | 368,476   | 1,956  | 419,560   | 2,269  |
| Italy.....           | 285,602   | 1,544  |           |        |
| Norway.....          | 61,759    | 330    | 99,874    | 600    |
| United Kingdom.....  | 59,104    | 519    | 101,499   | 347    |
| Germany.....         | 45,138    | 326    | 147,210   | 767    |
| Denmark.....         | 27,648    | 140    | 36,080    | 173    |
| Belgium.....         | 17,733    | 106    | 19,104    | 108    |
| France.....          | 11,000    | 89     | 23,323    | 47     |
| Austria.....         |           |        | 12,720    | 62     |
| Other countries..... | 112       | 1      | 360       | 5      |
|                      | 4,007,633 | 21,808 | 2,306,454 | 12,149 |

It will be seen from the above figures that the imports of this product into British South Africa during the year 1907, show an increase in quantity of 1,701,179 lbs., and an increase in value of £9,659 sterling, over the imports of 1906. Of the 4,007,633 lbs. imported during the year 1907, Sweden supplied 2,373,679 lbs., valued at £12,985, a little over half the whole quantity.

#### DUTY ON CARBIDE OF CALCIUM.

An ad valorem duty of 3 per cent is levied on carbide of calcium imported into British South Africa. But as the whole amount of which (under the Preferential Tariff) is rebated to the United Kingdom, and reciprocating British colonies, carbide of calcium manufactured in Canada enters South Africa free of customs duty.

#### GROWING MARKET WARRANTS CONSIDERATION.

The increased consumption of carbide in this country during the past year, and the probability of a further increase in the near future, would warrant Canadian manufacturers in giving due consideration to the advisability of increasing the export of this product to the South African market.

The preference of 3 per cent in the tariff, given the Canadian article against foreign countries, should be very useful to Canadian exporters in securing South African business, especially as the customs returns show that the largest importations are from foreign countries, not participating in the preferential treatment given the Canadian manufacturer. The United Kingdom and Canada are the only countries in the past two years from which imports were made and entered under the preferential tariff. Sweden, the United States of America and Italy, are Canada's chief competitors for the carbide trade of South Africa, and their goods are subject to an ad valorem duty of 3 per cent. Canadian manufacturers and exporters having free entry here for this product, should be in a position to secure a much larger share of the carbide trade of this country than they have had in the past; indeed, it is quite possible for Canadian manufacturers by giving the matter careful attention,

to increase largely the quantity exported from Canada to the British South African market.

#### INCREASE IN IMPORTATION OF OATMEAL.

There was imported into British South Africa during the year ended December 31, 1907, 8,099,482 lbs. of oatmeal, valued at £69,457 sterling (\$347,285) an increase of 893,271 lbs., valued at £9,382 over the imports of the corresponding period of 1906.

The following statement shows the countries whence this oatmeal was imported, and quantities obtained from each during the year 1907, also the quantity and value, the countries whence imported, and the quantities obtained from each during the year ended December 31, 1906 :—

|                      | 1907.     |        | 1906.     |        |
|----------------------|-----------|--------|-----------|--------|
|                      | Quantity. | Value. | Quantity. | Value. |
|                      | Lbs.      | £      | Lbs.      | £      |
| Canada.....          | 4,412,218 | 37,072 | 2,014,036 | 16,752 |
| United Kingdom.....  | 3,250,437 | 28,620 | 2,963,228 | 24,542 |
| United States.....   | 431,111   | 3,719  | 2,211,731 | 18,650 |
| Russia.....          | 3,342     | 19     | 2,240     | 13     |
| Germany.....         | 1,815     | 20     | 11,756    | 91     |
| Other countries..... | 559       | 7      | 3,220     | 27     |
|                      | 2,099,482 | 69,457 | 7,206,211 | 60,075 |

The above figures show a large increase in the quantity and value of oatmeal imported into British South Africa during the fiscal year, 1907.

#### CANADA'S SHARE CREDITABLE.

It is gratifying to note the remarkable increase in the quantity and value of oatmeal imported from Canada during the past year. Of the total 8,099,482 lbs. imported in 1907, Canada supplied 4,412,218 lbs., valued at £37,072 sterling (\$185,360), considerably over half the whole importation. The quantity imported from Canada has risen from 2,014,036 lbs., valued at £16,752 in 1906, to 4,412,218 lbs., valued at £37,072 in 1907, an increase of 2,398,182 lbs., valued at £20,320 sterling (\$101,600) in one year.

JOHN A. CHESLEY.

## SWEDEN, NORWAY AND DENMARK.

REPORT OF COMMERCIAL AGENT.

*(Mr. C. E. Sontum.)*

CHRISTIANIA, NORWAY, GAUBBEGD, No. 4, July 3, 1908.

## SUGGESTED IMPROVEMENTS BY SWEDISH BUTTER EXPORTERS.

The director for the Skonska Butter Export Association of Sweden has sent in to the Department of Foreign Affairs an application for the following facilitations, which are deemed necessary in order to bring the Swedish butter exporters on the same footing as the Danish: quicker railway transportation; permission to unload the cars immediately after arrival, also outside of the regular hours; improved ice-cooling methods on the railroads and no extra charges for transport in ice-cooled cars, which latter charge now is kr. 3.00 (\$0.80) per car.; lower freight rates, equal to those on the Danish roads; the doing away with the charge for railroad bills of lading; compensation from the railroads in case the butter arrives in damaged condition; the abolishing of the harbour dues; drawback for the salt used in the making of butter exported, as in Denmark; and the starting of a new and direct steamship communication between Malmo and England, preferably with Swedish government subvention, that the transport charges of the Swedish butter may come down to the same level as for Danish butter.

## SWEDISH TURF LITTER FACTORIES.

According to the official statistics of Sweden there were in that country in 1903, 38 turf litter factories, while now there are 175 such factories with a production 10 times as large as in 1903. The cause of this increase in the number of factories and their production must for a greater part be credited to the ease with which loans are obtained from the government from a special fund set aside for this purpose.

## WOOD-PULP MARKET IN DENMARK.

The year 1907 started with a rise in the prices of wood-pulp, which continued during the year, until wet Norwegian wood-pulp finally was about 50 per cent higher than at the same period in 1906. This consequently was of considerable importance to the Danish paper factories, although they had to a large extent covered their needs when the prices were low. They bought what was required later from the Swedish wood-pulp mills, which could sell cheaper than the Norwegian mills.

During 1906 there was imported to Denmark 86,700,000 pounds cellulose and wood-pulp to a value of \$776,800, of which 35,000,000 pounds came from Norway and 48,500,000 pounds from Sweden. Of the total import, 63,000,000 pounds was consumed in the country itself. The corresponding figures for 1907 are not yet published, but as far as can be estimated, the total import of cellulose and wood-pulp for inland consumption in that year will amount to about 70,500,000 pounds.

## TRAFFIC ON THE BERGEN-CHRISTIANIA RAILWAY.

Recently the first regular passenger trains were despatched in each direction on the railway that traverses the great mountain barrier between Bergen, the chief city of Western Norway, and Christiania. It will probably take the management at least a twelvemonth before the enormous difficulties that nature places in the way of railway traffic in these regions have been completely overcome. The official inauguration ceremony will not take place before the broad gauge Bergen railway has been joined to the Northern railway, leading into Christiania, probably in 1910.

This new railway which passes for 50 kilometres through regions of almost permanent snow and ice, and which reaches an altitude of 1,300 metres above sea level, will no doubt for a long time to come hold the record as far as engineering and traffic difficulties are concerned in the railway construction of the world. The Gravehals tunnel is in itself a great triumph of engineering skill; at an elevation of 860 metres over sea level, it has a length at 5,311 metres. It was constructed by the contracting firm Strom & Horneman in nine years.

The railway is expected to show a surplus on the working after a year or two and will be one of the principal tourist attractions of our country, completely changing the travelling route in many directions.

#### THE NORWEGIAN WOOD-PULP MARKET.

Several big contracts of mechanical pulp for delivery 1909 and 1910 have been reported at full prices. In most years the stocks of mechanical pulp at the Norwegian mills are higher on July 1 than on April 1, because in the meantime the Baltic ports have been opened and paper makers abroad have got large supplies from Sweden and Finland. This year, however, is likely to prove an exception to the rule, for the Norwegian mills are shipping as much as they are able to, in order to satisfy the urgent demands of their customers. Their warehouses are therefore getting emptied week by week.

#### BIRMINGHAM.

##### REPORT OF TRADE COMMISSIONER.

(*Mr. P. B. Ball.*)

39 AND 40 CENTRAL HOUSE, CHRISTCHURCH BUILDINGS,  
BIRMINGHAM, ENG., July 17, 1908.

##### APPLICATION OF ELECTRICITY TO AGRICULTURE.

Sir Oliver Lodge, principal of the Birmingham University, has prepared a statement showing the results of experiments in the application of electricity to crop growing, which is as follows:—

‘The method is to stretch over the field to be treated a number of wires on poles, something like low telegraph wires, but high enough for loaded wagons and all the usual farming operations to go on underneath the wires without let or hindrance. The wires are quite thin, and are supported by a few posts in long parallel spans, about 30 feet apart. They are supported on the posts by elaborate high-tension insulators, and they extend over all the acreage under experiment, a control plot of similar land under similar conditions being, of course, left without any wires. The system of conductors is then connected at one post with a generator supplying positive electricity at a potential of something like 100,000 volts, and with sufficient power to maintain a constant supply of electricity at this kind of potential. Leakage immediately begins, and the charge fizzes off from the wires with a sound which is sometimes audible, and with a glow which is visible in the dark. Any one walking about below the wires can sometimes feel the effect on the hair of the head, as of a cobweb on the face. They are then feeling the stimulating action of the electrification. The electrification is maintained for some hours each day, but is shut off at night; it is

probably only necessary to supply it during the early morning hours in summer time, and in spring time or in cold, cloudy weather for the whole day, or during the time of the plant's greatest activity.

But at what stages of the growth of a plant the stimulus is most effective has still to be made out. However, in the case of wheat, both the ear and the straw is valuable, and the electrification is accordingly applied for a time each day during the whole period of growth until stooling begins. The power required to generate the electricity is very small, for although the potential is high the quantity is insignificant, and the energy is accordingly comparatively trivial. It is known that even when natural atmospheric electricity has accumulated intensely, and has become a thunderstorm, the quantity even then is quite small, though the potential or tension is so enormous that the flashes are of astonishing violence and power while they last.

The electricity can be generated in more than one way. It can be generated by the revolving glass plates of a static influence machine, usually known as a Wimhurst machine; or it can be generated by transforming up to high tension, and rectifying to one direction, the current of the revolving magnetic generator called a dynamo. The first is in many respects the simplest, and was used in the early and small-scale experiments, but it can hardly be regarded as an engineering method adapted to continuous or rough use. The latter is the one which in the trials now to be described we have adopted. The power is generated by a two-horse oil engine driving a small dynamo in an outhouse of the farm. Thence the current is taken by ordinary overhead wires to the field, where they enter a suitable weather-tight hut, which contains the transforming and rectifying apparatus. The only moving part here is the "break," and if the original dynamo had been an alternator, even this might be dispensed with. The transformer is a large induction coil, specially made to stand continuous use, and its current is then rectified by means of a vacuum valve in accordance with a patented device of my own. The negative electricity is conveyed direct to earth, while high-tension electricity, all of positive sign, is led by a specially insulated conductor out of the shed to the nearest post of the overhead insulated wires, which are thereby maintained at continuous high-positive potential.'

#### RESULTS OF EXPERIMENTS IN 1906—BUSHELS OF WHEAT PER ACRE.

|                               | Electrified<br>plot. | Un-electrified<br>plot. | Increase. |
|-------------------------------|----------------------|-------------------------|-----------|
| Canadian (Red Fife) . . . . . | 35½                  | 25½                     | 40 p.c.   |
| English (White Queen).... .   | 40                   | 31                      | 30 p.c.   |

The electrified wheat sold at prices some 7½ per cent higher, several millers in baking tests find that it produced a better baking flour. The increase appeared to be due to better stooling.

Hours of plant running were from March 16 to July 10, 1906, 621¾ hours on 90 days, average electrical pressure corresponded to a ¾-inch spark. 1907, March 28 to July 27, 1,014 hours on 115 days; average pressure corresponded to a ½-inch spark.

In the case of mangels there was an increase of 25 per cent, and in that of strawberries 35 per cent, while the influence was almost equally marked upon raspberries and tomatoes.

P. B. BALL.

## CITY TRADE BRANCH.

REPORT BY CANADIAN REPRESENTATIVE.

*(Mr. Harrison Watson.)*

73 BASINGHALL STREET, LONDON, E.C., ENG., June 30, 1908.

## HICKORY IMPLEMENT AND TOOL HANDLES.

We have recently heard from several Canadian woodworking companies more particularly regarding their desire to do export business in wooden handles. In this connection it should be mentioned that whereas many Canadian manufacturers use maple and rock elm for the production of tool and implement handles for home use, the present demand in this country is almost exclusively for hickory handles, and several buyers with whom we have communicated on the subject state that they would not be prepared to purchase handles made from anything but hickory.

Our Canadian correspondents frequently ask us to advise them as to the price which importers are prepared to offer for broom handles, and it might interest them to learn that a London firm which imports handles of standard dimensions from the Baltic and elsewhere, state that they are prepared to purchase first quality broom handles of birch, spruce, ash and preferably basswood, in carload lots at 13 shillings per gross, c.i.f. London or Liverpool.

## NO ESTIMATE YET OF FRUIT YIELD.

As a result of the wonderful weather conditions which have prevailed during the month of June, there has been a splendid hay crop all over the Kingdom and a phenomenal yield of strawberries, raspberries and other seasonable fruits.

Up to the present the prospects for a heavy crop of apples, both in Great Britain and on the continent, have been favourable, but the fruit is beginning to suffer from the prolonged drought and unless rain falls in the near future, it is probable that the apples in many districts will sustain severe damage. Some weeks must, however, still elapse before it will be possible to obtain a definite idea of what the actual yield and quality are likely to be.

## THE USE OF PRESERVATIVES IN MEAT FOODS.

In the last year or two a number of public analysts have been examining samples of canned and glass-packed meats with the results that an unexpectedly large percentage were found to contain preservatives of one kind or another. In view of this, the local government board decided that a special inquiry should be undertaken, and their medical officer has just issued a report which, having regard to the growing importance of the packing industry in the Dominion, deserves some attention.

The samples examined included not only meats, &c., packed in the United Kingdom, but also a large number of goods coming from the United States, Denmark, the Argentine and other sources of supply, and also from Canada and Australia.

In view of the following extract, it will be understood that the general tendency of the report is opposed to the present extensive use of preservatives. It should, however, be borne in mind that it is possible that some of the goods which were purchased and examined were packed before the introduction of the improved legislation recently adopted by many of the countries in connection with the inspection of meats.

## MEAT FRESH WHEN PACKED.

'In the case of meat foods of this kind it is generally understood that, with certain possible exceptions, there should be no need for the addition of chemical antiseptics at the time of preparation of the meat for canning, and that the meat which is canned should ordinarily be fresh meat, or cured meat—not meat which has been subjected to treatment involving the introduction of preservatives such as boric acid or sulphites. It is to be expected that meat foods of this kind which have been submitted to a process of sterilization in hermetically sealed containers should be sufficiently protected by these means from processes of decomposition so long as they remain unopened; chemical preservatives are not required to further this object.'

In these circumstances the use of preservative materials of the kind referred to appeared liable to objection, apart from any risk to health arising from composition of the preservatives themselves, in that their presence pointed to the probability that by this means it had been sought to overcome undesirable conditions either in the meat itself or in the process of its manufacture.'

## REFERENCE TO CANADIAN METHODS.

To persons engaged in the industry the perusal of the report in its entirety can be recommended, but the following reference to Canadian goods may be reproduced:—

'An Act has recently been passed by the Canadian legislature which has similar reference to the question of preservatives in meat and meat food products to that contained in the United States law already considered. Certain meats are sent to this country from Canada. These chiefly consist of pork and beef trimmings and pigs' cheeks, which are preserved in barrels by means of boron or other preservative solutions for export to the United Kingdom, where they are sold to brawn and pie-makers, cook shops, &c., and may also be used in the preparation of canned meats.

'I have been informed by representatives of some Canadian firms which export large quantities of ham and bacon to this country, that no other preservatives besides salt and saltpetre are used in the curing of these materials in Canada. Others state that a certain percentage of borax is added to the pickling fluid in which their bacon and hams are treated during the curing process. A large portion of both classes of Canadian hams and bacons are, however, packed in borax for shipment to this country in the same way as that described in the case of United States products, and would doubtless be affected in a similar manner. I understand that one Canadian firm makes a specialty of exporting its bacon and hams in chilled chambers, and thus avoids the necessity for using packing materials of any kind.'

## PRESERVATIVES INDICATE LACK OF CLEANLINESS.

In the 'General Review and Conclusions,' the following refers to preservatives in imported canned meat foods:—

'The finding of preservatives in a considerable proportion of American and other imported canned meats, examined by public analysts in this country, is a matter of importance from a public health aspect. The question is not merely one of the ill-effects likely to be produced in persons who, in this way, consume what may possibly be large doses of these substances or who, by taking these foods add unnecessarily to the total quantity of antiseptic substances in their diet. The chief objection which may be raised to preservatives occurring in canned foods which have been subjected to the process of sterilization by heat in hermetically sealed vessels, is that the presence of preservatives must be regarded as indicating that conditions as to care and cleanliness which are essential in the preparation of wholesome food materials may not have been observed.'

HARRISON WATSON.

## NEWFOUNDLAND.

## REPORT OF TRADE COMMISSIONER.

(Mr. E. D. Arnaud.)

GAZETTE BUILDING, ST. JOHN'S July 21, 1908.

## CANADIAN TOBACCO PRICES TOO HIGH.

Owing to a recent change in the Canadian excise duties, and the withdrawal of the refund heretofore allowed on foreign raw-leaf when manufactured for export, it is found necessary by importers here to discontinue buying in Canada, because the price is higher than that at which the manufactured tobacco can be purchased in the United States. It is hoped that a remedy will be soon found for this unsatisfactory condition that will enable the Canadian brands of tobacco, which are fully appreciated by the trade, to continue to find a sale in this market.

The customs returns for last year, under the head of manufactured tobacco, give the following figures:—

|                              | Lbs.    | Value.   |
|------------------------------|---------|----------|
| From United Kingdom. . . . . | 4,994   | \$ 1,925 |
| “ Canada. . . . .            | 73,805  | 16,959   |
| “ United States. . . . .     | 311,320 | 50,156   |

A duty of 33 cents and 6 per cent per pound *ad valorem* was paid, amounting to \$121,343.

## COD FISHERY FAIRLY SUCCESSFUL.

The reports that are coming in from various points around the coast indicate that on the whole the fishery has been fairly successful to date, although in some places the results have been disappointing. While the Straits fishery promises to be very good, the reports from the Labrador coast are not so encouraging. A very unusual feature this season is the appearance on the shore together of the two bait fishes, caplin and squid, whereas they generally have a well defined period of arrival off this coast.

A few quintals of this season's dry fish have already been brought to this market from some of the nearby outports, but the size being small it has not met with a ready sale at the price offered, \$4 per quintal. It is expected that the opening prices this year will approximate \$5 per quintal for large merchantable, with \$4 for small, the ultimate figures depending, of course, on the size of the fish.

A local trade journal writes as follows, under the head of Later Voyages:—

‘It is becoming noticeable the last few years that the period of fishing voyage is getting later and later in the season. In old times the voyage would be practically ashore by the 20th of July, now it appears that the real spurt only begins about that time. At all events, every one feels that the best of the voyage has yet to come this year, and nobody now appears very blue if the catch is little or nothing at the beginning of August. Taking it all round, we think there is less fish ashore at present on the Newfoundland coast than there was this time last year, but a week or ten days of fine weather might level up to the figures of 1907. The Bankfishery, however, shows a slight improvement on last year, and, the last schooners to arrive report a good deal of fish on the Banks.’

The present market prices are as follows:—

|                                            |              |
|--------------------------------------------|--------------|
| Fish, large merchantable, per qtl. . . . . | \$4 50       |
| Fish, small merchantable. . . . .          | 3 80         |
| Fish, large Maderia. . . . .               | 3 80         |
| Fish, small Maderia. . . . .               | 3 50         |
| Fish, large West India. . . . .            | 3 50         |
| Fish, small West India. . . . .            | 3 00         |
| Fish, Labrador . . . . .                   | 3 50 to 3 80 |
| Fish, Labrador, shore cure. . . . .        | 4 00 to 4 50 |

E. D. ARNAUD.

## MANCHESTER.

### REPORT OF TRADE COMMISSIONER.

(*Mr. P. B. MacNamara.*)

CANADA CHAMBERS, 36 SPRING GARDENS,  
MANCHESTER, ENG., July 15, 1908.

#### SHRINKAGE IN CONSUMPTION OF HOPS.

From the report of the select Parliamentary Committee on hops to whom was referred the matter of relief to hop growers, the following is gleaned:—

About 600,000 cwt. may be regarded as the average amount of hops annually consumed in this country in recent years, and the figures show that the consumption is falling off; the amount used in 1906-7 was 11·8 per cent less than in 1901-2. This reduction is partly due to the reduced consumption of beer and partly to the use of a smaller proportion of hops in brewing.

#### REDUCTION IS OVER SEVEN PER CENT.

The largest number of standard barrels of beer brewed in the United Kingdom was in 1900. Then it was 37,090,986; last year the total was 34,338,651, a reduction equal to 7·4 per cent. It is pointed out that brewers now use 25 to 30 per cent less hops in brewing the same amount of beer than they did 30 years ago. In the last five or six years there has been a reduction from 2·02 lb. per barrel in 1901-2 to 1·85 lb. per barrel in 1906-7.

#### PUBLIC TASTE DEMANDS LIGHTER BEER.

It is stated that the public taste demands a lighter, brighter, and therefore less heavily hopped beer than was formerly consumed; the substitution of glass vessels for pewter in the retail trade is said to have contributed to this result. The practice of brewing beer for more speedy consumption has also rendered the use of hops for their preservative and antiseptic properties less necessary.

The committee finds that rather more than two-thirds of the annual consumption are supplied by the produce of this country, though the proportion varies a good deal from year to year. A very considerable decline has taken place in the acreage of land under hop cultivation. In 1878 it was 71,789, the highest known, and after many fluctuations, of which 59,535 in 1894 was the most marked, declined last year to the lowest figure of all for the last half century, viz., 44,938 acres.

## ACREAGE REDUCED, YIELD MAINTAINED.

But in spite of the fact that the acreage has been reduced during the last twenty years by about one-third, the home produce of hops has continued nearly the same, the explanation of this apparent paradox being in the increased yield per acre. If the last 20 years are divided into two decades, the average annual yield per acre in 1888-97 was 7.76 cwt., whereas in 1898-1907 it was 8.84 cwt.

## LOW PRICES DUE TO FOREIGN COMPETITION.

While the opinion has been almost universal among hop growers that this industry is less profitable than was formerly the case, and that the present depression is almost without precedent, it has been difficult to ascertain at what date the change for the worse set in. Nearly all the witnesses who gave evidence attribute the present state of the hop industry and the low prices of recent years to foreign competition. The course of foreign importation of hops into this country during the last half century is shown below:—

| Period.          | Annual average imports in cwt. |
|------------------|--------------------------------|
| 1857-66. . . . . | 79,992                         |
| 1867-76. . . . . | 202,537                        |
| 1877-86. . . . . | 215,219                        |
| 1887-96. . . . . | 194,966                        |
| 1897-06. . . . . | 186,362                        |

It therefore appears that while during the first three decades there was a rise in the annual average importations, during the last two decades there has been a reduction, which is not greatly affected by the extraordinary increase which took place in the imports for last March and April.

## FOREIGN HOPS MUST CONFORM WITH ACT.

In view of the fact that the importation of foreign hops during the last 30 years has shown a tendency to decline, the committee are not satisfied that any special measures directed against the importation of foreign hops are called for, and they do not consider that foreign competition is so potent a factor in the causes of the depression as to demand exceptional treatment. In regard to marking of foreign hops, the committee, considering that the marking should be made applicable to all hops alike, recommend that such provisions to the Act of 1866 as can be made applicable to imported hops should be so applied. Hops grown abroad would not then be admissible unless such conditions were complied with.

## STRONG DEMAND FOR CANADIAN CHEESE.

One of the largest wholesale provision firms in Manchester furnished the following market report, under date July 13, 1908:—

Since writing you, our market has advanced considerably in price, and the demand for Canadian cheese has been good. This is no doubt owing to the old cheese winding up so scarce, and people have had to come on to new cheese earlier than was expected. The prices have advanced about 2s. per cwt. all round, and the board price is now 57s. 6d. white, 58s. 6d. coloured. At the time of writing, the demand is not so good, as the bulk of the buyers have now got in their requirements to last a fortnight, and owing to the advanced prices there is no encouragement for them to stock.

We find that c.i.f. prices are about 3s. higher than last year, and seeing that we are now into July, we do not look for any material alteration until we get the September make, the bulk of June cheese, now being marketed, and there is every indication that the Canadian farmers are again going to have a good time, and good prices.

These high prices have no doubt been maintained by many of the Montreal houses offering the produce for forward delivery, and not covering themselves, hence having to fill in many cases, at a few days' notice, which causes the heavy rise in the market.

#### CONSIGNMENT METHODS SATISFACTORY.

We are pleased to say that the consigned produce that we are now receiving from the Brockville district is increasing each week, and as far as we know, our method of handling these goods and the prices returned, are in every way satisfactory. There is no doubt that there is a future before this business, and it would help materially to level prices, and in the long run would mean better prices to the farmers, than the unsettled prices that we are now experiencing.

The condition of the produce from your side this year, have been fairly good, considering the great temptation that the factory men have had of marketing the cheese earlier, to command these high prices. No doubt that the government warning about shipping the cheese in the green state, has had a good effect on the factory men.

#### BUTTER PAYING BETTER THAN CHEESE.

The butter market is good, and the prices realized are far higher in proportion than the cheese, hence, many of the factories in Quebec have continued to make butter in place of cheese, as it pays them best.

The price of butter to-day on our market is as follows:—

|                                  |       |
|----------------------------------|-------|
| Danish farmers.. . . .           | 122s. |
| Finnish butter.. . . .           | 118s. |
| Irish creameries.. . . .         | 115s. |
| Fancy choicest Siberians.. . . . | 110s. |

#### CONTINUED DECLINE IN TRADE.

Continued decline is exhibited by the June Board of Trade returns issued recently. The official figures are as follows:—

Imports, £46,136,000; decrease, £1,669,000.  
 Exports, £28,953,000; decrease, £4,157,000.  
 Re-exports, £6,029,000; decrease, £1,068,000.  
 Total fall in June, £6,894,006.

#### DECLINE IN SIX MONTHS, JANUARY TO JUNE.

Imports, £298,306,000; decrease, £30,050,000.  
 Exports, £189,993,000; decrease, £16,324,000.  
 Re-exports, £39,296,000; decrease, £12,252,000.  
 Total fall in six months, £58,626,000.

P. B. MACNAMARA.

# NEW TARIFFS

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

## PERAK.

(FEDERATED MALAY STATES.)

Exemptions: Any gutta-percha or any such leaves, bark or other part as aforesaid which are obtained from trees growing on alienated land, the holder whereof shall have cultivated such trees to the satisfaction of the Resident, on all of which an export duty of 2½% ad valorem is hereby imposed.

**Minerals:—**

Gold, other than gold obtained by any cyanide process:—

2½% of the value of the export calculated at the rate of £4 sterling per ounce, subject to a rebate of the amount, if any, whereby the duty so paid on any gold exceeds 2½% of the value of the said gold as declared in a written certificate from such Bank or other authority as the Resident may approve.

Exemption: Gold won by persons who have paid a commutation fee in lieu of export duty under section 126 (i) of "The Mining Enactment, 1904," or under any similar provision of law.

Gold obtained by any cyanide process..... ad val. 2½%

NOTE.—For the purpose of preliminary payment of duty the value of such gold shall be calculated at the rate of £2 sterling per ounce, subject to subsequent adjustment by refund to the exporter or by additional payment to the Government, as the case may be, of the amount, if any, whereby the duty so paid on any gold exceeds or falls short of 2½% of the value thereof evidenced in such manner as the Resident may approve.

(\*) Five pikuls of tapioca root are taken as worth one pikul of flake tapioca.

(†) For weighing tin, tin ore and wolfram a fee of 4 cents per pikul is charged.

## SCHEDULE C.

*Tin ore.*

|                                                                                                                                                                |                                                                       |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| Tin ore exported under such guarantees as the Resident may require that it will be smelted in the Colony of the Straits Settlements or the United Kingdom..... | 70%<br>of the duty<br>on tin.                                         |
| Tin ore exported without such guarantees.....                                                                                                                  | 70%<br>of the duty on tin, plus an additional duty of \$30 per pikul. |

Tin and tin ore produced in Upper Perak will be charged with duty at two-thirds of the current rate, provided that the duty be paid at Grit.

NOTE.—In the case of all articles, except tin and tin ore, in respect of which export duty is assessed on a *ad valorem* basis, the value of the article will be taken at a rate to be fixed from time to time by the Government which rate will be published in the *Gazette*.

NOTE.—In cases where the year's sugar crop is sold by contract the duty may be calculated on the contract price.

NOTE.—Dutiable articles on which export duty has been paid in another State of the Federated Malay States shall not be liable to export duty, provided that they shall not be carried through the State otherwise than in accordance with such Rules as the Resident, with the approval of the Resident-General, may from time to time make under "The Customs Regulations Enactment, 1907," in such behalf.

## SOMALILAND PROTECTORATE.

ORDINANCE No. 4 OF 1907, ENACTED ON 17TH JUNE, 1907, BY HIS MAJESTY'S COMMISSIONER FOR THE SOMALILAND PROTECTORATE.

It is hereby enacted as follows:—

1.—This Ordinance may be cited as "The Customs Amendment Ordinance, 1907," and shall be read as one with "The Customs Regulations, 1902."

2. Duty at the rates laid down in Schedule I annexed to this Ordinance shall be levied on all goods imported or exported at a Protectorate port, except as provided in the case of interportal trade.

3. Livestock and local produce transported by land from Zeyla to D'Jibouti or other place beyond the limits of the Protectorate shall be liable to Export duty at the rates laid down in Schedule I (a).

4.—The scale of fees for keeping the Custom House open on public holidays or after business hours shall be laid down in Schedule II annexed to this Ordinance.

5.—The Enactments mentioned in Schedule III are hereby repealed to the extent therein shown.

## SCHEDULE I.

## (a) RATES OF DUTY CHARGED AT ZEYLA.

# TARIFF CHANGES

## BRITISH INDIA.

### I.—AN ACT FURTHER TO AMEND THE INDIAN TARIFF ACT, 1894.

(No. II of 1908, assented to January 3, 1908.)

Whereas it is expedient further to amend the Indian Tariff Act, 1894; It is hereby enacted as follows:—

1. This Act may be called the Indian Tariff (Amendment) Act, 1908.

2. In No. 1 of Schedule III of the Indian Tariff Act, 1894, as amended by the Indian Tariff Act (1894) Amendment Act, 1896, "annas 2" shall be substituted for "anna 1" in the fourth column as the rate of duty to be levied and collected per imperial gallon or six quart bottles of ale, beer, porter, cider and other fermented liquors.

### II.—AMENDED RULES REGARDING THE PROHIBITION TO IMPORT COCAINE.

(Notification—By the Government of India, Department of Commerce and Industry, No. 3566 dated April 9, 1908. Customs Circular No. 11 of 1908.)

In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), and in supersession of the Notification in this Department No. 9227-75, dated the 29th November, 1906, the Governor General in Council is pleased to prohibit the bringing by sea or by land into British India of cocaine by means of the post; and to restrict its importation by any other means to cases in which it is imported by persons, or by their authorised agents, who have been specially permitted to import the drug by a Local Government or Administration or by the Madras Board of Revenue.

### III.—PROHIBITION TO IMPORT INTO THE MADRAS PRESIDENCY CERTAIN INTOXICATING DRUGS.

Notification—By the Government of India, Department of Commerce and Industry, No. 3585 dated April 9, 1908.—The Gazette of India of April 11, 1908.)

In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), and in supersession of the Notification in the Finance Department, No. 3883-Exc., dated the 6th July, 1905, the Governor General in Council is pleased to prohibit the bringing and taking by sea or land, into the territories administered by the Governor of Fort St. George in Council of intoxicating drugs prepared from the hemp plant (*Cannabis sativa*, variety *indica*):—

Provided that the Governor of Fort St. George in Council or the Board of Revenue, Madras, may at his or their discretion, permit the bringing or taking of any such drugs from any foreign territory or Native State for the purpose of supply to any tract appertaining thereto which is surrounded by British territory.

### IV.—AMENDED TARIFF VALUATIONS OF CERTAIN GOODS.

(Notification.—By the Government of India, Department of Commerce and Industry, No. 3965-6 dated April 23, 1908.—Customs Circular No. III of 1908.)

In exercise of the powers conferred by section 22 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that for the corresponding items of entries No. 6 and No. 15 in the Notification on of the Government of India in this Department, No. 10889-37, dated the 20th December, 1907, the following shall be substituted, namely:—

| No. | Names of Articles.                                                  | Tariff valuation. | Duty. |
|-----|---------------------------------------------------------------------|-------------------|-------|
| 6   | China preserves in syrup.....                                       | cwt.(nett.) 32 0  | 5%    |
| 15  | Brass:—                                                             |                   |       |
|     | patent or yellow metal, sheathing, sheets, braziers and plates..... | cwt. 52 0         | 5%    |
|     | patent or yellow metal (old).....                                   | " 36 0            | 5%    |
|     | Copper:—                                                            |                   |       |
|     | braziers, sheets, plates and sheathing.....                         | " 60 0            | 5%    |
|     | old.....                                                            | " 48 0            | 5%    |
|     | pigs, tiles, ingots, cakes, bricks, and slabs.....                  | " 55 0            | 5%    |

### V.—EXEMPTION FROM IMPORT DUTY OF CERTAIN BAND INSTRUMENTS AND ACCESSORIES.

(Notification.—By the Government of India, Department of Commerce and Industry, No. 3983-24 dated April 23, 1908.—Customs Circular No. IV of 1908.)

In exercise of the power conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), and in supersession of the notification of the Government of India in the Finance and Commerce Department, No. 251-S.R., dated the 12th January, 1904, the Governor General in Council is pleased to exempt from the import duty leviable thereon under the Indian Tariff Act, 1894 (VIII of 1894), all band instruments (other than stringed instruments), and such accessories thereto as are specified in the annexed list, when such instruments or accessories are imported by a native regiment of His Majesty's regular forces in India, or by a Military Police Battalion, and certified by the Officer Commanding the regiment, or the Officer in charge of the Military Police Battalion, to be for the *bona fide* exclusive use of the regimental band, or the band attached to the Military Police Battalion, as the case may be.

## CEYLON.

## NOTIFICATION OF AUGUST 8, 1907, RELATING TO THE DUTY-FREE IMPORTATION OF ELECTRIC MOTORS.

(*Ceylon Government Gazette No. 6199, of August 9, 1907.*)

From and after the 8th August, 1907, electric motors shall be exempted from payment of Customs duty upon importation into Ceylon.

## SOUTHERN NIGERIA.

## AN ORDINANCE TO AMEND THE CUSTOMS AMENDMENT PROCLAMATION, 1905.

(*No. 26, of 19th November, 1907.*)

Be it enacted by the Governor of the Colony of Southern Nigeria with the advice and consent of the Legislative Council thereof, as follows:—

1. This Ordinance may be cited as "The Customs Tariff Amendment Ordinance, 1907," and shall be read and construed as one with "The Customs Tariff Amendment Proclamation, 1905."

2. The first schedule to Proclamation 9 of 1904 is hereby amended by deleting items 16 and 17 and the first schedule to "The Customs Tariff Amendment Proclamation, 1905," is hereby amended by adding at the end of the said schedule the following items:—

|              |                |
|--------------|----------------|
| 44 Sugar.    | 49 Pork.       |
| 45 Flour.    | 50 Fish.       |
| 46 Bread.    | 51 Provisions. |
| 47 Biscuits. | 52 Rice.       |
| 48 Beef.     | 53 Tea.        |

3. This Ordinance shall come into operation on the 1st day of January, 1908.

## UNITED KINGDOM.

—SUPPLEMENTARY AGREEMENT BETWEEN THE UNITED KINGDOM AND GERMANY RESPECTING COMMERCIAL TRAVELLERS' SAMPLES.—SIGNED AT BERLIN, MARCH 10, 1908.

(General Customs Order No. 12, of 22nd April, 1908.)

Agreement between the United Kingdom of Great Britain and Ireland and the German Empire supplementary to the Declaration of April 1st, 1869 concerning patterns and samples imported by Commercial Travellers.

The two Governments having agreed to introduce further facilities in the Custom clearance of samples of dutiable goods which are imported by commercial travellers of the one country into the other country to serve as samples or patterns in soliciting orders, but not for sale, the Undersigned:—

His Britannic Majesty's Ambassador Extraordinary and Plenipotentiary,

The Secretary of the State for Foreign Affairs of the German Empire.

with reservation of the consent of their Governments, and in amplification of the Declaration concerning "patterns and samples imported by commercial travellers" which was signed at Berlin on April 1st, 1869, have contracted the following agreement:—

The marks of identity (stamps, seals, or leads) placed on the samples in question by the Customs Officials of the one country at the time of exportation shall be recognized by the Customs Officials of the other country, and articles provided with these marks of identity shall be passed as patterns and be exempted from Customs examination on importation, except so far as such examination may be necessary as a means of determining the amount of duty to be collected on the samples in the country of import if they are not re-exported or placed in bond within the period provided for in the Declaration signed at Berlin on 1st April, 1869. The Customs authorities of either country may, however, affix supplementary marks to such samples in cases where they may think this precaution necessary.

## II.—CONTINUANCE OF TEA DUTY.—REDUCTION OF CUSTOMS DUTIES ON SUGAR, MOLASSES, GLUCOSE AND SACCHARIN AND OF RELATIVE DRAWBACK RATES.

(General Customs Order No. 16, of 11th May, 1908.)

(1) In accordance with the House of Commons Resolutions of the 7th instant, the existing rate of duty on Tea is to be continued till the 1st July, 1909.

(2) The duties and drawbacks shown hereunder are, on and after the 18th instant, to be substituted for those shown in the Customs Tariff.

## IMPORT DUTIES.

| Articles.                                                                                                                                                                |      | Rates of duty. |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----------------|------|
|                                                                                                                                                                          |      | S.             | D.   |
| Glucose, solid.....                                                                                                                                                      | cwt. | 1              | 2    |
| “ Liquid.....                                                                                                                                                            | “    | 0              | 10   |
| Molasses and invert sugar and all other sugar and extracts from sugar which cannot be completely tested by the Polariscopes and on which duty is not otherwise charged:— | “    | 1              | 2    |
| If containing 70% or more of sweetening matter.....                                                                                                                      | “    | 0              | 10   |
| If containing less than 70% and more than 50% of sweetening matter.....                                                                                                  | “    | 0              | 5    |
| If containing not more than 50% of sweetening matter.....                                                                                                                | “    | 0              | 7    |
| Saccharin and mixtures containing saccharin, or other substances of like nature or use.....                                                                              | oz.  | 0              | 7    |
| Sugar:—                                                                                                                                                                  |      |                |      |
| Not exceeding 76 degrees of Polarization.....                                                                                                                            | cwt. | 0              | 10   |
| Exceeding 76 and not exceeding 77.....                                                                                                                                   | “    | 0              | 10.9 |
| “ 77.....                                                                                                                                                                | “    | 0              | 11.2 |
| “ 78.....                                                                                                                                                                | “    | 0              | 11.6 |

## BRITISH TRADE IN NEWFOUNDLAND.

EXHAUSTIVE REPORT BY MR. R. GRIGG, SPECIAL COMMISSIONER OF THE BRITISH BOARD OF TRADE.

The Department of Trade and Commerce has received a copy of the report upon the conditions and prospects of British trade in Newfoundland, by Mr. Richard Grigg, published by the Commercial Intelligence Committee of the British Board of Trade. Mr. Grigg came first to Canada as special Commissioner of the Advisory Committee of the Board of Trade on Commercial Intelligence, and later visited Newfoundland in the same capacity. Quite recently he received the appointment to the newly created office, British Trade Commissioner to Canada, and will arrive shortly to take up his residence in Canada.

While dealing largely with aspects of trade from a British standpoint, there is much in the report which will be of decided interest to Canadian manufacturers and merchants, as the following excerpts will indicate :—

## CUSTOMS TARIFF OF NEWFOUNDLAND.

The customs tariff of Newfoundland comprises 157 items, and the duties imposed by it are mainly *ad valorem* ; but there is also a free list which includes 61 items. As the schedules are comparatively short it will be convenient to comment only briefly upon them in this place.

The highest *ad valorem* rate of duty is 75 per cent in the case of wheelbarrows, handbarrows, trollies, &c. With this exception and the further exception of alcohol and lithographic articles, which bear a duty of 50 per cent, the maximum duty may be roughly stated to be 40 per cent, and this is the duty applying to all goods not other-

wise enumerated in the Act. Of goods liable to duties of this amount a limited number of the more important may be mentioned : Furniture, carriages, china and earthenware, fancy goods, hats, caps and bonnets, boots and shoes, rubber or leather and waterproofing, jewellery, ready-made clothing (45 per cent), feathers, ribbons, velvets, silk, laces, &c., trunks and bags.

Important items paying a duty of 35 per cent, are acids, beer, cast-iron pipes, clocks, watches, &c. Dry goods (including cotton and woollen fabrics), groceries, shelf hardware (partly 25 per cent), paper-hangings. Among the articles paying a duty of 30 per cent are iron forgings, window glass, hair cloth, iron or steel rails and fittings for pipe, locomotives, railway and tram cars, fish-plates, switches, automobiles, &c., druggists' stores and medicines, paints, vegetables. A very considerable number of items are subject to duties of 25 per cent, 20 per cent, and 10 per cent.

#### ARTICLES FOR SPECIAL PURPOSES EXEMPT.

Under Schedule B the table of exemptions not only removes many articles for special purposes, such as agricultural implements, animals for breeding, personal effects, articles for the use of the Governor, the army and navy, the government, municipal council, or consuls, articles for religious purposes and sportsmen's requisites, &c., but also includes boiler and ships' plates of  $\frac{1}{4}$ -inch in thickness, certain machinery, wheat and flour, hides, hoop iron, Indian corn, kerosene oil, machinery of many kinds, molasses, oilcake, peasemeal, pig iron, steel shafting, and many other similar articles.

*Under the heading, goods in regard to which there is severe competition from Canada or foreign countries, which in some cases have become predominant, the report continues :*

This group includes machinery, steel, nails, tinware, hardware which appear under the heading of metal manufactures, and is nearly equally divided between the United Kingdom, \$270,045; Canada, \$255,325, and the United States, \$344,223 in 1906. In the item of cranes, and mining machinery, the United Kingdom is badly beaten, her figures for 1905-6 being \$18,868 as against \$118,785 for Canada, and \$95,798 for the United States. In steel the position is nearly as bad on very much smaller figures. In hardware both the Canadian and United States figures show a steady increase against a decrease from the United Kingdom, the figures of imports from the latter country being in 1901-2, \$138,319; from Canada, \$42,757, and from the United States, \$70,594, the corresponding figures in 1905-6 being \$134,156, \$63,007 and \$99,233.

#### AMERICANS CONTROL HARDWARE.

Edge tools are almost entirely American, largely on the ground of better packing and also because of difference in design and weight. Axes are almost entirely American, on the ground of cheapness. Planes again are American. No doubt the British make is of superior quality, but it is the American that fills the market, and this appears to be an instance of loss of trade due to refusal of British makers to supply the article demanded. Certain kinds of locks and hinges are entirely American, mainly on the ground of price, but also on the ground of packing. Files are almost wholly American. American chain is ousting the British article chiefly on the ground of price, quality being about equal. This appears to be due to the successful result of properly equipped and organized factories as against the system of the black country.

#### CANADA LEADS IN CABINETWARE, PAINTS AND LEATHER.

In cabinetware, as might be expected, the United Kingdom is badly beaten, the principal imports in 1906 being from Canada, \$44,843; the United Kingdom contributed 4618—5½

buted \$12,650, and the United States, \$7,006. In paints and colours Canada has a strong hold, the United Kingdom figures being \$27,653, Canada \$37,152, and the United States \$23,459. In leather the United Kingdom has almost lost the trade to Canada and the United States, the British figures being \$16,032, Canada \$141,253, and the United States \$175,243. In the case of sugar the British import in 1906 was \$21,325, the Canadian \$3,650, and the United States \$139,999, from which it appears that the United States commands this trade, but the figures have undergone remarkable variations in the last few years.

In dealing with the success of Canadian and foreign competition, the writer ascribes as causes, the frequency of the visits of commercial travellers and the efficiency of commercial agents. The report states :

It is obvious that one of the most important considerations in regard to the course of trade is that of geographical position, and although the position of Newfoundland does not favour a trade other than British in anything like the same degree as the position of Canada does, it must still be remembered that the island lies only 50 miles at its nearest point from the mainland of Canada, and that St. John's is only about 1,050 miles from the important American port of Boston, whereas it is 1,926 miles from Liverpool. Although the population of Newfoundland, owing to several causes, is of somewhat exceptional character and the market provided by its needs is influenced by this fact, yet the general conditions pertaining to comparatively new countries are very much alike, and in this respect American and Canadian manufacturers enjoy advantages of some importance. They are also much helped by the greater ease with which their commercial travellers can visit the country, and there is no doubt whatever that this operates to some considerable extent in the encouragement of their trade. I was informed in St. John's that the commercial hotels there were supported almost entirely by American and Canadian travellers, and that they saw ten of these to one from the United Kingdom. The same story is told by merchants and storekeepers.

#### EFFICIENCY OF UNITED STATES COMMERCIAL AGENTS.

There is no doubt also that the United States, a very important competitor, is admirably served by its commercial agents. Not only are there frequent references to Newfoundland in the Daily Consular and Trade Reports issued at Washington, but Mr. Charles Pepper, a gentleman who commands the respect of everybody who reads his report, was commissioned by the United States government in 1905 to report upon Canada and Newfoundland. He does so on Newfoundland in a letter contained in the August, 1905, number of the monthly issue of Consular and Trade Reports published by the Department of Commerce and Labour, Bureau of Manufactures, Washington.

#### REPORT OF MR. CHARLES PEPPER.

It must be remembered that Mr. Pepper's report is written entirely in the interest of American manufacturers and merchants. He begins with a table of the principal exports from Canada to Newfoundland for the obvious reason that his countrymen being advised of the exact amount and character of such imports will be the better able to consider the best means of supplanting them by their own productions.

He first refers to the fact that Canada, for the year ending June 30, 1904, exported wheat flour to the value of \$1,000,000 to Newfoundland, and points out that the United States millers ought to have a share of this trade, and then continues :

'When it comes to manufactured articles, the United States also occupies a good position. Canada has now a trade in leather and in boots and shoes which, with proper effort, could be divested, as the manufactured product from the United States usually gives greater satisfaction. The shoe factory in St. John's gets most of its leather from Brooklyn. Between the competition of Canada and the United States the trade

of England with Newfoundland is steadily losing ground, in the relative sense. That is, it remains about stationary, while the colony from year to year has increased imports. The largest aggregate of any one class of articles imported from England comes under the heading of dry goods, and amounts to about \$650,000 per annum. The United States only exports \$130,000 to \$150,000 worth of dry goods to Newfoundland, but the trade is a growing one, and Newfoundland merchants are now visiting New York, Philadelphia and Boston, en route to England, to make their purchases. In ready-made clothing and hats and caps the United Kingdom has the advantage, as also in cordage and fishermen's outfits, but the United States is gaining some of this trade. In household hardware, and in tools of all kinds, the United States is ahead, but there is an opportunity for gaining more of these imports.

## CHARACTER OF NEWFOUNDLAND MARKET.

'The character of the Newfoundland market and the articles which find the readiest sale may be understood from a summary of the value of leading imports during that year. They were as follows :—

| Imports.      | Value.  | Imports.                                            | Value.    |
|---------------|---------|-----------------------------------------------------|-----------|

## CANADA'S SHARE OF TRADE IS 21·3 PER CENT.

'The United States has shared more than any other country in the increased buying power which has been developed by the inhabitants of Newfoundland. In the period from 1888 to 1892, England's share of the total trade was 33 per cent, Canada's 20 per cent, and that of the United States 14·5 per cent. In the period from 1900 to 1904, England's proportion had dropped to 24·5 per cent, Canada's had grown to 21·3 per cent, and that of the United States had increased 21 per cent; but at the present time Canada is making a persistent, systematic and well directed effort by every means at the command of the Dominion government to secure a larger proportion of this trade at the expense of the United States. For that reason I beg again to direct attention to the movement in the flour trade and to the leather, hardware and other manufactures, which, with a full knowledge of the circumstances, may be held by the United States. But this cannot be done unless the Canadian competition is met at all points and the Newfoundland market closely studied.

## CANADIAN REPRESENTATIVES ARE KEEN.

'British manufacturers have depended very much in the past upon merchants and agents, while their competitors from the United States have made great efforts to get into direct contact with the consumer. The United States travellers in Newfoundland, as in Canada, are consequently almost entirely manufacturer's travellers, and as a result they have generally a much more detailed and technical knowledge of the products which they sell than has the ordinary British traveller, who is in the main a merchant's traveller. The latter is not always in close contact with the manufactur-

ing processes, and he is not necessarily interested in pushing a particular class of goods or a particular article.

'Canadian and American manufacturers are quite willing to take any amount of trouble, neglecting nothing likely to effect a sale, in offering goods, showing goods, and meeting buyers' wishes in regard to the nature of the goods, delivery, or terms of purchase. The result has been, to some extent, the creation of an impression amongst buyers that British merchants and manufacturers are inclined to be indifferent to the Newfoundland market, regarding it as almost insignificant in comparison with their total trade; and to this attitude the keenness of the American and Canadian manufacturers, as shown by their representatives, forms in Newfoundland opinion a pleasant contrast.'

#### CANADIAN GOODS SUPERIOR IN QUALITY.

The superiority of Canadian and foreign goods over British manufactures, which is alleged in a number of cases, is in various directions. In some instances actual superiority in quality and workmanship is claimed for foreign goods: illustrations of this are furnished by many metal manufactures (edge tools, iron planes, shears and trimmers, saws, files, proof chain, steel axles, car wheels, &c.) in all of which the United States have secured a large proportion of the trade. In other cases the superiority lies in greater suitability to Newfoundland conditions; examples of this are agricultural machinery and implements, locomotives and pianos. Another point of superiority from the view of the Newfoundland buyer is cheapness; preference is given, on the ground of price, to such foreign commodities as machinery, steel rails, and edge tools, watches and clocks, common window glass, &c. It must be remembered that in some of these cases superior quality and lower prices go together.

#### CANADIANS CATER TO TRADE DEMANDS.

American and Canadian manufacturers and merchants are credited with better and more attractive methods of packing, in the case, for example, of hardware, other metal goods, and china and earthenware. The desirability of more energetic and better planned advertisement is constantly urged; where British traders do advertise it is said that they frequently fail to do so in the right way, while the United States manufacturers in particular have made a scientific study of the matter. As regards the quotation of prices by British manufacturers or merchants, goods sent to Newfoundland are generally quoted either at works in Great Britain or f.o.b. port of shipment, leaving freight and duty to be calculated by buyers and this is a source of frequent irritation. Sometimes small but unexpected items of charge appear in the invoices, such as cartage to docks, bill of lading, primage, &c., and these are always an occasion of annoyance and prejudice to business. American and Canadian shippers are willing to take more trouble in this matter and quote c.i.f. naturally in dollars and cents, so that a buyer knows exactly what he has to pay for his goods. Although the currency in Newfoundland consists of dollars and cents the necessity for quoting prices in this way is probably of less importance than in Canada, owing to the greater familiarity with British currency in Newfoundland. The same remark does not, however, apply to weights and measures; here the Canadians and Americans have an advantage, since their currency and standards are identical with those of Newfoundland.

#### CANADIAN FLOUR DOMINATES THE MARKET.

The following extracts are from statements appearing in the American Daily Trade Report of March 3, 1906:—

'Newfoundland is particularly well situated for favourable trading with the United States, yet some unfavourable phases of the trade of 1904, as shown in the

detailed exports, can only be explained on the hypothesis that manufacturers either overlooked or ignored the market. A few years ago American flour dominated the Newfoundland market, yet in 1904 Canadian flour entered the market to the value of \$930,900, while American flour reaching the market in the same year amounted to only \$473,800. Canadian boots and shoes in 1904 were exported to the colony on the value of \$76,500 against \$17,300 worth of American boots and shoes, and yet the United States sold nearly \$1,000,000 worth of boots and shoes to the Dominion itself during that year. To this should be added the important fact that Newfoundland is as much within the zone of the Boston boot and shoe trade as almost any portion of the United States outside of New England.'

#### EXPORTS FROM THE DOMINION INCREASE.

'The imports to Newfoundland from the United States during the year 1905 amounted to only \$2,444,400, a decrease of \$206,400 from those of the preceding year. The details of this 1905 trade are not available in form to show the articles wherein this decrease occurred. The decrease, however, shows that exports to Newfoundland are falling off, and when we consider that exports to the Dominion of Canada are steadily increasing, in the face of a discriminating tariff, which gives a 33½ per cent advantage to the United Kingdom, it seems unaccountable why our exports to Newfoundland, where Canada and the United Kingdom have no tariff advantage, should be decreasing. This can only be accounted for, as before said, by the inattention of our manufacturers to the markets of Newfoundland, an inattention which is taken advantage of by Canadian and British competitors. There is no valid reason why the greater part of the foreign products consumed in Newfoundland should not be supplied by the United States.'

#### CANADA HAS GAINED AT AMERICAN EXPENSE.

On June 9, 1906, there appeared the following :—

'The Consul at St. John's submits a report showing that the remarkable and steadily sustained prosperity, which Newfoundland has enjoyed of late years, is an inspiration to American exporters for greater efforts in order to secure a preponderance of its trade.' He writes :

'An analysis of the trade returns of the colony, which are only compiled annually, and are not available until tabled in the colonial legislature in the month of March following the fiscal year which they embrace, show that in the great majority of instances the import of commodities from Canada had increased at the expense of the United States, a fact attributable in part to the friction arising out of the fishery dispute between Newfoundland and the United States.

'There is need for vigorous action by American manufacturers if they would hold this growing and profitable market. The prosperity of the island is so stable and its trade conducted on such conservative lines that insolvencies are rare, and its chief commercial concerns enjoy a high rating with credit agencies. The financial standing of the colony is such that its treasury reports a surplus of \$134,000 for the last fiscal year, making the sixth successive surplus, out of which the government has set aside a cash reserve of \$450,000 and employed the remainder in adding to the appropriation for public services. The revenues, which are almost altogether obtained from customs duties on imports, have grown in amount in each succeeding year, despite the removal of taxation from fishing, farming and mining requisites, and from flour, molasses and kerosene oil—staple necessities of the masses of the people.'

## PREDOMINANCE OF CANADIAN COMMODITIES.

'The subjoined list shows some of the lines in which American trade could be improved, the figures being those of the imports last year :—

| Articles.          | United States | Canada.   | Articles.                 | United States | Canada. |
|--------------------|---------------|-----------|---------------------------|---------------|---------|
|                    | \$            | \$        |                           | \$            | \$      |
| Butter.....        | 18,000        | 98,000    | Furniture.....            | 5,300         | 36,000  |
| Canvas (sail)..... | 18,000        | 26,000    | Leather and its ware..... | 102,000       | 228,000 |
| Coal.....          | 44,000        | 342,000   | Medicines.....            | 141,000       | 42,000  |
| Fleur.....         | 501,000       | 1,112,000 | Tea.....                  | 1,100         | 61,000  |

## DOMINION BETTERS HER POSITION YEARLY.

'In dry goods, woollens, cottons, groceries, hardware, machinery, meats and canned goods, Canada is bettering her position every year, and a vigorous campaign by American commercial travellers is necessary to restore the balance of trade which formerly prevailed. Not the least serious factor in hampering American trade with the colony is the 5-cent postage rate which exists between them. Many American business men affix only 2-cent stamps to their letters, causing them to be refused frequently by the addressees in the island, because of double rate for the unpaid portion of the rate at which they are taxed.'

## COMMERCIAL TRAVELLERS' SAMPLES.

The following memorandum has been forwarded to the Department of Trade and Commerce from the High Commissioner's office in London. The memorandum was received by the High Commissioner from the Chairman of the Commercial Intelligence Committee of the Board of Trade. As will be seen, the memorandum deals with the customs clearance of commercial travellers' samples in certain foreign countries with which agreements have been made.

## AGREEMENTS BETWEEN THE UNITED KINGDOM AND CERTAIN FOREIGN COUNTRIES RESPECTING COMMERCIAL TRAVELLERS' SAMPLES.

Early in 1905 the attention of the Board of Trade was called to the fact that arrangements were in existence between certain continental countries whereby the marks placed on commercial travellers' samples by the customs officials of the exporting country were recognized, on importation and re-exportation, by the customs officials of the other country concerned, thus dispensing (except in special cases) with the actual customs examination of the samples and considerably expediting their clearance through the respective custom houses.

## RECIPROCAL AGREEMENTS REGARDING CUSTOMS CLEARANCE.

Inquiries made by the foreign office, at the instance of the board, elicited the information that reciprocal arrangements of this nature were in operation in France, Germany, Austria-Hungary, Italy, Belgium and Switzerland. It was recognized that the non-existence of similar arrangements between the United Kingdom and continen-

tal countries exposed British commercial travellers to delay and inconvenience when journeying in Europe, and the board consequently suggested to the foreign office that endeavours should be made to come to arrangements with the governments of the countries enumerated above, which would remedy this state of affairs. As a result of this proposal and of the negotiations which followed, arrangements have been concluded, up to the present time, between His Majesty's government and four of the six governments in question, viz., those of France, Germany, Belgium and Switzerland.

#### AGREEMENT BETWEEN FRANCE, BELGIUM AND SWITZERLAND.

The agreements with Belgium, Switzerland and France provide that the marks, stamps, or seals placed upon samples of dutiable goods by the customs authorities of one country at the time of exportation, and the official attested list of such samples, containing a full description thereof, issued by the proper authority, shall be reciprocally accepted by the customs officials of the other country, as establishing their character as samples and exempting them from inspection on importation by commercial travellers for use as models or patterns—except so far as may be necessary to establish that the samples produced are those enumerated in the list. The customs officials of the country into which such samples are imported may, however, affix a supplementary mark thereto in all cases where they may consider this precaution necessary. By the agreement with France it is further provided that samples taken to that country must be enumerated on the descriptive list under denominations admitted by the customs tariff of France, in the French language, and in French weights and measures. In this case also it is stipulated that the formalities in regard to the assay of wares of gold and silver must be accomplished in either country where necessary.

#### ARRANGEMENT WITH GERMANY.

The agreement with Germany provides that the marks of identity (stamps, seals, or leads) placed on samples by the customs officials of the one country at the time of exportation shall be recognized by the customs officials of the other country, and articles provided with these marks of identity shall be passed as patterns and be exempted from customs examination on importation except so far as such examination may be necessary as a means of determining the amount of duty to be collected on the samples in the country of import if they are not re-exported or placed in bond within the period provided for in the declaration between the British and German governments, signed at Berlin on 1st April, 1869.\*

#### GREAT BRITAIN AND UNITED STATES.

An agreement has also been concluded between the United Kingdom and the United States of America extending to commercial travellers of the latter country the same facilities in regard to customs treatment of their samples in the United Kingdom as are accorded to the commercial travellers of France, Germany, Belgium and Switzerland. In this case, however, these facilities have not been granted in return for reciprocal concessions of a like nature on the part of the United States since samples of mercantile value are subjected to duty under the United States Tariff Act in the same way as any other goods.

---

\* The declaration in question provides that the amount of duty chargeable must either be deposited by the commercial traveller at the German custom house in money, or security must be given for it. The importer of the samples is given a permit or certificate containing the appointment of a period which at the utmost, must not exceed twelve months at the expiration of which, unless it is proved that the patterns or samples have been previously re-exported or placed in bond, the amount of duty deposited will be carried to the public account, or the amount recovered under the security given.

## REDUCTION OF IMPORT DUTY.

The United States government have agreed, however, in return for this concession to extend to the United Kingdom the special reduction of the import duty (*i.e.* from 20 per cent *ad val.* to 15 per cent *ad val.*) on paintings in oil or water colours, pastels, pen and ink drawings, and statutory, being the product of the industry of the United Kingdom, authorized by Section 3 of the Tariff Act of the United States.

## EXPORTS OF MICA FROM CANADA.

STATEMENT showing amount of Canadian Mica Exported from Canada to Great Britain, United States, Other Countries and Total during each Fiscal Year, 1896 to 1908. (*From Canadian Returns.*)

## FLOUR IMPORTERS IN JAPAN.

The following list of flour importers in Japan have recently been furnished the Department of Trade and Commerce by Mr. W. T. R. Preston, Canadian Trade Commissioner at Yokohama :—

Messrs. Jardine, Matheson & Co., No. 1, Yokohama.  
 Messrs. Findlay, Richardson & Co., No. 6, Yokohama.  
 Messrs. Samuel, Samuel & Co., No. 27, Yokohama.  
 The American Trading Co., No. 28, Yokohama.  
 Messrs. Nozawa & Co., No. 24, Yokohama.  
 Messrs. Tamura & Co., Aikawa-cho, Fukagawa, Tokyo.  
 Messrs. Tamura & Co., Sakae-machi 2 chome, Kobe.  
 Messrs. Mitsui Bussan Kaisha, Suruga-cho, Tokio.  
 Messrs. Dodwell & Co., No. 50, Yokohama.  
 Messrs. Strome & Co., No. 12, Yokohama.  
 Mr. Abe Kohei, Yokohama.  
 Mr. Masuda Masuzo, Yokohama.

## GRAIN EXPORTED FROM CANADA TO GREAT BRITAIN.

## REPORTS OF BRITISH CONSULS.

## CHINA.

## REPORT ON THE TRADE OF ANTUNG.

(By H.B.M. Vice-Consul W. P. Russell.)

## JAPAN CONTROLS MANCHURIAN PIECE-GOODS TRADE.

Sir Alexander Hosie in his report on the foreign trade of China for the year 1906 dwells upon the absorption by Japan of the piece-goods trade in Manchuria. A glance at the customs returns would seem to demonstrate clearly that Antung is no exception to this general rule.

Japanese cotton goods are of an inferior character. The Chinese complain that they neither wear well nor wash well. Though there will always be a large demand for the cheap inferior article, it is probable that the Chinese purchasers will in many cases learn by experience that it is false economy to buy goods which do not wear, and there should then be an increased demand for the better class of piece-goods from the United Kingdom. As trade revives there will be more money, and this will also accentuate the demand for a better class of goods. What is necessary is that the agents of British firms should be here on the spot to watch the market. The Japanese competition in the cotton yarn market is also very keen.

## LARGER MARKET FOR WOOLLEN GOODS.

Blankets and rugs should command a larger market. The Chinese are notoriously bad hands at warming their homes, except at the risk of being asphyxiated by charcoal fumes, and with the temperature frequently some degrees below zero, cheap, durable and warm rugs should find a ready sale.

## MANCHURIA REQUIRES CANADIAN FLOUR.

Though Manchuria is an ideal wheat field, there is still a great demand for imported flour. A favorite brand is an American milling, which is specially prepared for the Japanese market, and imported from the United States both by sea and (during the winter months) by rail through Korea. The retail price of this flour per bag is \$2.65 of the local currency small money, equal, reckoning the Mexican dollar at 2s. 2d., to about 4s. 9d.

There is certainly here an opening for flour from Canada and Australia. Australian flour is now beginning to find a market in Shanghai, and could be readily imported here direct by steamer.

## JAPAN.

## REPORT ON THE TRADE OF DAIREN

(By H. B. M. Vice-Consul H. G. Parlett, Dairen.)

## ROOM FOR CANADIAN FLOUR IN DAIREN.

Flour comes almost entirely from the United States, neither the Australian nor the Canadian product having so far attempted to dispute the monopoly. Yet the experiment is worth making, for the market is a good one. Harbin flour, inferior to

the American probably in colour only, is occasionally seen, but it has not succeeded yet in winning the favour of the Chinese, apparently because it is not as white as the other, and no steps are taken to force it on the market by underselling.

#### IMPORTATION OF FLOUR BELOW DEMAND.

During the whole of 1907 importations failed to satisfy the demand in South Manchuria. This was simply because the United States market prices were so much above the average, ranging from \$3.60 to \$3.65 (gold) per barrel f.o.b., that the prices here, when the interest and freight had been added, were practically prohibitive. On an average not more than 30,000 bags per month were imported during the year, whereas since the new year (1908) this has increased to 35,000 or 40,000 bags. If the American market goes on dropping, large quantities should presently arrive, the demand being distinctly good.

#### DAIREN A FEEDING PORT FOR MANCHURIA PROPER.

It should be borne in mind that the chief function of this port is that of feeder to Manchuria proper and that, therefore, the greater part of the merchandise imported is not for consumption within the leased territory but for transport into the interior.

#### STUDY DEMAND FOR BUILDING MATERIAL.

This is an important item and there is every prospect that the demand for the articles included under this heading will remain good throughout 1908. The large quantities which arrived in 1907 were exceptional and destined mainly for the use of the railway in connection with the reconstruction of the line. A fair amount came from Japan, a considerable quantity from Shanghai, a little from Hong-Kong and the bulk from the United Kingdom.

The timber used here comes chiefly from the Hokkaido, though a small amount of the more valuable woods has been imported from Shanghai and Newchwang. It should be mentioned in connection with building material that there is at present quite a good demand for cheap roofing, such as galvanized iron, &c.

#### FOREIGN INROADS INTO TOBACCO MARKET.

The import of cigarettes into Manchuria is a matter which has of late considerably exercised the minds of the Japanese, who look with alarm at the energy and success with which foreign cigarettes are competing with those of the Tobacco Monopoly Bureau. Of the various kinds on the market, numbering among them British-American, Russian and Egyptian, the first-named are the most serious rivals of all. Manufactured by the British-American Tobacco Company, a corporation which in addition to having at its disposal a very large capital, employs able and energetic agents; these cigarettes are to be found all over Manchuria. They are as cheap as, if not cheaper than the Japanese cigarettes, and their quality is probably superior. It is therefore not to be wondered at that the Japanese should view their rapid advance in favour with alarm.

Of Egyptian cigarettes the cheaper brands find a ready market both in this port and in the interior, but of the Russian little can as yet be said because their appearance on the market is only recent, at least so far as the leased territory is concerned. It is a question if the figures for cigarettes and cigars are correct. The real value would appear to be about £56,000.

## PERSIA.

## REPORT ON THE TRADE AND COMMERCE OF BUSHIRE.

(By H.B.M. Vice Consul H. G. Chick, Tehran.)

## FINE PRICES WIN MATCH MARKET.

An increase of 3,701*l.* to 10,526*l.* represents fairly accurately both the increased use and the increased importance of matches as a trade commodity. At the same time the market is temporarily overstocked, so many kinds having been introduced, and there are said to be about 400 cases unsold in Bushire. The assignment of a large portion of the above sum to the United Kingdom, Germany and India is misleading, as, with the exception of some Austro-Hungarian matches, all brands on the market are Swedish. The 'Rupée,' a sulphur match made in Sweden, has been largely driven off the market by the Vulcans Tandstickor 'Globe' brand, likewise a sulphur match made at Tidaholm in Sweden and supplied to Persia via Hamburg. These latter are packed in cases containing 50 gross and in boxes of about 75 matches each, 1½ inches in length; this gives them a very considerable advantage over the 'Rupée' brand, which has a useless length of wood, but their chief merit is the low price of 150 krans (2*l.* 15*s.* 6*d.*) per 50 gross as against 180 krans (3*l.* 6*s.* 8*d.*) for the 'Rupée.' An Austro-Hungarian sulphur match in round boxes found a considerable sale in the province of Isfahan. The only safety match in general use by the better classes and smokers is the 'Ship' brand, made at Sodertelje in Sweden, selling at a price of 270 krans (5*l.*) per 50 gross with about 63 matches per box.

Matches for Persia are largely supplied through Bushire, and it would seem well worth the while of British manufacturers to set themselves to produce matches, especially sulphur, which would compete with the 'Globe' and 'Ship' brands. Consumers in Persia are like sheep in transferring their custom, and the easiest way to win it is to cut still finer the prices of competitors. It must be borne in mind that only the wealthy can afford to pay the prices of safety matches, and the peasants, the majority of the population, prefer a match that can be ignited without the aid of a box.

## IMPORTATION OF ARMS AND AMMUNITION.

The import of arms and ammunition is not likely to be permanent, being due to a special order from the Persian government. The import generally is prohibited, but the smuggling of arms has increased out of all bounds, and so hopeless do the customs administration consider their efforts to cope with it that in outlying stations the native officials have resigned themselves to conniving at gun-running. There has been more than one large consignment brought into Bushire itself by night.

## SCANT WOOD SUPPLY.

The increase in Indian timber should be maintained. Though restricted in its scope by defective transport into the interior there are signs of a constant demand in the neighbourhood of Bushire and to a certain extent in Shiraz, for there is a scant supply of wood fit for building purposes in this part of Persia. The trade in Bushire is in the hands of the boat-builders and master carpenters.

## SCARCITY OF PRINTING PAPER.

One of the immediate effects of the granting of a constitution has been an increase in the number of news sheets and journals printed in the different towns of the empire. The paper on which these are printed is exceedingly poor in quality and at one time during the year 1906-7 one of the principal newspapers in Persia was reported to be very hard put to it to find sufficient suitable material. Very large supplies of cheap grey and white thin foreign writing paper are in use.

## VERA CRUZ.

*Report of the Trade and Commerce of the Consular District of Vera Cruz.*

(By H. B. M. CONSUL NUNN, VERA CRUZ.)

## RESIDENT REPRESENTATIVES MOST SUCCESSFUL.

The plan of securing a representative resident in the foreign market to handle the goods of a number of firms has been one of the most successful in the foreign trade, and is, I believe, coming to be more generally followed, but in the event of any of our exporters following this course I would most strongly recommend that the person so employed be a British subject. A British subject will push the goods of British manufacturers better than a foreigner will in almost every case, at any rate in Mexico. Obtain the services of the right man and there is lots of trade to be done with Mexico.

## GOOD FIELD IN GROCERIES AND CONFECTIONERY.

Formerly at almost any of the better class of grocers you would find high class groceries and preserves from the best London makers; now they have been almost entirely superseded by foreign competitors, mostly American. Inquiry into this shows that the American salesman has been actively canvassing this territory. He brings with him a case of miniture samples that give the purchaser a good idea of the appearance of such wares as are put up in glass and fancy boxes or other packages, and he is also supplied with good catalogues, depicting in colours many of the principal articles likely to be called for. The British manufacturer does not seem to have made any such effort to hold this trade, and appears to have limited himself to the distribution through the post office of a certain amount of printed matter, unfortunately more often than not in English instead of Spanish.

I am of opinion that a good commercial traveller handling pickles, sauces, confectionery, biscuits, wines and spirits, especially port wine and English gin, would find this consular district quite worth a visit. I do not imply that great success would be attained by taking in Vera Cruz only, but there are other towns of importance to the number of 10 or 12, which in the aggregate should give a satisfactory return, in addition to which, the rest of the Republic would doubtless prove to be as good a field as the consular district of Vera Cruz.

## CANADIAN TRADE SHOWED HEALTHY INCREASE.

A constant growth in the commercial activity in this consular district was displayed during the year 1907, and it is gratifying to note that the United Kingdom and the Empire generally participated in this progress. The chief imports from the United Kingdom were caustic soda, pig iron, machinery, galvanized roofing and textiles; France also furnished a certain quantity of the qualities of these latter.

From India raw jute and jute sacks arrived in increasing quantities, notwithstanding the active competition for the trade in the finished article displayed by the local mills.

Canadian trade also showed a healthy increase, the principal articles of export to Mexico consisting of railway sleepers, timber in general and foodstuffs.

#### BOOTS ARE STOCK IN TRADE.

Boots from one of the many lines of the retailer's stock in trade, and goods of Spanish, French and American manufacture displayed side by side individually win or lose a buyer as his fancy may dictate. American-made shoes sell at from 19s. to 1l. 7s. per pair, but this figure is beyond what the majority are able to pay. Spain furnishes for this market a class of boots and shoes of good workmanship, which sell retail at from 12s. to 15s. per pair.

There is a good opening, especially in the port of Vera Cruz, for the sale of white canvas boots and shoes for both sexes. To foster this trade, these should be well made and priced at a medium figure.

## TRADE OF BELGIUM.

No. 1.—STATEMENT showing the Trade, Duty Collected and Population of Belgium during the Calendar Years 1894 to 1907.

Note.—Franc = 19.3 cents.

## TRADE JOURNAL EXTRACTS.

## PROSPECTS OF WORLD'S GRAIN CROP.

The *Corn Trade News* gives the following summary of the world's crop:—

United States of America.—Continued mention damage from excessive moisture in some sections; otherwise recent weather favourable, and crops improved. Government report less favourable than expected, especially for Kansas.

Canada.—Weather and crop news continue favourable.

Argentina.—Better ploughing weather.

Russia.—Winter wheat must be short crop, but prospects for spring wheat very favourable. The later may make good losses of former, but this uncertain; crops backward.

Roumania.—Crops want more rain.

Hungary.—Weather news and crop reports improved.

France.—Weather better; complaints of crops lessened, but thin plant still mentioned in northern region.

Germany.—Weather rather unseasonable, but crop situation generally satisfactory.

Italy, United Kingdom and Low Countries.—Crops fair on the whole.

Spain.—Bad weather caused deterioration of crops, but hopes good harvest still entertained.

North Africa.—Reports of crops much less favourable.

Australia.—Drought hindered seeding, but good rain fallen recently; outlook now considered fair.

## ROOM FOR CANADIAN COMPETITION.

The British Vice-Consul at Curityba (Mr. H. H. Gomm) reports that iron, steel, wire, fire-arms, pumps, screws galvanized iron sheets machinery, bicycles, electrical apparatus and material tinplates zinc woollen and cotton goods cloth, fancy goods, jewellery ribbons, linen, starch, linseed oil paints, varnish, leather glass and crystal articles, china, chemicals, cement, photographic apparatus and supplies, sewing machines pianos paper and essences are almost entirely imported from Germany as the most important commercial firms there are German. The United States supply kerosene oil, fencing wire, workmen's and agricultural tools, machines, machinery driven by hydraulic or steam power, railway material, locomotives, rails, drugs, sewing machines, automobiles, typewriters and graphophones. Wines, table oil, dried and preserved fruits and cheese are imported from Portugal and Italy, and silk, underclothing, ribbons, spirits, leather and perfumery from France. The United Kingdom sends coal, iron in bars, iron and steel rails, woollen goods, mackintoshes, chinaware, varnish and paper, all in limited quantities, while furniture, underclothing cotton shirts and some woollen goods are supplied by Austria-Hungary. —*British Board of Trade Journal*.

## TRADE MARK DIFFICULTY IN EGYPT.

The Alexandria correspondent of the *Manchester Guardian* says:—The development of trade in Egypt appears to be the means of the country losing its former reputation in respect to foreign trade marks. Several cases in which British manufacturers were concerned have recently come before the Alexandria and Cairo courts. In one a Northampton firm of boot and shoe manufacturers prosecuted a number of  
4618—8½

retailers for exposing for sale and selling footwear counterfeiting their brand. The case largely attracted the attention of British importers in Egypt on account of the extensive scale on which the fraud appeared to have been practised, and it seemed chiefly through having active representatives here that the counterfeit trade was detected.

The Egyptian courts have emphatically laid down the rule that, while in Egypt there is no legislation on patents or inventions, the law is strict on the protection of lawful foreign trade marks and inventions, and will be rigorously exercised in defending them from counterfeit. Events seem to show, however, that some amount of vigilance is required from manufacturers themselves and their representatives. It would be unfortunate if the small measure of industrial activity Egypt is capable of should be turned into such futile channels.

#### PRE-COOLING PREVENTIVE OF FRUIT DECAY.

Fruit growers in California have in the past, suffered great loss through the decay of their produce while in transit to markets in the eastern States. Some three years ago the United States Department of Agriculture appointed an expert to make a thorough study of the causes of the trouble, with the view to devising a remedy. It was found that the loss was greatest in the hot season, and that fruit picked and packed at a very high temperature frequently travelled 1,000 miles on the journey before the ice with which it was packed had lowered the temperature to a degree below that at which it was possible for decay to take place. By that time, naturally, much of the riper fruit was already spoiled.

In order to cool the fruit before starting, therefore, a method has been devised for exhausting the air in the car before loading, and replacing it by air made cool by passing over ice. By this system of 'pre-cooling' a carload of fruit can, at a very small cost and in a few hours, be reduced to a temperature at which there is no danger of decay. Cooling plants are being installed at the chief California railway stations.—*B. W. I. Agricultural News*.

#### BRITISH TRADE CORRESPONDENTS IN CANADA.

The president of the Board of Trade has appointed Mr. R. Grigg, who recently completed a commercial mission in Canada and Newfoundland for the advisory committee to the Board of Trade on commercial intelligence, as H. M. Trade Commissioner in Canada.

He has also appointed the following gentlemen as local trade correspondents in Canada:—Mr. W. J. Davidson, Vancouver. Mr. J. J. Shallcross, Victoria; Mr. J. Appleton, Winnipeg; Mr. W. E. Anderson, St. John, N.B.; Mr. G. B. Ramsey, Quebec; Mr. A. T. Weldon, Halifax, Nova Scotia. It is possible that some further appointments of local correspondents may be made in Canada. The local trade correspondent in Newfoundland is Mr. H. W. le Messurier.—*British Board of Trade Journal*.

#### NEW ZEALAND VIEW OF COLONIAL PREFERENCE.

The Premier of New Zealand, Sir J. G. Ward, declares that New Zealand does not desire to interfere with British politics, but thinks that the colonies were within their rights in asking for a preference. Inter-colonial competition, he urges, would keep the prices of produce down. The colonies should not be asked to compete with Denmark, America and Argentina. He regretted the Canadian treaty with France, as he thought that such arrangements between British colonies and foreign nations were the beginning of the overthrow of the commercial supremacy of the British Empire. In addition to foreign competition, the colonies suffered from British railway concessions to foreigners, another evil of private ownership.—*Indian Trade Journal*.

## MINING MACHINERY INTO MEXICO FREE.

The Board of Trade are in receipt, through the Foreign Office, of information to the effect that a Mexican law has been recently promulgated providing that machinery imported into Mexico by mining syndicates and metallurgical establishments in which the precious metals are refined shall continue to enjoy exemption from import duty until the 30th June, 1909, under the conditions laid down by the law of the 25th March, 1905.—*British Board of Trade Journal*.

## CLEARANCE OF COMMERCIAL TRAVELLERS' SAMPLES.\*

An agreement has recently been concluded between His Majesty's government and the government of Italy with a view to facilitating the clearance through their respective customs departments of samples of dutiable goods brought into the territories of one of them by commercial travellers of the other, to be used as models or patterns for the purpose of obtaining orders, and not for sale. By the terms of the agreement, such articles will be admitted free of duty, subject to the following formalities requisite to ensure their being re-exported or placed in bond:—

1. The officers of customs at any port or place at which the patterns or samples may be imported shall ascertain the amount of duty chargeable thereon, which amount must either be deposited by the commercial traveller or ample security must be given for it.

2. For the purpose of identification, the marks, stamps or seals placed upon such samples by the customs authorities of one of the contracting parties shall be recognized as sufficient by those of the other party. Should the samples, however, arrive without bearing the above-mentioned marks of identity, or should the marks not appear sufficient to the administration interested, a supplementary mark may be affixed to such samples, if considered desirable, in such a way as not to injure them and without charge.

3. A permit or certificate shall be given to the importer, which shall contain:— (a) A list of the patterns or samples imported, specifying the nature of the goods and such marks as may be proper for the purpose of identification; (b) a statement of the duty chargeable on the patterns or samples, as also whether the amount was deposited in money or whether security was given for it; (c) a statement relative to the manner in which the patterns or samples are marked; (d) the appointment of a period, which at the utmost must not exceed 12 months, at the expiration of which, unless it is proved that the patterns or samples have been previously re-exported or placed in bond, the amount of duty deposited will be carried to the public account, or the amount recovered under the security given.

4. Patterns or samples may also be re-exported through any other custom house than the one through which they were imported.

5. If before the expiration of the appointed time (3d.) the patterns or samples should be presented at the customs house of any port or place for the purpose of re-exportation or being placed in bond, the officers at such port or place must satisfy themselves by examination whether the articles which are brought to them are the same as those for which the permit of entry was granted. If there are no objections in this respect the officers will certify the re-exportation or deposit in bond, and will refund the duty which had been deposited, or will take the necessary steps for discharging the security.—(*British Board of Trade Journal*.)

---

\* A memorandum from the High Commissioner's office in London on the clearance of commercial travellers' samples in Belgium, Switzerland, France and Germany was published in Weekly Report, No. 233, July 13.

## OIL DISCOVERIES IN SISTER COLONY.

A Canadian oil expert, who has recently returned from a tour through the oil-bearing properties in the Ladybrand district of the Orange River Colony, has reported most favourably upon their prospects. The existence of oil-bearing strata has been known for many years, but hitherto little has been done to ascertain their value. Durban being the nearest port, it is probable that, if oil is found in large quantities and an export trade developed, shipments will be made from there.—(*Indian Trade Journal*.)

## TRADE COMMISSIONER SERVICE.

The Department of Trade and Commerce invites correspondence from Canadian exporters or importers upon all trade matters, and will cause special inquiries to be made by the Trade Commissioners and Commercial Agents into any subject of general interest.

Canadian Trade Commissioners and Commercial Agents should be kept supplied with catalogues, price lists, discount rates, &c., and the names and addresses of trade representatives by Canadian exporters. Catalogues should state whether prices are at factory point, f.o.b. at port of shipment, or, and more preferable, c.i.f. at foreign port.

### CANADIAN TRADE COMMISSIONERS.

#### Australasia.

J. S. Larke, The Exchange, Sydney, agent also for New Zealand.  
D. H. Ross, Stock Exchange Building, Melbourne.

#### British West Indies.

E. H. S. Flood, Barbados, agent also for the Bermudas and British Guiana.

#### China.

Alex. MacLean, care of H.B.M. Consul General, Shanghai.

#### France.

A. Poindron, 101 Rue Réaumur, Paris.

#### Great Britain.

Rooms 39 and 40 Central House, Birmingham.

J. B. Jackson, cor. of E. Parade and Greek Streets, Leeds.

P. B. MacNamara, Canada Chambers, 36 Spring Gardens, Manchester  
W. A. MacKinnon, Sun Buildings, Clare Street, Bristol.

#### Japan, China and Korea.

W. T. R. Preston, No. 14 Bund, Room B, Yokohama, Japan.

#### Mexico.

A. W. Donly, Apartado, 91B, Mexico, D.F. Newfoundland.

E. D. Arnaud, Gazette Building, Water St., St. John's.

#### South Africa.

John A. Chesley, Rhodes Buildings, Cape Town, Cape Colony.

### CANADIAN COMMERCIAL AGENTS.

#### British West Indies.

E. A. H. Haggart, Kingston, Jamaica.  
R. Bryson, St. John, Antigua.  
S. L. Horsford, St. Kitts.  
Edgar Tripp, Port of Spain, Trinidad.

#### Norway.

C. E. Sontum, Grubbegd, No. 4, Christiania, Norway, agent for Sweden and Denmark also.

### CANADIAN HIGH COMMISSIONER'S OFFICE.

#### Great Britain.

W. L. Griffith, Secretary, 17 Victoria Street, London, S.W., England.

Harrison Watson, Canadian representative, City Trade Branch, 73 Basinghall Street, London, E.C., England.

### CANADIAN IMMIGRATION AGENTS.

#### Belgium.

D. Tréau De Cœli, Place de la Gare 23, Antwerp.

#### France.

Paul Wiallard, 10 Rue de Rome, Paris.

#### Great Britain.

J. Obad Smith, Assistant Superintendent of Emigration, 11-12 Charing Cross, London, S.W.  
A. F. Jury, Old Castle Buildings, Pree-son's Row, Liverpool.  
G. H. Mitchell, 139 Corporation Street, Birmingham.

H. M. Murray, 81 Queen, St., Exeter.  
L. Burnet, 16, Parliament St., York.  
John Webster, 17-19 Victoria St., Belfast.  
John McLennan, 26 Guild St., Aberdeen.  
E. O'Kelly, 44 Dawson St., Dublin.  
Malcolm McIntyre, 35-37 St. Enoch Sq., Glasgow.

## LEEDS AND HULL.

## REPORT OF TRADE COMMISSIONER.

*(Mr. J. B. Jackson.)*NORTH BRITISH AND MERCANTILE AGENCY,  
EAST PARADE, LEEDS, ENG., 1908.

## OPENINGS FOR CANADIAN PEAS.

There is ample room for an improvement in the amount of Canadian peas shipped to this part of England. Some idea of the quantity of this product consumed can be gathered from the fact that during the past five years, the imports into the port of Hull alone have exceeded 2,400,000 bushels, not to mention the home production. Owing, however, to the poor yields last year in different countries, the imports into Hull fell below those of previous years, only 47,298 quarters arriving, and, in consequence, high market prices were general throughout the season.

In writing of the opportunities that await Canadian growers in this trade, a leading firm of importers make mention of the fact that not only must shipments come up to sample in every respect, but that the kind of peas likely to secure the quickest sale are those which are large in size and green in colour. It is also desirable, they say, that every care should be taken to exclude grub-eaten peas, as these not only reduce the saleable value of the goods but affect the exporters interests when arrangements are being made for further shipments.

## HINTS AS TO PACKING AND PRICES.

In sending peas to this market it is advocated that they should be shipped in sacks holding nine or eighteen stones. At the present time, the latter weight is the one in most general use although there is a growing feeling reported from different parts of the country in favour of the smaller weight on account of its easier handling facilities.

As a guidance to Canadian shippers it may be mentioned that the prices ruling to-day in this district were from 60s. to 70s. per 504 pounds for the 'finest' quality 'Marrowfats' and for 'second' qualities, from 48s. to 60s. was being asked for the same weight.

## CANADIAN LINSEED HAS GOOD MARKET.

The increase in the imports of Canadian linseed into this country would indicate that our growers are finding a good market here, and this being the case, their attention can well be directed to the port of Hull, which is claimed to be the largest seed-crushing centre in the Kingdom. Indeed, some idea of the amount of linseed consumed in this industry can be gathered from the fact that the imports of this particular seed last year totalled up to no less than 809,974 quarters, the greater part of which was supplied by Russia, India and South America.

The seed-crushing industry, which, by the way, is Hull's staple trade, is a business of vast dimensions, some of the larger mills having a capacity for crushing between 1,000 and 1,700 tons of seed per week. As there are, however, so many sources from which supplies of this seed can be drawn, it will be necessary for Canadian shippers, in order to compete successfully in the trade, to quote their lowest prices when offering shipments. As one firm of importers remark in writing on this subject, 'Competition in this line is very keen and prices very variable.'

An opening also occurs for screened linseed suitable for domestic use, the prices for which on a recent date were 42s. per 424 pounds. Samples must be sent in each case and shipments forwarded must, in every particular, be equal to sample, otherwise there is no use in attempting to do business here.

#### CANADIAN CLOVER-SEED IN FAVOUR.

Although it is as yet rather early to give any indication of what the English crop of clover-seed is likely to be, there are not wanting signs, in the opinions of well informed traders, to show that there is every prospect of a fair yield if the weather does not interfere. The Canadian clover-seed trade with this district, it is gratifying to say, is one of many years standing, and, providing prices are favourable, the Dominion-grown seed should hold its own with any foreign variety. Lately, however, Canadian shippers have not sent much 'red clover' here, but any decrease in the export of this seed is made up by the improvement in the supplies of the 'Alsike' variety. It will, of course, be as late as November before any trade can be done in this product from Canada; but, in the meantime, exporters who may be desirous of making arrangements for shipments can be referred to reliable importing houses here who are interested in seeing this trade develop, and who would be pleased to receive samples and quotations.

#### HOW TO SECURE CONTINENTAL TRADE.

The wish, no doubt, has often been expressed by our manufacturers and exporters that they could find some medium through which to introduce their products on to the Austrian, Russian and other continental markets in a manner likely to be both efficient and remunerative. With this purpose in view, a suggestion is made which will, no doubt, prove interesting to many shippers, who, in the past, have been somewhat at a loss to know what means they could adopt to secure a share of the trade, which, admittedly, could be done in various lines of goods.

A glance at the map of England will show that the port of Hull on the north-east coast is situated in a peculiarly fine geographical position for trade with the continent. Indeed, it is this trade which largely goes to uphold the position this city has attained as the third port in the United Kingdom, the latest annual return of the value of the imports, exports and transhipments exceeding £60,000,000. Most of this trade, was, of course, done with continental ports, in connection with which there are regular and direct steamship services running from Hull.

#### BRITISH TRAVELLERS COULD HANDLE CANADIAN GOODS.

The prosperity of the port, being, as it is, so much dependent upon continental trade, just as the ports on the other side of the English coast are dependent upon Canadian, United States and other trades, it is naturally only to be expected that many of the Hull merchants have very close relationships with importers and exporters on the continent. Indeed, it is the practice for some of the more enterprising traders to regularly visit their customers and other connections there on two, if not more, occasions each year. In this direction lies the opportunities for Canadian shippers.

At various times, some of these gentlemen, when contemplating their journeys, have communicated with this office with a view of handling agencies for the sale of particular lines of Canadian goods and there is not the least doubt but that Canadian shippers would find these exceptionally good opportunities for testing the market in the various continental centres. At the same time they would also have the advantage of possessing a good agent to work up their trade in the north of England.

JNO. B. JACKSON.

## AUSTRALASIA.

## REPORT OF TRADE COMMISSIONER FOR NEW SOUTH WALES, QUEENSLAND AND NEW ZEALAND.

(Mr J. S. Larke.)

THE ROYAL EXCHANGE, SYDNEY, July 6, 1908.

## CONDITIONS OF AUSTRALIAN TRADE.

During the month of June, much needed rains fell in Victoria and New South Wales. Unusually cold weather and sharp westerly winds which followed have neutralized to some extent their benefits, but the situation as a whole is slightly improved although not enough to ensure, as yet, an average harvest in either of these states. Conditions in the other states of the Commonwealth are more favourable.

Though the decline in exports continues, as was intimated in previous reports would be the case, the decreases are not as heavy as in the month of January. The increases for the first five months of the year for the Commonwealth are as follows:

|                   | Imports.    | Exports.    |
|-------------------|-------------|-------------|
| 1907 .. . . .     | £20,222,884 | £29,639,773 |
| 1908 .. . . .     | 20,089,149  | 24,511,971  |
| Decrease .. . . . | £ 133,735   | £ 5,127,802 |

It should be remembered that for the first four months of the year there was an increase in importations of nearly £1,000,000. The decreases in April and May have more than swallowed up the increase of the first three months of the year. The imports of gold during the five months show a falling off of £201,594. The exports of gold have increased very considerably, having been £6,640,694 as against £4,437,346 in 1907. The decreases in imports have been mainly in boots and shoes, hats and caps, dried fruits, galvanized iron, pig iron, leather, agricultural machinery, manufactures of metal, kerosene, whiskey, tobacco and cigars; in fact in almost all lines of exports except coal, gold and timber. Wool at £3,500,000 was the largest factor, wheat and flour, nearly £2,000,000, following next in order. There have been large decreases in butter, frozen meats and other pastoral products. The decrease has been in both quantity and price.

Under such circumstances trade is not very active but there are few complaints. The bank clearings show less decrease in trade than the import returns would indicate. This is accounted for by the fact that a portion of the decreased importation is due to increased manufacture in Australia. The downward tendency of prices so far as wool and the metals are concerned appears to have stopped. The last sales of wool maintained the improved condition noted a month ago, and while metals may not advance for some little time, there is a probability of an improvement within the next three months.

## INTERESTING FIGURES OF MANUFACTURING IN VICTORIA.

Supporting what has been stated in a previous paragraph respecting some decrease in importations through increased home production, some figures respecting the manufacturing industry of Victoria will be of interest:

|                                                      | 1903.       | 1905.       | 1907.       |
|------------------------------------------------------|-------------|-------------|-------------|
| Number of factories . . . . .                        | 4,151       | 4,264       | 4,530       |
| Average No. hands employed—                          |             |             |             |
| Males . . . . .                                      | 49,434      | 52,925      | 59,691      |
| Proportion % . . . . .                               | 67:5        | 66          | 65:7        |
| Females . . . . .                                    | 23,795      | 27,310      | 31,212      |
| Proportion % . . . . .                               | 32:5        | 34          | 65:7        |
| Total . . . . .                                      | 73,229      | 80,235      | 90,903      |
| Value of—                                            |             |             |             |
| Machinery, plant, land and buildings . . . . .       | £12,978,841 | £13,959,157 | £15,148,100 |
| Fuel and light used . . . . .                        |             | 371,996     | 498,454     |
| Materials used . . . . .                             |             | 15,058,471  | 18,632,439  |
| Output . . . . .                                     |             | 25,200,648  | 30,399,945  |
| Wages paid (excluding working proprietors) . . . . . | 4,573,795   | 5,039,115   | 5,982,677   |

The increases have been very general in the manufacture not only of food and drinks but of clothing, metal and machinery works, printing and book-binding, and coach building. The factories have increased somewhat in size but not remarkably so.

The number of female workers has increased faster than that of males, showing a decided increase in the production of food and clothing, in which female labour is largely employed.

#### OUTSTANDING FEATURES OF THE COMMONWEALTH TARIFF.

The tariff, as finally passed, so far as Canadian interests are concerned, does not materially differ from the form in which it passed the House of Representatives six months ago, and since which time it has been in operation. In agricultural products there is no change. In fish, fresh, smoked, dried, but not salted, or preserved by cold process, the duty has been reduced from 1½d to 1d per lb.

#### DUTY ON TEXTILES.

A special class has been made for corsets which are now 15 per cent general tariff and 10 per cent preferential, instead of having been classed under Apparels with a duty of 35 per cent.

Carpets, including, lap dusters, floor rugs and coverings, floor cloths, floor and carriage mats have been reduced from 20 per cent and 15 per cent preferential, to 15 per cent general tariff and 10 per cent preferential.

Curtains and blinds are now 20 per cent and 15 per cent, instead of 25 per cent and 20 per cent preferential. Parasols and sunshades have been made 25 instead of 20 per cent. Piece goods containing wool have been made 30 per cent and 25 per cent, respectively, instead of 15 per cent and 10 per cent. Piece goods of silk or containing silk have been reduced from 20 per cent and 15 per cent to 15 per cent and 10 per cent. A similar reduction applies to velvets, velveteens, tucked linens and cottons. Cotton, linen and small piece goods including leather cloth remain as before, 5 per cent and free. Socks and stockings of cotton are now free instead of 25 per cent and 20 per cent preferential as before.

#### METALS AND MACHINERY.

Discs for agricultural implements are now free. Hand worked rakes and ploughs combined, hay tedders, horse rakes, milking machines, mould board plates in the rough, potato raisers or diggers, root cutters, pulpers and graders, straw stackers, threshing

machines, winnower forks, and hand worked cultivators are now free instead of 10 per cent, as before. Adding computing machines and cash registers and automatic weighing machines are made free instead of 10 per cent and 5 per cent, as passed by the House of Representatives. Machines and machines not included in the general tariff have been reduced from 30 and 25 per cent to 25 and 20 per cent.

Log band saws with band wheels, 5 feet, and over in diameter, are now included in the tariff as free.

Manufactures of metal, not specifically included, have been increased from 25 and 20 per cent to 30 and 25 per cent.

Articles for household use made of aluminium are now free instead of 5 per cent.

Screws for wood are now free. Rock drills have been reduced from 20 and 15 per cent to 5 per cent and free.

Electro dynamos, up to 200 H.P., are still 20 per cent but above that power are 12½ per cent.

Iron pipes, cast and wrought, still remain at 45s. general tariff but the preferential rate has been raised from 30s. to 35s. per ton.

Wire netting has been made free instead of 10 per cent and 5 per cent preferential as passed by the House of Representatives.

Locks have been put into a special class with a duty of 20 per cent general tariff and 15 per cent preferential, instead of 5 per cent and free as previously.

#### PAINTS AND COLOURS.

Paints and colours prepared for use bear a duty of 6s. per cwt. or 20 per cent ad val., whichever rate is the highest. The preferential tariff is the same as the general tariff in the specific duty but is 15 per cent instead of 20 per cent in the ad val. rate. The general tariff on varnishes and stains has been increased from 2s. to 2s. 6d. per gallon with a preferential tariff of 2s.

In earthenware, china, glass, drugs and chemicals, there are no changes which affect Canadian exports.

#### MANUFACTURES OF WOOD.

The duty on furniture made of wood in the general tariff remains unchanged but the preferential tariff has been increased from 25 to 30 per cent. Elm hubs with metal bands, known as Sarven hubs, are free but other prepared hubs are dutiable at 1s. each. Articles formerly classed as bent poles are now classed as poles for vehicles and are dutiable at 30 and 25 per cent.

#### JEWELLERY AND FANCY GOODS.

Fancy goods have been reduced from 30 and 25 per cent to 25 and 20 per cent. Spectacles and spectacle frames, not being of gold, are now free instead of being dutiable at 10 per cent.

#### LEATHER AND RUBBER.

Gum boots are now free, formerly 5 per cent. Patent and enamelled leather is dutiable at 2d. per sq. ft. instead of 20 per cent ad val. Other leathers are unchanged.

#### PAPER AND STATIONERY.

Manufactures of paper, including price lists and trade catalogues were dutiable at 6d. per lb. There is now an added clause of 35 per cent, whichever rate returns the highest duty. Pulp board for coating has been made free. Tissue cap paper, copying paper and paper for patterns have also been made free.

## VEHICLES AND FITTINGS.

Bicycles, tricycles and frames, whether wholly or partly finished, are now dutiable at a specific duty of 25s. or an ad val. duty of 30 per cent and 20s. or 25 per cent preferential, whichever rate returns the higher duty. Previously there were no specific duties. Roller bearing and ball bearing axles are admitted at a duty of 5 per cent and free; previously they were classed amongst other axles, dutiable at 30 per cent.

## REDUCTION FOR MUSICAL INSTRUMENTS.

Up-right pianos have been made 25 and 20 per cent, instead of 30 and 25 per cent preferential. Grand and semi-grand instruments remain at 30 and 25 per cent. Pianos, not included in these two classes have been reduced from 30 and 25 per cent, to 25 and 20 per cent.

## MISCELLANEOUS ARTICLES NOW FREE.

Sewing and embroidery silks are now free instead of being dutiable at 5 per cent. Asbestos mill boards, asbestos yarn and cloth, unproofed, are free.

## COMPARISON OF THE TARIFFS OF 1902 AND 1908.

It has been officially stated that exclusive of spirits and tobacco, the tariff of 1902 was an average of 17 per cent ad val., and that of 1908 averaged 19 per cent ad val., an increase of only 2 per cent. This statement, however, gives no conception of the effect upon imports. While there are cases in which the 1908 tariff is slightly lower than that of 1902, yet in a number of cases the increase is equal to from 5 to 25 per cent.

## DUTY ON CANADIAN AGRICULTURAL PRODUCTS UNCHANGED.

In agricultural products, the tariff on any articles likely to come from Canada, is unchanged, except on meats and fish, preserved by cold process, on which it has been increased from 2d. to 3d. per lb.

In regard to groceries the only item changed is toilet soap, raised from 3d. to 4d.

In apparel and textiles the increase is large on apparels made from wool or silk, which are raised from 25 to 40 per cent. Canada sends little or nothing in these lines. On cushions and furniture drapery the increase in the general tariff is from 20 to 25 per cent, but the preferential tariff is the same as the general tariff in 1902. Parasols, sunshades and umbrellas have been increased from 20 per cent in 1902 to 25 per cent. Piece goods containing wool, formerly 15 per cent are now 30 and 25 per cent. Cotton and linen piece goods remain as before, 5 per cent, but in drills denims and dungarees, imports from Great Britain are free. Flannels and flannelettes, which in the tariff of 1902 were dutiable at 15 per cent, are now 5 per cent and free. In these lines, except as to the advantages of the preferential tariff, there is little change in the duties on the articles coming from Canada.

## EXTENSIVE CHANGES IN METALS AND MACHINERY.

Here the changes are extensive and it would be impossible to go into them in detail without taking up all the lines. Generally stated, lamps, and lampware have been advanced from 15 per cent to 25 per cent and 15 per cent preferential. Agricultural and horticultural implements, dutiable at 12½ per cent in the 1902 tariff, are now made 15 and 12½ per cent preferential. In the case of stripper harvesters and strippers, there has been an enormous increase in the duties, being £12 and £6 specific duty

respectively. These duties have now been in operation for three years; part of the time they were higher. Winnowers are now 25 per cent. Mould boards finished are now 20 per cent instead of free. Portable engines, formerly free, are now 25 per cent and 20 per cent preferential. Cutlery, formerly 15 per cent is now 15 and 20 per cent, Weighing machines and cash registers, formerly 20 per cent are now free. Gas and oil engines, formerly  $12\frac{1}{2}$  per cent, are now 5 per cent and free. Steam engines, formerly  $12\frac{1}{2}$  per cent, are now 25 per cent. Machinery generally, formerly  $12\frac{1}{2}$  per cent, is now 25 and 20 per cent, but linotypes, band saws and some other machinery coming from Canada are free. Axles and springs, formerly 15 per cent, are now 35 and 30 per cent, though ball bearing axles are now reduced to 5 per cent and free. Mixed metalware instead of being 15 per cent, under the new tariff is 25 and 20 per cent. Platedware, formerly 20 per cent, under the tariff of 1908 is 25 and 20 per cent. Metalware, not specially noted, instead of being 20 per cent is now 30 and 25 per cent. Mining machinery, formerly  $12\frac{1}{2}$  per cent, has been sub-divided, some of it bearing a duty of 25 per cent general and 20 per cent preferential, and others 5 per cent and free. Electrical machinery has not been largely changed.

#### INCREASE FOR OILS, PAINTS AND VARNISHES.

Blacking, 20 per cent in the 1902 tariff, now bears a duty of 40 per cent general and 35 per cent preferential. Paints and colours, ground in liquid, 2s. per cwt. in 1902, are now 4s. per cwt. Paints and colours prepared for use, formerly 4s. per cwt. are now dutiable at 20 per cent general and 15 per cent preferential. Dry colours, formerly dutiable at 1s., are now 2s. Varnishes, formerly 1s. 9d., are now 2s. 6d. general and 2s. preferential per gallon.

#### EARTHENWARE AND GLASS.

Cement and plaster of paris, formerly 9d. per cwt. are now dutiable at 1s. general and 9d. preferential. Glass bottles now bear varying duties which are considerably higher than under the tariff of 1902. Glassware generally, formerly 20 per cent, is now 25 and 20 per cent.

#### DRUGS AND CHEMICALS.

The duties under the new tariff on articles which come from Canada are unchanged. Carbide of calcium is free. Medicines are still 15 per cent.

#### DECIDED CHANGE IN WOOD, WICKER AND CANE.

A very heavy change has been made in the duties upon furniture. Under the tariff of 1902 the tariff was 20 per cent ad val.; now on chairs it is 45 and 40 per cent and on other furniture, except rattan and cane goods, the duties are 35 and 30 per cent. The duties are very slightly changed on timber. Formerly Oregon was specified as being admitted at 6d. per 100 super. ft., in sizes 12 x 6 in. and over, now all timber is included in these duties. The duty on palings remains the same. Laths have been increased from 5s. to 7s. 6d. per 1,000; dressed pickets from 4s. to 6s. per 100; undressed pickets from 1s. to 2s. 6d. per 100; shingles remain 3s. per 1,000 as before. Shooks and casks, formerly 20 per cent, are now 35 and 30 per cent where the duties are not specific which, in a number of varieties, they are.

#### JEWELLERY AND FANCY GOODS.

Fancy goods under the tariff of 1902 were dutiable at 20 per cent, now at 25 and 20 per cent. Jewellery, formerly 15 per cent, is now 30 and 25 per cent. Imitation

jewellery, formerly 25 per cent, is now 40 and 35 per cent. Watches and clocks, formerly 20 per cent, are now 30 and 20 per cent.

#### BOOTS AND SHOES.

Boots and shoes, formerly 30 per cent, now bear a duty of 35 and 30 per cent. Shoes of rubber, instead of 20 per cent, are now 25 per cent general and 20 per cent preferential. Gum boots are, however, now free. Indiarubber hose, formerly 15 per cent, is now dutiable at 25 and 20 per cent. Leather manufactures are advanced from 20 to 25 per cent.

#### PAPER AND STATIONERY.

Printing paper, which is almost all that comes from Canada, is still free but printing matter for advertising purposes has been doubled in duty, instead of being 3d. per lb. in the 1902 tariff, it is now dutiable at 6d. per lb. or 35 per cent, whichever may produce the highest return. Brown papers have been advanced from 3s. per cwt. to 5s. per cwt. and straw boards from 1s. per cwt. to 1s. 6d. per cwt. Stationery manufactures, formerly 25 per cent, are now 30 per cent general tariff and 25 per cent preferential.

#### VEHICLES, BICYCLES AND PARTS.

Bicycles and tricycles and frames in the tariff of 1902 were dutiable at 20 per cent, now they are 25s. specific or 30 per cent, and 20s. specific or 25 per cent for the preferential tariff. Cycle parts, formerly 10 per cent, are now 15 and 10 per cent. Buggies, 25 per cent in the 1902 tariff, are now 35 and 30 per cent.

#### PIANOS AND MUSICAL INSTRUMENTS.

Pianolas, formerly, 15 per cent are now 20 per cent. Grand pianos, formerly 20 per cent, now bear 30 per cent. Up-right pianos, formerly 20 per cent, are now 25 and 20 per cent. Musical instruments' parts remain 20 per cent.

Cartridges, formerly free, are now 20 and 15 per cent. Binder and reaper twine remains 5s. per cwt. Brushware, brooms, carpet sweepers, etc., formerly 15 per cent, are now 30 and 25 per cent.

#### THE AUSTRALIAN WOOL YEAR.

The Australasian wool year ended with June. Messrs. Dalgety & Company, who are exceedingly pains-taking in the preparation of their statistics, have issued their usual report of the trade of last year. The following figures indicate some of the results of the year:—

|                                      | 1906-7.      | 1907-8.     |
|--------------------------------------|--------------|-------------|
| Australasian sales (bales) . . . . . | 1,537,798    | 1,227,126   |
| Gross value realised . . . . .       | £21,835,131  | £17,577,249 |
| Per bale . . . . .                   | £14 3s. 11d. | £13 0s. 2d. |
| Exported (bales) . . . . .           | 2,090,188    | 2,062,280   |
| Proportion sold locally . . . . .    | 74%          | 65½%        |
| Sheep in Australasia . . . . .       | 103,796,126  | 108,871,681 |
| Net wool exported (lb.) . . . . .    | 707,717,042  | 688,321,772 |
| Av. weight per bale (lb.) . . . . .  | 338.33       | 333.76      |
| Av. clip per sheep (lb.) . . . . .   | 6.15         | 6.9         |
| Value per sheep . . . . .            | 5s. 10d.     | 5s. 1½d.    |
| Proportion sold at local sales—      |              |             |
| Merino . . . . .                     | 77%          | 78%         |
| Crossbred . . . . .                  | 23%          | 22%         |

The particulars for each state and New Zealand are as follows:—

| States.                 | Production.<br>Bales. | Sales.<br>Bales. | Percentage<br>Sales.<br>To<br>Production.<br>Per cent. |
|-------------------------|-----------------------|------------------|--------------------------------------------------------|
| 1907-8.                 |                       |                  |                                                        |
| New South Wales .....   | 856,407               | 599,003          | 70                                                     |
| Victoria .....          | 300,390               | 392,622          | 130·7                                                  |
| Queensland .....        | 239,158               | 88,316           | 36·9                                                   |
| South Australia .....   | 143,274               | 119,713          | 83·55                                                  |
| West Australia .....    | 52,500                |                  |                                                        |
| Tasmania .....          | 33,610                | 19,118           | 56·88                                                  |
| Australian States ..... | 1,625,339             | 1,218,772        | 74·9                                                   |
| New Zealand .....       | 436,941               | 132,349          | 30·29                                                  |
| Australasia .....       | 2,062,280             | 1,351,121        | 65·51                                                  |

#### UNUSUAL AMOUNT OF WOOL ON MARKET.

The reduction in the value of the sales of the last year as compared with the previous year is less than was expected, owing to the very considerable proportion of the sales having been made prior to the fall of prices in October last. The reduction is much greater in New Zealand than in Australia, owing to the larger production of crossbred wool in New Zealand and the later period at which the sales of the Dominion were made. Since the fall of prices in October last, the sales of wool have been restricted in order not to offer an over-supply for the reduced demand. As a consequence, there is an unusual amount carried over in the Australian market at the present time, which, although an unusual amount, is not so very large, being about 36,000 bales.

With the exception of Queensland, South Australia and Western Australia the probabilities are that the coming year will see a reduced clip of somewhat inferior quality, in consequence of the droughts that have been experienced in a large portion of New South Wales, Victoria and in a part of South Australia. Owing to the anticipated improvement in trade generally, it is hoped that the prices of the closing wool sales of the year will at least hold throughout the present year.

#### CANADIAN SPRUCE FOR TEA BOX WOOD.

An enquiry has come to Australia from Ceylon for wood suitable for making tea boxes. Hitherto it has been procured from Japan where the Mimo tree has furnished all that was required but this supply is given out and the prices have increased. What is required is a wood absolutely free from odor of any kind, tough and not heavy. British Columbia spruce, thoroughly seasoned, might answer for this purpose. The experiment could readily be made as trial shipments could be sent to Ceylon via Japan.

#### CANADIAN INDIFFERENCE TO AUSTRALIAN TRADE.

The Western Australian correspondent of a Sydney journal sent this item in a recent letter respecting the address of Mr. A. C. McCallum, coach builders' merchant of Perth, Western Australia:—

“While the Yankee was ever on the look-out for fresh business, this contrasted somewhat with the unaccountable attitude of the manufacturers of Toronto, Canada.

Here Mr. McCallum stated: 'On my interviewing the heads of reputable firms the astounding answer which I received everywhere was, we do not want Australian business. Now, where there is no reciprocity does it not seem absurd for our Federal legislators to favour a preferential tariff to Canada?'

I have some doubts if this represents a fair statement of what Mr. McCallum has said, and have written for fuller information, but, unfortunately, this is the general impression which Australians have received in visiting Canada for business purposes.

#### FURTHER CAUTION RESPECTING ENQUIRIES.

I have a new occasion for calling attention to the necessity for caution on the part of Canadian exporters in sending catalogues and other information in response to enquiries, either published in Canada or written from Australia. In the majority of instances which have come to my notice, the sending of catalogues is simply a waste of money, while to reply to the enquiries would be to give information, sometimes used against the firm. I can but repeat what I have urged before, that enquiries from Australia or New Zealand, unless there is a certainty as to the enquirer and his purpose, should be referred to Mr. Ross or myself, in accordance with the territory from which the enquiry proceeds.

#### BRITISH COLUMBIA SLATE

I observe in British Columbia newspapers that a company has been organized for the development of the slate quarries in that province, and that it has already produced slate of excellent quality. The company should find a market, if the slate be as represented, in Australia. It is incumbent that the prices should be no higher than the prices at which it is produced and placed on board at New York and Bangor, Wales, and that the freight rates should be at least equally low as from these points. The latter ought to be secured by shipments by timber sailing vessels if not by the regular steamers.

#### BRITISH COLUMBIA TIMBER IS UNDERBID.

The quotations for Oregon from the Sound mills are so much below those which the British Columbia mills are willing to accept that the latter are out of the trade. With an improvement in business in the United States, prices will no doubt advance and the Canadian mills will get a share of the business.

J. S. LARKE.

## BARBADOS.

## REPORT OF TRADE COMMISSIONER.

*(Mr. E. H. S. Flood.)*

28 BROAD STREET,

BRIDGETOWN, BARBADOS, July 25, 1908.

## THE OIL FIELDS OF BARBADOS.

For many years it has been known in Barbados that surface indications pointed to the existence of a large area of oil bearing sands. It was believed that operations for obtaining oil by boring would probably prove remunerative.

About 40 years ago hand-made wells were put down, and a daily yield of from one to two barrels of oil was obtained. This oil was of a heavy, dark-green colour, and valuable chiefly for its lubricating properties—sufficiently valuable indeed to find a market in Russia, where it was used for railway purposes. The later development of the Russian oil fields reduced the price of oil to a point which made such expensive transport prohibitive, and the industry died out. No systematic well-sinking has since that time been undertaken, though a few wells of depths varying from 750 feet to 1,200 feet were put down by an English company some years ago. They obtained at 800 feet oil which flowed to the surface but meeting with no great success, the company's efforts have been considerably relaxed; so that at present no drilling operations are going on, nor is oil being obtained from the oil wells. However, in every case where a hand-made well or a bored well was sunk, it seems that oil was obtained in some quantity.

## TWENTY-FIVE SQUARE MILES OF OIL AREA.

The oil indications cover an area of 25 square miles, and occur in sandstones and clays of early tertiary age. This formation exists almost over the entire island, although for six-sevenths of this area it is overlaid by coral limestones ranging from a few feet at the coast-line to 250 feet thick in the centre of the island. The oil strata though not visible at the surface is probably co-extensive with the island itself. Similar formations occur in Trinidad, especially in the neighbourhood of the famous pitch lake, and drilling operations are at present being conducted there by three different companies.

## ENGLISH COMPANY APPLYING FOR OIL CONCESSIONS.

The English company referred to as at present operating in Barbados is now applying to the government for an additional concession but as a large area is asked for, there is some local opposition to granting it.

That the government is willing to deal on easy terms with bona fide prospectors is made clear by the fact that about four years ago, an Act was passed by the legislature to allow concessionaires to deal directly with the government, and avoid the delay and expense of dealing with individual land owners. Machinery for oil boring was made duty free, and no taxation was imposed, except a royalty of 10 per cent for the benefit of the landowner.

## CANADIAN GEOLOGIST BELIEVES IN OIL PROSPECTS

There is no official report on the oil fields of the colony, as the government apparently holds that all such work should be undertaken by private enterprise; but that the field is worth the attention of prospectors is the opinion of several American geologists, who have recently examined the rock formation of the island. Dr. R. W. Ells, of the Canadian Geological Society, last year read a paper before the Royal Society of Canada, on the oil prospects of Trinidad and Barbados, and his opinion is that all the conditions seem favourable for oil. I believe it was stated by him while here, that money is being spent in Canada in localities where the possibilities are apparently much less favourable than in Barbados.

## OPPORTUNITY FOR CANADIAN PROSPECTORS.

As yet the government has granted three only of the 25 square miles of oil area. The English company referred to as boring on the island, is hoping to obtain further concessions and privileges which, if granted, will be practically exclusive. It is not at all probable that these additional concessions will be granted, and it may be safely stated that 22 square miles still remaining, gives an opportunity to any other company that should wish to prospect. As the country is crossed in every direction by excellent roads, there would be every facility for getting the necessary machinery to any point in the island at a small outlay.

## FACILITIES ARE EXCEPTIONAL.

The cost of living here is much lower than in Canada, and good labour is as low as seven shillings per week. With good shipping facilities and the absence of customs duty, any company might obtain concessions and make experimental borings at a very low cost. Oil obtained could be shipped to the refinery without much delay, as Barbados is the shipping centre of the West Indies.

E. H. S. FLOOD.

## SWEDEN, NORWAY AND DENMARK.

## REPORT OF COMMERCIAL AGENT.

(*Mr. C. E. Sontum.*)

CHRISTIANIA, NORWAY, GAUBBEGD No. 4, Aug. 3, 1908.

## NEW DIRECT NORWEGIAN SS. LINE TO CANADA.

A direct Norway-America line of steamers, which will be of considerable benefit in facilitating quick shipments between Canada and Norway, is shortly to be established. The scheme, which has been under consideration for some time, has this week been made public through the papers, while the subscription list will probably be issued in a fortnight. In outline the proposition is as follows:

The projected steamship company will be started with a share capital of 10,000,000 kroner, £550,000, at kr. 200 each. The line will open with two steamers, each of 8,000 to 10,000 tons reg., with a speed of 17 knots, covering the distance between

Bergen and New York in eight days, and will be built for a combined passenger and goods traffic.

The scheme, which is attracting general notice in the business world, is partly based upon the enlarged traffic conditions which are likely to result from the completion of the railway trunk line from Christiania to Bergen in 1910. There is reason to believe that Swedish capital also will be interested in the undertaking.

#### INCREASED NORWEGIAN RAILWAY CONSTRUCTION.

The Norwegian Storting has this week passed a bill authorizing a number of important railway lines extending over a building period of 12 years, in conformity with the railway construction bill of the late administration.

The bill contains a comprehensive plan for the future railway construction in this country, tending to improve: 1. The connection between South and North Norway by the so-called 'Dovrebanen;' 2. The connection between south-east and north-west by the 'Raumabane' ending at Aandsnes, Romsdalen; 3. The connection between Christiania and Stavanger by sections which will ultimately constitute a consecutive line between the two cities, and lastly the connection between Trondhjem and Nordland by the building of a section, the final terminus of which will be a little beyond the arctic circle.

#### WOOD MANUFACTURES AND LUMBER TRADE.

The statistics just issued for shipments from Norway for June 1, show a heavy reduction in this year's shipments as compared with those for the same period in the previous two years. As this reduction is bound to continue, this year will be a record in reduced shipments.

The total exports of all kinds of wood goods have this year been, for the first five months, 161,273 stdrs., against 188,893 and 207,025 stdrs. in the same periods of 1907 and 1906, respectively. For sawn goods, exports of 52,721 stdrs. are shown this year against 57,202 stdrs. in 1907 and 67,603 stdrs. in 1906. In planed goods, the exports were 41,357 stdrs. against 56,756 stdrs. in 1907 and 65,349 stdrs. in 1906. The export to the United Kingdom has this year been 29,276 stdrs., against 39,964 stdrs. in 1907 and 44,596 stdrs. in 1906, and to Holland this year 3,048 stdrs. against 3,713 stdrs. in 1907 and 5,633 stdrs. in 1906. To Australia the figures are 5,256 stdrs. for this year as against 7,820 stdrs. in 1907 and 10,401 stdrs. in 1906. Altogether there was a decided falling off this year.

#### HARVEST PROSPECTS IN SWEDEN, DENMARK AND NORWAY.

In Sweden according to the latest reports there will be an exceptionally rich crop of all kinds of grain and hay, but the potatoes have suffered somewhat early in the season from frost and too much rain. In Denmark, also, the prospects for a heavy crop are very encouraging and if the weather hereafter keeps favourable, the farmers will be sure of more than a medium crop. The hay crop in Denmark is very large.

As to the prospects in Norway, a large crop of hay is already assured, most of it being now garnered. All kinds of grain look fine but as to the grain crop, of course, much depends on the weather hereafter. Since the hay crop in all of these three countries this year is so rich, there are no chances that import should be necessary.

#### MONTREAL AS EXPORT HARBOUR FOR AMERICAN GRAIN.

The Norwegian Consul General at New York has reported the following, which may be read with interest in Canada, for which reason I have submitted the translation:

'It has created considerable astonishment among the New York exporters, that the White Star Line has decided from July 1st to lay up their five large freight boats measuring in all 42,600 tons, which heretofore have been in weekly employ between New York and Liverpool, on account of shortage of goods, especially grain, which under the present inland freight rates can be shipped cheaper via Montreal than via New York. During the last six weeks there were thus shipped five million bushels of grain via Montreal to Europe, against only two million bushels via New York.'

'The freight on grain to Montreal is now via the lakes, from Duluth and Fort William, Ontario,  $4\frac{1}{4}$  cents per bushel inclusive of extra insurance and free delivery on board steamer at Montreal; from Chicago and Toledo, Ohio,  $3\frac{3}{4}$  cents, and via rail and lake from Georgian Bay, Ont.,  $4\frac{3}{4}$  cents per bushel, against  $7\frac{1}{10}$  cents from Duluth, Chicago and Toledo via Buffalo to New York.

'The New York Produce Exchange has nominated a committee to negotiate with the railway companies to try getting a change in this misproportion, which threatens to make a considerable falling off in the export trade of New York.'

C. E. SONTUM.

## TRINIDAD AND TOBAGO.

### REPORT OF COMMERCIAL AGENT.

(*Mr. Edgar Tripp.*)

PORT OF SPAIN, TRINIDAD, July 30, 1908.

#### TRADE STATISTICS INDICATE PROSPERITY.

The customs returns for year ending March 31 last, show the value of the trade of the colony to have been far larger than during any similar period previously, and this notwithstanding an epidemic which kept much business away. The imports were £3,644,262 against £3,120,717 in 1906-7, and the exports £4,176,914 against £2,872,235. The improvement in exports was mainly due to the increased quantities of cocoa and sugar shipped, and to the enhanced prices of the former.

#### IMPORTS INTO TRINIDAD.

|                             | 1904-5.   | 1905-6.   | 1906-7.   | 1907-8.   |
|-----------------------------|-----------|-----------|-----------|-----------|
|                             | £         | £         | £         | £         |
| United Kingdom . . . . .    | 938,788   | 957,594   | 922,184   | 1,050,768 |
| British Colonies . . . . .  | 283,183   | 836,415   | 361,572   | 314,463   |
| Foreign Countries . . . . . | 1,407,080 | 1,509,602 | 1,836,961 | 2,279,031 |
|                             | 2,629,051 | 3,303,611 | 3,120,717 | 3,644,262 |

Deducting bullion, specie and transhipments, the imports were:

|              |            |              |            |

| 1906-7 .....           | 131,102                 | 677,283               |
| 1907-8 .....           | 135,146                 | 817,057               |

## CANADA NOT CREDITED WITH FULL IMPORTS.

The substantial advance appearing in imports from United States is accounted for principally by unusual value in goods entered for transshipment only, viz.:—£101,206, whilst the amount stated for Canada is very far below the actual imports owing to large quantities of goods, flour especially, having been shipped through New York. It is to be hoped that the suggestion made at the recent Canadian West Indian Conference at Barbados for the Customs certificates to record place of origin as well as of shipment will be adopted, as at present it is difficult to arrive at even an approximate estimate of the trade done.

## INCREASED CONSUMPTION OF BISCUITS.

The increased consumption under the head of bread refers almost altogether to the cream soda biscuits which are so popular in the local market, of which Canada for some time held the practical monopoly. But United States manufacturers very soon produced an excellent imitation which was offered at 28 cents a tin of 30 pounds, against 30 cents charged for Canadian. Then the agents of the latter discovered that their tins contained eight biscuits more, being of lighter and better make, and this more than compensated for the slight difference in price, as the shopkeepers retail them by number, and not weight, when not selling a whole tin. The Americans, however, soon rectified this and are now offering identically the same weight and number of biscuits in each tin, whilst still making the same small allowance in price. I mention this incident to show how keen is the competition, and how anxious they are in the United States to maintain their hold on the trade they have held so long.

## SUPERIORITY OF CANADIAN CHEESE RECOGNIZED.

The figures given, although showing a slight increase, in no way represent the actual trade done. Canadian cheese is now sent to New York for packing in the manner that suits this market, and reaches us in the same attractive condition that formerly used to distinguish the American kind, but of course the value goes to swell the United States exports. Some of the cheese coming from Canada lately has been treated with a preservative preparation. Whether it has this property seems doubtful, but the effect on the other hand is to make the cheese so dirty looking and uninviting as to render the sale very improbable, except at a reduced price. There is no question as to the superiority of the Canadian cheese, and it is therefore the more to be regretted that no systematic effort has yet been made by attention to detail, by maintaining quality, and, if you like, by humouring local tastes or fancies, to control a market that should be Canada's.

## ORDERS FOR CARRIAGES NOT PROMPTLY FILLED.

In carriages, there has never been a question but that for workmanship, quality and price, Canadian buggies hold their own against all comers. Orders are not executed so quickly as desirable, and this has somewhat retarded transactions. Yet business can be done in this direction, if it is not neglected.

## CORDAGE MORE THAN HOLDING ITS OWN.

Canadian cordage is more than holding its own, as will be seen by the comparative tables, the shipments being £2,500 over those from the United States, and only £500 less than from United Kingdom. Had certain indents been promptly filled the return would be still more satisfactory.

## CANADIAN FLOUR TOTALS OVER 30,000 BARRELS.

The trade most worth cultivating is that for the masses. They have no use for fine extra, or bakers' flour. Superfine, or 'supers' as it is known in Canada, is the quality required in bulk. The great secret is to make it as white as possible. That is about the sole test made by the small shopkeeper to prove its value to his Indian or Creole workman customer, and this flour will sell whilst better qualities of not so clear a colour become drug on the market. Smaller quantities of fine family grade are of course required, but are not used by more than a dozen bakers in the island. The consumption of flour is about 227,000 bags per annum. Canada is only down for 6,182, but the real importation, if what comes through United States is included, is approximately 30,000 barrels.

## HARDWARE TRADE IS IMPROVING.

Some progress is being made in miscellaneous hardware. Wire fencing is taking very well indeed. Canadian wire nails are also good value, but, as manufactured at present, are not quite suitable. Most buildings here are of hardwood and nails of a heavier gauge than suitable for Canadian pine are required. Germany and the United States cater for this trade and make nail to suit the demand.

Corn brooms are still in general demand, and those from Canada give satisfaction and sell in large quantities.

## UNVARYING DEMAND FOR CLEAR PORK.

The question is sometimes asked, why do not Canadian packers put up clear pork, for which there is a continual demand throughout the West Indies. Their pork heads sell better than those of the American packers. Yet on the other hand, complaints are made of the contents often found in what is called a barrel of mess pork. Heads and other parts of the animal, not of the same value, are mixed with the joints, wholly contrary to custom in the meat packing trade. A barrel of mess pork being charged at about double the price of a barrel of heads, the purchaser of a mixed lot at the higher price is naturally dissatisfied, and does not buy again.

## GROWING SALE OF MEDICINES.

I hear very good reports of the Canadian proprietary medicines. They are well put up, appear to be effective, and command an increasing sale.

## PAINT, &amp;C.

Of the £6,440, imported, £4,872 came from the United Kingdom. They are put up—ready made, in 1, 2, 4 and 7 pound tins. Ground in oil, in 7, 14, 28 and 56 pound tins. For carriage varnishes, Nobles and Hoare, London, (Eng.), have the preference, but the German brands are making way by reason of their merit. The two best known here are the Sherwin Williams and Brandram-Henderson, Limited. The carriage paint of the former finds a good deal of favour. Paint and distemper brushes of good and medium quality are saleable.

## CANADA A STRONG COMPETITOR IN PAPER.

The Canadian paper known as brown Manila, and gray wrapping, sells well for shops, but a much bigger trade is done in the common yellow shop paper, at present altogether made in and imported from France. There would be nothing very difficult,

one may assume, in a similar quality being produced in Canada, and it would seem worth while to try.

#### BARRELS ARE IMPORTED.

The shooks named in table above, consisted of molasses puncheons knocked down into shooks and returned here at the cheaper rate of freight for refilling with molasses. The £667 worth of staves represent a new demand for barrels which has arisen in consequence of flour now being shipped in bags. Formerly the old flour barrels were used to pack the boiled asphalt, or *Epuré*, of which large quantities are shipped from the Pitch Lake. The staves for these now have in some part to be imported, with the necessary wood hoops, and the number required is likely to increase annually.

#### BOOTS AND SHOES.

The satisfactory improvement in this trade, and especially in the manufacture of one well known firm, hitherto recorded, shows I regret to say, signs of falling off. One of the leading men interested here assures me that this is entirely due to irregularities in the supply, and to inconsistency in the methods of doing business which are not experienced elsewhere. Merchants have consequently ceased to push the Canadian article, and turned their attention more to similar goods from the United States.

#### BUTTER TRADE CHECKED BY INDIFFERENT SHIPPERS.

The same remark applies to butter. A rapidly growing trade in a brand, which met general favour, has lately received a decided check, owing to delay in the execution of orders, and to quality not being maintained.

#### CANADIAN MILK NO LONGER IMPORTED.

Milk is another item in which, as will be seen from the gross value of imports, there is an opening if it can be filled. A year or two ago a serious effort in this direction seems to have been made. The quality was good, and it is understood that the financial result was satisfactory, but just as the mark was becoming well introduced, shipments ceased, the reason given being that the home demand was sufficient.

#### SMALLER AND BETTER CLASS POTATOES REQUIRED.

The large, coarse potatoes of the kind usually received from Canada, although saleable, are not so appreciated, nor do they yield the same return as the smaller and more delicately flavoured kind received from Europe and Maderra. Owing to cheaper price, however, they enter largely into general consumption. Occasional shipments of smaller and better class potatoes would, I think, prove generally remunerative.

#### WASHING SOAPS WILL SELL.

I have previously drawn attention to the extent of the consumption of soap in Trinidad, and am sorry to find that transactions in this article are not increasing. The trade to cater for is the blue mottled or brown common washing kinds. Fancy soaps are of course in demand, but to a very limited comparative extent.

#### CANADA MAKING NO HEADWAY IN CLOTHING.

Canada is making no headway in clothing or hats, but the trade, as will be noted by the comparative statement, is an important one. Its special requirements would best be ascertained by the personal visit of representatives of dry goods houses.

## LARD.

The imports amount to £34,220, of which from the United States £34,180. Is there any special reason why a share of this should not be secured by Canada?

## ABSENCE OF COMMERCIAL TRAVELLERS DETRIMENTAL TO TRADE.

The only Canadian branch of business in which the personal representative has been in equal evidence with other countries, is that of life insurance, and the considerable volume of good business thus obtained indicates what might happen elsewhere. The absence of commercial travellers from Canada is generally remarked upon by merchants and dealers. In this connection I was asked by an irate store-keeper to mention the following:—

He was gratified one day to at last see a traveller from the Dominion in a line of trade in which he had taken some interest. He gave the visitor a fair order for some cooking stoves, and received the promise that it would be executed with despatch. After waiting three months and hearing nothing more, he wrote to inquire of the firm the reason of the delay, and received for answer that, after careful consideration, they had come to the conclusion not to send forward the orders their traveller had obtained, because 'Trinidad was too far away.'

Of course there may be two sides to stories of this kind, as also to many of the complaints that I have regretted to hear in interviews lately with merchants. But there must be, at any rate, a substratum of truth, and although it is not a pleasant duty to repeat things of the kind, it is perhaps better that the suppliers in Canada should know exactly what is being said and thought by those with whom, it is to be presumed, they wish to deal.

EDGAR TRIPP.

## BIRMINGHAM.

## REPORT OF ACTING TRADE COMMISSIONER.

39 AND 40 CENTRAL HOUSE, CHRISTCHURCH BUILDINGS,  
BIRMINGHAM, ENG., August 5, 1908.

## COST OF ROAD MAINTENANCE.

As reports on the material used in road-making in Great Britain, and the cost of same, have from time to time appeared in the 'Weekly Report,' the following on road maintenance may be found an interesting sequel.

Under the jurisdiction of the Warwickshire County Council there are 457 miles of roads, and the cost of their maintenance and improvement last year was approximately £35,999 5s. The improvements are set down in the report at £1,143, and the cost of ordinary maintenance £34,859 equal to a rate of £76·2 per mile. The amount received under the Locomotives Act, and the Motor Car Act during the year was £721 8 s.: £138 15 s. for locomotives and £582 13 s. for motor cars.

## COST OF LABOUR.

The cost of day labour is set down in the report at £8,624, of which £7,326 went in wages to roadmen, and £1,297 in inspectors' salaries, foremen's wages, and expenses paid to the men working the steam rollers.

## COST OF MATERIALS.

The cost of materials was estimated at £18,181. The quantity of granite and other hard stone purchased, exclusive of pebbles, was 33,526 tons. The cost of the granite, including breaking, was £13,350, equal to an average of eight shillings per ton. The quantity of stone broken by hand by the Council's men was 8,560 tons. Nearly 10,000 tons of slag and rubble stone were used, the slag chiefly and the rubble entirely for bottoming purposes.

## SLAG EMPLOYED IN REPAIRING.

Careful trials have been made during the year to test the comparative wearing qualities of slag, and rubble. On the Birmingham Road about 1,200 yards have been repaired entirely with slag, and the surveyor reports the result as most favourable, it being one of the cleanest and driest roads in the district, as well as the most durable.

## MEXICO.

## REPORT OF TRADE COMMISSIONER.

(*Mr. A. W. Donly.*)

APARTADO, 91B.

MEXICO CITY, MEX., August 5, 1908.

## EFFECT OF LAST YEAR'S PANIC IN MEXICO.

The effects of the panic of last year in the United States did not reach Mexico as soon as might have been expected, considering her neighbouring geographical position. Since the beginning of the present calendar year, however, business has been feeling the effect of the tightness of money in the north. Not only has the flow of foreign capital towards Mexico for all kinds of development been checked, but foreign dealers are asking for settlements and showing an indisposition to sell more goods except for cash.

While business in the United States and Canada has gradually been resuming its normal volume since the beginning of the year, it is since then that the greatest depression has been experienced in Mexico. Some merchants say that they believe the worst is over and that they are beginning to note an improvement, while others claim the contrary to be the case and they do not expect any marked improvement until the beginning of the new calendar year, or at least until the presidential election in the United States takes place.

## FOREIGN TRADE AS A BAROMETER.

In support of the foregoing I give here a few figures in connection with Mexico's foreign trade which will serve to illustrate the actual situation.

From July 1, 1907, to December 31, 1907, Mexico's imports were greater than in the corresponding period of 1906 by \$7,615,000. Her exports in the same period were greater than in 1906 by \$4,950,000. On April 30, 1908, the imports for the first ten months of the fiscal year were greater than in the same period of 1906 by only \$2,525,000, while on the same date her exports had shrunk so that for the 10 months of 1907-8 they were less than in 1906-7 by \$1,230,000.

## EXTENSION OF THE RAILROAD MERGER.

For several years past three of the principal railway systems of the country, the Mexican National, the Mexican International and the Inter-oceanic, have been controlled by the government, and operated under one system and management known as the National Lines of Mexico, more commonly called the Merger system.

For the past two years negotiations have been in progress to the end that the Mexican Central, the largest single system in the country, should also come under government control and be operated as part of the Merger system. These negotiations have now been completed and since July 1 the physical merger of all four roads is an accomplished fact. There remains only one independent road at present entering Mexico City from any port of entry—the Mexican Railway, the oldest in the country, connecting the capital with the port of Veracruz on the Gulf of Mexico.

Up to the present time no particular change has been felt under the new conditions. An opinion as to the ultimate good or bad effect would, at present, be premature. If the government continues to pursue the policy that has thus far been followed, keeping competent and experienced railroad men in the management and charging the minimum freight rates necessary to the system's proper maintenance, the ultimate benefit to the public and the country's welfare should be undoubted; but should, in the future, this policy be discontinued, the ultimate result would be a matter of grave doubt.

## PROPOSED MINING LAW REGARDING FOREIGN COMPANIES.

A great deal of discussion is at present being carried on in the press of the country and elsewhere anent the proposed change in the mining law as it would affect foreign companies or corporations doing business in the country. The proposal is that in future none but companies organized in Mexico and under Mexican law shall be allowed to acquire and operate mining properties. While the discussion has at times waxed quite warm, and while no one, either Mexican or foreigner, denies the perfect right of Mexico to enact such a law, the general consensus of opinion amongst those interested in mining, moderate and reasonable Mexicans and foreigners generally, seems to be that Mexico is not in a sufficient stage of development to warrant adopting the measure proposed. Mexico is still largely dependent on foreign capital for the development not only of the mineral but also of her agricultural and forest wealth, as well as for the development of all kinds of industrial enterprises. At present the matter is only in the discussion stage, and no definite action can be taken until after the re-assembling of Congress on September 16. In the meantime the opinion seems to prevail quite generally that the measure will not be approved in its present form.

For the present, foreign individuals and companies are holding back further capital until they are assured of a favourable outcome to the situation. Whatever the capitalist personally may think of a company organized in Mexico, he feels certain that the small investors, who in the aggregate count for so much, will not put their savings into shares of companies whose directors cannot be reached by his home tribunals.

## DEPREDACTIONS OF BORDER OUTLAWS.

For the past month the papers, both here and in the north, have been devoting considerable space to the depredations of certain bands of criminals in the northern part of the Republic. Many have tried to give these a political complexion and pay these criminals the compliment of designating them insurrectionists. This, however, is altogether more than they ever deserved—the raids were promoted and carried out by outlaws. The ring-leaders having been pretty well rounded up by both the Mexican and American authorities, are now in safe keeping, and will have meted out to them the punishments their crimes merit.

A. W. DONLY.

## MANCHESTER.

## REPORT OF TRADE COMMISSIONER.

*(Mr. P. B. MacNamara).*

MANCHESTER, August 4, 1908.

## STOCK OF PROVISIONS AT LIVERPOOL.

Estimates of the stock of provisions, &c., in the port of Liverpool, on July 31, 1908; together with the figures at the corresponding date last year, and also of last month.

## JAPAN, CHINA AND KOREA.

## REPORT OF THE COMMISSIONER OF TRADE.

*(Mr. W. T. R. Preston.)*

No. 14, BUND, ROOM B.,  
YOKOHAMA, August 1, 1908.

## THE FLOUR TRADE WITH JAPAN.

The question of wheat and flour as part of the wheat supplies, which have to be imported into Japan in vastly increased quantities, must be of interest to the Dominion of Canada.

The rapid changes which are taking place in the customs and habits of the Japanese people, more especially in the great centres of population, is a subject of ever-increasing astonishment to the careful observer. These changes are singularly evident. Although it is only a little over a year since my first visit to Tokyo, I cannot fail to observe a marked difference in the conditions and habits of living among the people who are met in the public streets and thoroughfares.

## ADOPTION OF FOREIGN CUSTOMS.

Any visitor to Japan is immediately impressed with the great variety of foreign goods that are offered for sale in Japanese shops in every part of a city like Tokyo. The words 'Foreign goods for sale' strikes the eye everywhere, not only in establishments which might be said to cater for the trade of foreigners; but foreign goods of every form and style, commodities and eatables, are found in the little Japanese shops everywhere.

## DEMAND FOR EUROPEAN EATABLES.

On the question of eatables, anyone studying this phase of Japanese life can easily see that great changes are taking place. In 1901, Japan imported for local consumption eatables to the value of Yen 58,000,000 (\$28,000,000), and in 1907 to the value of Yen 76,000,000 (\$38,000,000). One cannot fail to observe the increasing numbers of European restaurants which are being opened everywhere by Japanese. And more significant still is the fact, that they are established in quarters of Tokyo where they could not be expected to cater to a foreign demand or necessity. In the vast majority of cases the customers are entirely Japanese, and the presence of a European, as all foreigners are termed in Japan, is looked upon with surprise as he enters one of these establishments. It is, therefore, fair to conclude, that the opening of these foreign restaurants by the Japanese must be taken as another evidence of a rapid adoption of western habits and customs in the life of the nation.

## ESTABLISHMENT OF EUROPEAN RESTAURANTS.

Tokyo now possesses 220 European or foreign restaurants, managed altogether by Japanese, and in any one of them a foreigner can order a meal from a menu card, which is printed both in the Japanese and English languages, to suit the taste of the most particular. The one desideratum that is lacking in almost all of these places is good bread. A quiet inquiry for bread of a better class is invariably met with a polite intimation that the bread which is served is the best that can be procured in Tokyo.

## WESTERN BREAD DECIDEDLY INFERIOR.

In this connection it may also be said, that there are 116 baking establishments in operation in Tokyo now. I do not include in this number the bakeries in which the ordinary Japanese 'Udon' is made, but I am referring entirely to bakeries in which efforts are made to turn out western bread. Owing to the inferior character of the flour used which is almost altogether of a grade that cannot find a market in the west as I have explained in my previous reports, and is regarded as the only flour available for the purpose, the bread produced is, as may well be imagined, not appreciated by Europeans, and it would be still less appreciated by the Japanese customers in these so-called European restaurants if good bread was available.

## PERMANENT MARKET FOR CANADIAN FLOUR OFFERED.

In fact it may be stated that in not more than half-a-dozen places in the whole of Japan, including the high-class hotels, is bread supplied which would be regarded as fairly fit for home consumption in the poorer districts of the centres of western population. No greater mistake can be made than the idea which is thoughtlessly given expression to, that there is no market in Japan for flour or bread of the better quality. This is grounded upon a serious misconception of the actual state of affairs. I believe there are no people in the world who can be more easily educated to appreciate the advantages from using the best wheat and the best bread, than the Japanese. It will be well if this point is frankly and fully acknowledged. And when this is

fully realized as it should be, possibly the necessary steps may be taken to create a permanent market here for Canadian wheat and flour.

#### JAPAN WILL REQUIRE VAST FOOD SUPPLIES.

In regard to food staples, it may be acknowledged that Japan had always been regarded as a rice country, and the Japanese have made rice their most important diet. In recent years, however, the demand for western food products as well as flour has shown remarkable expansion. This is due to the increase in the number of people who are adopting the European mode of life. The demand for flour to make bread and cakes is steadily increasing. The wheat and flour produced in Japan has proved insufficient to meet the local demands, so that supplies must be procured in foreign countries. In a quarter of a century there is likely to be as great a demand in Japan for outside food supplies as now exists in the United Kingdom.

#### ANNUAL YIELD OF WHEAT IN JAPAN.

The area of land for the cultivation of wheat, and also the production of this cereal in each year for the last 11 years, is shown in the following table, recently issued by the Department of Agriculture and Commerce:—

|              | Acres.    | Bushels.   |
|--------------|-----------|------------|
| 1897.. . . . | 1,122,685 | 18,903,056 |
| 1898.. . . . | 1,140,737 | 20,742,164 |
| 1899.. . . . | 1,140,109 | 21,531,662 |
| 1900.. . . . | 1,148,229 | 21,117,910 |
| 1901.. . . . | 1,193,899 | 21,205,860 |
| 1902.. . . . | 1,186,231 | 19,614,300 |
| 1903.. . . . | 1,151,269 | 9,301,920  |
| 1904.. . . . | 1,123,675 | 19,126,910 |
| 1905.. . . . | 1,111,018 | 17,863,590 |
| 1906.. . . . | 1,085,839 | 24,699,440 |

Taking the output of an average year at 19,000,000 bushels, and estimating 6,000,000 bushels as the quantity that is utilized in the preparation of 'soy' (a commodity which is used for pickles, vegetables and fish), an average of thirteen million bushels may be regarded as the quantity consumed in the production of flour. Notwithstanding that such a large supply of wheat is harvested in Japan, yet grain is imported for conversion into flour; it might be regarded as natural, that the import of the cereal would decline in proportion to the increase in the import of flour. It might also be remembered that the annual capacity of the Japanese flour mills has increased since the war with Russia from 19,000,000 pounds to 52,000,000 pounds.

#### CUSTOMS TARIFF PROTECTS JAPANESE FLOUR INDUSTRY.

The existing customs tariff makes it more advantageous to import wheat than to import flour. This policy has been adopted with a view of encouraging the establishment of flour mills in Japan. The principal countries supplying wheat to Japan, are the United States, Australia, British India, Asiatic Russia, Canada, China and Korea. Of these countries United States supplies the largest quantities. The total importation of wheat increased to 64,339,757 pounds in the first six months of 1908, in comparison with 46,723,313 pounds in the corresponding period in 1907. The importations from that country in 1907 amounted to 82,719,126 pounds, in comparison with 39,407,762 pounds in 1906.

The importation of wheat from Korea has notably increased in the past year or two. It is accepted that agricultural industries in Korea are developed by the aid

of Japanese enterprise, and that the cost of the flour that may be produced in Japan will be reduced incident to the saving in freight charges which now form part of the expense of importing wheat from abroad.

The quantity of wheat imported to Japan each year during the last six years, is as follows:

|                | Pounds.     |
|----------------|-------------|
| 1902.. . . . . | 10,822,488  |
| 1903.. . . . . | 167,063,028 |
| 1904.. . . . . | 52,780,332  |
| 1905.. . . . . | 135,492,720 |
| 1906.. . . . . | 46,898,468  |
| 1907.. . . . . | 119,334,468 |

#### CANADA SECOND IN FLOUR IMPORTATION.

In the importation of flour into Japan, the United States stands first on the list. Even last year when the flour milling industry reached its highest point of development, the United States supplied 154,211,304 pounds. These figures show a decrease in comparison with the figures of the importation of flour from the United States for 1906, but a very large increase over the importation of 1903. Next to the United States, Canada supplies the largest quantity, and then follows Australia, Hong Kong and China in the order indicated.

The quantity of flour imported to Japan in each year, in the past six years was as follows:—

|                | Pounds.     |
|----------------|-------------|
| 1902.. . . . . | 95,177,280  |
| 1903.. . . . . | 276,090,142 |
| 1904.. . . . . | 252,673,377 |
| 1905.. . . . . | 243,088,824 |
| 1906.. . . . . | 210,081,432 |
| 1907.. . . . . | 162,729,996 |

#### INCREASED DEMAND FOR WESTERN PRODUCTS INEVITABLE.

Certain pessimists have recently ventured to express the opinion that Japan will soon cease either to import flour or wheat from abroad, alleging that all the supply of this cereal that may be required will be furnished by Korea and Manchuria. If the progress and advancement that has marked the history of Japan for the last 40 years is going to come to an end, or if Japan has reached the highest point of development and the adoption of western customs and habits that it will ever attain, such a view is, probably, well grounded; but if Japan is going to continue a course of progress and development commensurate with that which it has already obtained by the marvellous changes of the last 40 years, it is as certain that as night follows day, that each succeeding year will witness an enormously increasing demand for the food products of the west.

#### ENORMOUS POSSIBILITIES IN WHEAT TRADE.

Wheat and flour are undoubtedly western products, even if the cereal is grown in Korea and Manchuria. But it must be remembered that after full allowance has been made for the development of this cereal in those countries, through the larger circle of the population continually adopting western habits and customs, there is always going to be an increased demand for the western product, not only in Japan, but in Korea and China. The circle coming under western habits is continually widening. When it is remembered that Japan has a population of 45,000,000, and

that up to the present time not even 1,000,000 of these people can be said to have adopted western customs and habits, it will be seen how enormous are the possibilities. within the empire alone, for the growth or increase in the demand for this product of western wheat.

#### UNLIMITED MARKET IS AFFORDED FOR CANADA.

As a result of my personal observations in various parts of the empire during the last 12 months, I am convinced that the next 20 years will see greater changes in the habits and customs of the people than have taken place in the past 20; and if this opinion should be borne out, then it is particularly evident that the market will be practically unlimited for all food supplies that may be produced and exported from the Dominion of Canada.

#### EFFECT OF AN EDUCATIVE POLICY.

The flour milling operations in Japan will increase in time, although at the present time the industry has experienced a serious setback. This is certain to bring about an increased demand for wheat. By the successful carrying out of an educative policy in respect to the nutritious values of Canadian wheat, it will become absolutely necessary for the millers in Japan to mix a certain quantity of Canadian wheat with their supplies from India, Australia, China and the western states. The education of the Japanese to the marked difference between bread which is manufactured from an inferior quality of flour and that which may be supplied by the use of the Canadian product, is going to make it impossible, within five years, for the flour millers to satisfy the public taste for good bread, unless Canadian wheat is used in the manufacture of flour, or Canadian flour is mixed with poorer qualities of the other wheats that may be imported for milling purposes.

#### REMOVAL OF ARTIFICIAL BARRIERS.

This point will be reached beyond question, and perhaps much sooner than one might now be willing to indicate. But that time is coming, and it is coming quickly. If Canadians intend to secure this market soon, then there are certain things which must be done. It is not necessary that all the details shall be enumerated now. One thing, however, is certain, and that is, that Canada must be in a position to take advantage of the geographical proximity which the Dominion occupies in regard to the east.

#### UNSATISFACTORY CONDITION OF JAPANESE MILLING INDUSTRY.

As I have intimated elsewhere, the annual capacity of the flour mills of Japan has increased from 19,000,000 to 52,000,000 pounds. During the last year, however, the business of the mills, generally speaking, has not been altogether satisfactory. Two years ago one of the largest flour mills paid its shareholders a dividend of 30 per cent. The same mill has lately only declared a dividend of 10 per cent, part of which, it is believed, has been taken from the reserve funds. Several of the other mills are in anything but a satisfactory condition. To begin with, as those who are interested in Canadian grain trade no doubt know, the duty of flour is yen 1.45 per 100 kin (132 pounds), while the duty on wheat is only 46 sen per 100 kin (132 pounds). In order that the duty on wheat and flour may be clearly understood, I might add that, in currency the duty works out as follows:—

Wheat per 100 pounds, Y 0.427, or 21½ cents.

Flour per 100 pounds, Y 1.087, or 54½ cents.

#### PROTECTION TO LOCAL MILLS NOT SUCCESSFUL.

This really gives the millers an advantage of about one-half-a-cent currency per pound on the output of his mill. But even with this advantage the Japanese mills,

generally speaking, have failed to be profitable to those who have invested their money in the business. Representatives of the principal flour milling companies have entered into an agreement as to the maximum price to be paid by them for wheat. In conference they have been considering several other propositions with a view of improving the flour milling industry, but they are found to be impracticable. It was considered impossible to uniform the price of flour, as the quality turned out by the various mills differed widely, the cost depending upon the quality and price of wheat together with the individual oversight of the principal officials of the companies. All the millers have united in a petition to the government to allow them the drawback of the full amount of duty for export to Korea and China. It is claimed that a fiscal policy of this character will help the Japanese millers considerably in the export flour trade in these countries, with their comparatively low grade flour. This is practically an acknowledgment that the protection of half-a-cent a pound on flour is not sufficient to furnish them with a profitable opportunity of competing with the flour that is imported to Japan, and is almost tantamount to an abandonment of the field in Japan to the flour from foreign countries. Whether this is the way in which the situation will eventually develop, your representative is not prepared to say; but it is a fair conclusion to reach that the Japanese mills will not continue grinding wheat unprofitably, in their efforts to compete with the flour that may be imported from abroad. For this, it is reasonable to believe, that the importation of flour is likely to take an upward movement again. In any event, Canada will be the gainer in the general expansion of trade, either with wheat or flour, and it is not unlikely but that it will be with both commodities.

#### A GROWING TRADE IN LEATHER.

The value of the importation of leathers to Japan last year amounted to Yen 7,800,000 (\$3,900,000) in comparison with Yen 6,000,000 (\$3,000,000) in the previous year. The most important kinds of leather given in detail in the official returns are as follows: Sole, india, blood, dyed or coloured sheep and goat skins. In classifying these, it may be said that 55 per cent was represented by sole leather, 19 per cent by sheep and goat, and 8 per cent by dyed and coloured skins.

Owing to the continual increase in the number of people who adopt foreign costumes, which necessarily includes the foreign styles of boots and shoes, the demand for leather of various kinds is increasing. There is growing up, in the country, a decided preference for leather footwear, which, as a matter of course, is replacing the ordinary Japanese wooden clogs or shoes.

A clearer idea of the changes that are being effected in Japanese life, in this particular, will be evident from a careful perusal of the following table showing the increase in the importation of sole leather for the last five years:—

|                 | Lbs.       | Yen.      |
|-----------------|------------|-----------|
| 1903.. . . . .  | 1,230,451  | 611,366   |
| 1904.. . . . .  | 5,196,269  | 2,612,090 |
| 1905 .. . . . . | 15,563,956 | 8,368,173 |
| 1906 .. . . . . | 1,963,072  | 1,198,109 |
| 1907.. . . . .  | 3,385,249  | 2,186,624 |

The abnormal increase in 1904-1905 were on account of the demand for leather shoes for the army during the war with Russia. In this commodity, as in several others, there was a large over importation during the year 1905; but the effects of that have now passed away, and a regular annual increase may be confidently anticipated.

#### LEATHER MANUFACTURERS CAN UNDERSELL FOREIGN COMPETITORS

In the large centres of population, the Japanese are also going somewhat extensively into the manufacture of trunks and valises, very much after the patterns

and styles of British goods. Owing to the low price of labour, these can be placed on the market, and are very largely sold to tourists at much lower prices than they can be imported from Great Britain, Germany, or the United States.

In the early period of this industry, the Japanese manufacturers apparently had not learned the great differences between the inferior qualities of sole leather and the more expensive. As a result the trunks and valises placed on the market a few years ago created rather an unfavourable reputation for the trunk manufacturers. This has now been largely overcome, and trunk manufacturers whom I have interviewed, made it very plain in reply to my inquiries, that they want nothing but the best quality of heavy leathers for manufacturing purposes.

#### CANADIANS CAN SUPPLY SUITABLE LEATHER.

The returns show that 92 per cent of the sole leather which is imported to Japan comes from the United States; but in looking carefully into this question, it is evident that the best quality of sole leather has not yet been offered in the Japanese market. The importation of leather from Canada only took place in 1905, amounting to 9,872 pounds, and valued at Yen 5,130. One of the largest importers in Tokyo told an official in this office that the Canadian sole leather, which had been brought to this country, was somewhat different in colour from that which had been imported from the United States, and which was possibly due to the use of hemlock in the process of tanning. Leather of that shade is not appreciated by the Japanese, as they prefer that which they have become accustomed to, i.e. tanned by oak bark. If Canadians will meet this desire, they will find a favourable market here.

The scheduled freight rates on sole leather are as follows:—

From New York, \$30 per ton.

From San Francisco, \$15 per ton.

#### SKINS BRING GOOD PRICES.

Next to sole leather, sheep and goat skins are very much in demand. The importation last year of these amounted to Yen 755,000. The countries represented are British India, Yen 235,000; The Straits Settlements, Yen 178,000; United States, Yen 131,000; and Germany, Yen 106,000. These leathers are largely used for hand-bags, satchels, the thong in clogs, the lining for carriages and hats, and for book-binding.

The freight rates on boxed or cased leathers are:—

From New York, packed in cases, \$30 per ton.

From San Francisco, in rolls, not less than 80 lbs. per c.f. \$18 per ton.

From London, 42s. 6d. per long ton (\$10.40) less discount of 10 per cent.

From India, Madras, Yen 22.80 per 50 C.F. (\$11.40) less dis. of 10 per cent.

From Germany, Marks 42.50 per ton (\$10.40) less discount of 10 per cent.

#### CANADIAN SHIPMENT OF HIDES FARED BADLY.

The intimation which was contained in one of my earlier reports from the east, that there is a market in Japan for hides as well as leather, is now apparent. A representative of Winnipeg commercial interests lately secured a trial order for Canadian hides from one of the largest tanneries in Japan. But a strange fatality seems to haunt the beginning of every effort that is made to secure an extension of Canadian trade in the east. In this case, a consignment was to be delivered by one of the 'Empress' steamers arriving in Yokohama on a certain date. The bill of lading accompanied by a bank draft for the consignment was duly delivered at the expected time. But when inquiries were made for the hides, it was found that they

had been left at Vancouver, although it is claimed by the consignees that they reached Vancouver several days before the 'Empress' sailed from that port for Yokohama. They were subsequently shipped by a vessel sailing later, and reached here long after the time that had been agreed upon for delivery. Owing to the non-delivery by the date that was arranged, the tanning company made purchases elsewhere, and, when the hides arrived, refused to accept delivery.

The merchant who assumed responsibility of taking care of the consignment found that, owing to local sanitary regulations, the ordinary godowns or warehouses would not accept this raw material for storage, so that he had to go to the expense of getting the consignment stored in a lighter in the harbour. Fortunately, however, there is a fairly active demand for hides of this character, so that it is hoped a sale may be effected, notwithstanding the unfortunate circumstances of the consignment having been delayed at Vancouver. This is but another illustration of numerous cases that could be given wherein consignments for the east have been held over in the steamship warehouses at the Canadian port, and which occurrences have made the shipment of Canadian goods to the east exceedingly difficult.

In my previous report upon this question, I intimated that hides for Japanese tanneries have been largely imported from Asia, Australia and Europe. By way of comparison of transportation facilities and freight rates, the following table may not be uninteresting:—

|                                                                     |  |
|---------------------------------------------------------------------|--|
| Freight on hides from Australia, in barrels, 30s. (\$7.44) per cwt. |  |
| “ “ “ Australia, salted, 33s. (\$7.92) per ton.                     |  |
| “ “ “ San Francisco, compressed in bales, \$10 per ton.             |  |
| “ “ “ Winnipeg, \$18 per ton.                                       |  |
| “ “ “ London—                                                       |  |

#### PROFITABLE MARKET FOR BEEF TALLOW.

In Japan there is a very large and profitable market for beef tallow, which is used as a raw material for manufacturing purposes. The importation of beef tallow for the last three years has been as follows:—

|               | Pounds. |
|---------------|---------|
| 1905. . . . . | 91,095  |
| 1906. . . . . | 309,893 |
| 1907. . . . . | 434,497 |

The value of beef tallow imported from Australia in 1907 was Yen 221,897 (\$110,000), and from the United States in the same year Yen 116,525 (\$53,000). It arrives here packed in tins containing 600 pounds. The freight rates from Australia is 30s. (\$7.20) per long ton of 2,240 pounds. The distance from Melbourne to Yokohama is 7,300 miles, and occupies 38 to 45 days, and the distance from Sydney is 6,700 miles occupying 35 to 42 days. Inasmuch as Vancouver is 3,000 miles nearer than Melbourne, and 2,400 miles nearer than Sydney to Yokohama, while Calgary, the centre of a great cattle district, is only 650 miles from Vancouver, and Winnipeg 1,400 miles from Vancouver, it is fair to presume that there is an opening for a considerable business in this commodity in Japan. It may be taken for granted that the demand for beef tallow in Japan is likely to increase in the future as it has in the last few years.

#### TRADE RETURNS.

The trade returns for the six months ending June 30 have just been published. The following table give the figures for the corresponding periods of 1907 and 1908.

|                  | 1907            | 1908            |
|------------------|-----------------|-----------------|
| Exports. . . . . | Yen 196,950,201 | Yen 173,020,201 |
| Imports. . . . . | “ 265,263,907   | “ 252,995,821   |

The trade with Canada is given in the following figures:—

|                   | 1907          | 1908          |
|-------------------|---------------|---------------|
| Exports.. . . . . | Yen 1,567,654 | Yen 1,125,292 |
| Imports.. . . . . | " 496,685     | " 640,857     |

The value of the principal articles imported into Japan in which Canada is interested are given as follows:—

|                                    | 1907          | 1908          |
|------------------------------------|---------------|---------------|
| Wheat, total amount imported . . . | Yen 1,339,870 | Yen 2,075,391 |
| Flour, total amount imported . . . | " 3,135,378   | " 1,563,499   |
| Flour from Canada.. . . .          | " 129,425     | " 94,346      |

The following are the articles exported from Japan which will be of special interest in the Canadian trade:—

|                                      | 1907           | 1908           |
|--------------------------------------|----------------|----------------|
| Raw silk, total.. . . .              | Yen 37,638,557 | Yen 39,186,618 |
| " " to Canada.. . . .                | .....          | 16,588         |
| Habutai, total.. . . .               | 13,522,402     | 13,635,612     |
| " to Canada.. . . .                  | 13,522,402     | 13,635,612     |
| Silk handkerchiefs, total.. . . .    | 2,950,375      | 2,128,636      |
| " " to Canada.. . . .                | 63,045         | 31,552         |
| Mats and mattings for floor, total.. | 3,202,703      | 2,858,496      |
| " " to Canada..                      | 82,683         | 74,306         |
| Porcelain and earthenware, total..   | 3,787,928      | 2,540,725      |
| " " to Canada..                      | 123,333        | 79,340         |
| Lacquered ware, total.. . . .        | 858,629        | 546,373        |
| " " to Canada.. . . .                | 11,704         | 4,485          |
| Tea, total.. . . .                   | 4,175,247      | 3,703,818      |
| " to Canada.. . . .                  | 206,333        | 186,851        |
| Sake, total.. . . .                  | 1,194,658      | 1,237,352      |
| " to Canada.. . . .                  | 25,616         | 24,450         |
| Straw-plaits and chip braids, total  | 2,390,069      | 1,636,350      |
| " " to Canada..                      | 1,099          | .....          |
| Camphor, total.. . . .               | 3,016,465      | 1,583,115      |
| " to Canada.. . . .                  | 2,777          | .....          |

W. T. R. PRESTON.

## NEWFOUNDLAND.

### REPORT OF TRADE COMMISSIONER.

(*Mr. E. D. Arnaud.*)

GAZETTE BUILDING, ST. JOHN'S, August 18, 1908.

### WAR AGAINST THE WHITE PLAGUE.

An important and successful convention of the school teachers of all denominations throughout the Colony has been held here within the last few days under the auspices of the Association for the Prevention of Consumption, the formation of which I referred to in my report of March 14 last, published in Monthly Report for

February, 1908, page 1941, for the furtherance of the object for which the society has been called into existence. About 500 teachers of both sexes came from every district to receive instruction from experts engaged to explain to them the nature and causes of the disease, and the best methods to be adopted to prevent if possible its further spread amongst the people and eventually to exterminate it.

The Hon. John Harvey, president of the association, delivered a very able and instructive address, quoting from statistics to show that the number of deaths from this disease alone in the Colony had been as follows:—

In 1901, 654 deaths; 1902, 710 deaths; 1906, 993 deaths.

In 1907 the death rate had fallen to 801. He pointed out that the economic waste was more than the Colony could stand, estimating on a conservative basis that the country is losing the work of 2,000 persons every day, a loss of \$450,000 a year, or adding the cost of nursing and support at least \$800,000 per annum. To this is to be added the serious loss to revenue, the victims in most cases being active producers in the prime of life, or estimated at \$600 for each person being \$30, for 20 years, which they would contribute if they were alive. He stated further 'that if the increase in deaths which had occurred here from the opening of the present century should continue, this Colony would be ruined absolutely in the next generation.'

#### REDUCTION IN TAXES.

The following statement has been published in a local newspaper intended to show the gain to consumers of the following articles through the reduction or removal of the duties from the year 1900 to 1907, the figures to June 30 last being yet available.

#### 1900—I TARIFF.

Currants and raisins from Greece, 3 cents per lb. and 10 per cent.  
 Flour, 25 cents per bbl.  
 Kerosene oil, 6 cents gall.—10 per cent,  
 Molasses, 7 cents per gallon.  
 Salt, 20 cents ton—10 p.c.

#### 1901-2.

Molasses reduced 3 cents per gallon.  
 Salt, red. 20 cents per ton—10 per cent.  
 Molasses, 1,338,582 galls. . . . . \$40,157 46  
 Salt, 50,600 tons. . . . . 11,132 00

---

51,289 46

#### 1902-3.

Molasses, 1,331,788 galls. . . . . \$39,953 64  
 Salt, 48,999 tons. . . . . 10,779 78

---

\$50,733 42

#### 1903-4.

Flour red. 25 cents per barrel.  
 Kerosene oil red. 6 cents per gallon.  
 Molasses red. 4 cents per gallon.  
 Flour, 121,411 bbls. . . . . \$30,352 75  
 Kerosene oil, 244,975 galls. . . . . \$16,168 35  
 Molasses, 982,578 galls. . . . . 68,780 46  
 Molasses, 488,338 galls. . . . . 14,650 14  
 Salt, 46,716 tons. . . . . 10,277 52

---

\$140,229 22

## 1904-5.

## MARINE MOTORS AND SCHOOL FURNITURE.

Since the removal of the duty on motors used for fishery purposes was announced, there has been a considerable number of these engines of various makes sold here. Their use is being greatly extended, of which Canadian manufacturers would do well to take note of. The same remarks apply also to the use of school furniture and fixtures, which are now allowed to be imported free of duty.

E. D. ARNAUD.

## MANCHESTER.

## REPORT OF TRADE COMMISSIONER.

(*Mr. P. B. MacNamara.*)

CANADA CHAMBERS, 36 SPRING GARDENS,  
MANCHESTER, ENG., August 15, 1908.

## PURCHASING OF BOX SHOOKS.

I called recently on one of the largest shoe manufacturers in Great Britain in relation to the purchase of Canadian box shoes by his firm. He expressed an inclination to favour Canadian shipments, everything being equal, and stated that a few

shipments had been received but were not continued. He contended that the retail grocer in England demanded a well finished box and obtained it so that if one manufacturing firm furnished a first-class box the others must do likewise. From his visit to the United States and Canada he formed the idea that the retail grocers in these countries were not so particular regarding the box as they were in England, and that therefore the box shooks heretofore received by them were not of sufficiently high standard to satisfy the retail trade here, and that purchases were not continued.

#### SPECIFICATIONS FOR BOX SHOOKS.

He is prepared to take up the matter with the Canadian saw mill owners and furnish the following specifications:—

##### (A) PERFECTION BOX.

Sides,  $18\frac{1}{2}$  inches x  $11\frac{1}{2}$  inches x  $\frac{1}{8}$ -inch in 2 pieces.

Tops and bottoms,  $16\frac{1}{2}$  inches x  $13\frac{1}{2}$  inches x  $\frac{1}{8}$ -inch in 3 pieces.

Ends,  $12\frac{1}{2}$  inches x  $11\frac{1}{2}$  inches x  $\frac{1}{8}$ -inch in 2 pieces.

Bars,  $11\frac{1}{2}$  inches x 2 inches x  $\frac{1}{8}$ -inch.

'It is necessary that a sample shipment of 1,000 feet be made, and this sample shall represent the average quality of all future shipments, and on this alone will business connection depend. In order to obtain and secure a market in England for box boards the Canadian saw mill owners must avoid want of uniformity in the cutting, and variation in the thickness, and the deliverance must be regular. The c.i.f. quotation must include cost of putting them free over the side of ship into the companies' steamers at Liverpool.'

A very great demand exists in the Manchester district for them, and the chief source of supply is Norway and Sweden, but these sources are being gradually depleted and prices have materially advanced.

#### CONSIDERABLE FLUCTUATION IN THE PRODUCE MARKET.

The provision market has of late undergone considerable change, and though outside London the demand has not increased to any great extent, values have risen.

#### CONDITIONS FAVOUR CANADIAN BACON.

As anticipated the killing of hogs in Denmark have fallen off very considerably, and in Ireland and the United States the same thing seems to have happened. This has caused the price to go up, and made shippers and curers difficult to treat with except at higher prices. The large influx of visitors to London has stimulated trade there to a very great extent. Irish still leads the way and figures at the time of writing sizeable 68s.-70s., Danish sizeable 64s.-66s., and Canadian (which is now meeting with better inquiry) 56s.-58s. It is thought this condition of things will prevail throughout August as there are no prospects of lower prices. Canadian packers would be well advised to give attention to this market in view of the improved condition of things, the future being very hopeful, and it is just possible that they may get back some of the money lost in the earlier part of the year when conditions were all against them.

#### ENGLISH CHEAPER THAN CANADIAN CHEESE.

So far this season, Canadian cheese has been neglected in the north on account of the high price and the fact that the home cheese is considerably cheaper. The firmness of Canadian has helped the production of English cheese very greatly, and cheese-producing English counties are turning out more than ever they did, assisted

as they have been by the magnificent crop of grass. The retail and wholesale trade have an impression that Canadian cheese is 'held up' by force that they cannot control, and they are content to leave it severely alone, or at any rate only deal with compulsory quantities. Spot prices are 58s.—60s.

### OPPORTUNE TIME FOR BUTTER SHIPMENTS.

Butter is ruling firm and though there is no Canadian on the market, it would be an opportune time for shipments to be made. Danish figures at 120s. to 124s. and Irish creams 114s. to 116s. There is ample room for Canadian, and it would be a welcome visitor to this market.

## CANADIAN EGGS NO LONGER A FACTOR.

The supply of eggs is extremely good and prices are steady, ruling for Irish fresh 8s. to 8s. 6d. There is no apparent opening for Canadian fresh, and so far as this market is concerned Canadian eggs appear to have dropped out of reckoning.

## WIDNES' CHEAP GAS SYSTEM.

Widnes claims to supply the cheapest gas in the world. The town council has just decided to reduce the net price to ordinary consumers to  $\frac{1}{2}$  per 1,000 cubic feet, to consumers of over 3,000,000 cubic feet per annum, to 1s. per 1,000, and to all users of gas for motive power purposes to 10d. per 1,000. Users of gas under the slot meter prepayment system will be allowed 50 cubic feet for a penny, including the free use of all internal pipes and fittings, meter and boiling burner. In other words, the slot meter consumer will receive his gas at the same price as the ordinary consumer plus the cost of collection and maintenance of his meter, pipes and fittings.

It is stated that these prices constitute a world's record in the matter of prices charged for gas, and it is pointed out that these reductions are not made at the expense of the illuminating power, the quality being maintained at 18 candles. In addition to supplying gas at so low a price, the gas department contributes £2,000 a year to the relief of the borough rates, which is equal to a charge on the gas consumer of 1s. 5d. per 1,000 cubic feet. Without this contribution to the rates the gas could be sold at 1½d. per 1,000 below present prices. Coal gas at 10d. per 1,000 cubic feet offers exceptionally cheap motive power, and to be comparable electricity must be sold at 1s. 6d. per unit.

### DECREASE OF £13,000,000 IN BRITISH TRADE RETURNS.

The great trade slump continued in July. The Board of Trade returns for last month, issued recently, show grave decreases in every branch of trade, home and export, foreign and colonial.

For July:—

|                                |                           |
|--------------------------------|---------------------------|
| Imports decreased . . . . .    | £5,434,000 to £46,773,000 |
| Exports decreased . . . . .    | 6,746,000 to 33,705,000   |
| Re-exports decreased . . . . . | 1,077,000 to 6,310,000    |
| Total decrease, £13,257,000.   |                           |

For the seven months, January to July:—

|                                |                             |
|--------------------------------|-----------------------------|
| Imports decreased.. . . . .    | £35,492,000 to £345,058,000 |
| Exports decreased.. . . . .    | 23,070,000 to 223,669,000   |
| Re-exports decreased.. . . . . | 13,330,000 to 45,607,250    |

Total decrease..... £71,892,000

On analysis these significant figures show a pronounced inactivity in almost all branches of trade.

P. B. MACNAMARA.

## SOUTH AFRICA.

## REPORT OF TRADE COMMISSIONER,

*(Mr. John A. Chesley.)*RHODES BUILDING, CAPE TOWN,  
P.O. Box 668, July 24, 1908.

## .. INTERCOLONIAL CONFERENCE AT PRETORIA.

The delegates appointed by the governments of Cape of Good Hope, Natal, Transvaal, and Orange River Colony, to the intercolonial conference on Customs and Railways, assembled on the 4th of May in the government buildings at Pretoria.

A list of subjects relating to the Customs Union Tariff, railway rates and other matters, was prepared by each government and presented to the conference for consideration. A summary of the subjects proposed in the lists submitted was prepared containing the 11 items which constitute the following agenda:

1. Customs Union Convention and Tariff.
2. Railway rates and other matters affecting railway management and working.
3. South African National Union.
4. Asiatic immigration.
5. Uniform standard of weights and measures.
6. Proposal that Dingaan's Day should be observed as a holiday throughout South Africa.
7. Ocean mail contract.
8. Adherence by the South African Colonies to the London Convention signed in May, 1900, for the preservation of animals, birds and fish.
9. Administration of the South African Customs Statistical Bureau.
10. Retirement of Natal from the Customs Statistical Bureau.
11. Joint Railway Superannuation Fund.

## PRINCIPLE OF CLOSER UNION AFFIRMED.

At the second sitting of the conference, the South African National Union was considered, and the following resolutions affirming the principle of closer union, were carried unanimously:—

Resolved:

- (a) That in the opinion of this conference the best interests, and the permanent prosperity of South Africa can be only secured by an early union, under the Crown of Great Britain, of the several self-governing colonies;
- (b) That to the union contemplated in the foregoing resolution Rhodesia shall be entitled to admission at such time and on such conditions as may hereafter be agreed upon;
- (c) That the members of this conference agree to submit the foregoing resolutions to the legislatures of their respective colonies, and to take such steps as may be necessary to obtain their consent to the appointment of delegates

to a National South African Convention, whose object shall be to consider and report on the most desirable form of South African Union and to prepare a draft constitution,

- (d) The convention shall consist of not more than (12) twelve delegates from the Cape Colony, not more than (8) eight delegates from the Transvaal, not more than (5) five delegates from Natal and the Orange River Colony respectively, and it shall meet as soon as convenient after the next sessions of all the parliaments; provided that as soon as at least two colonies shall have appointed their delegates the convention shall be considered as constituted;
- (e) The convention shall publish the draft constitution as soon as possible, and shall, in consultation with the governments of the self-governing colonies, determine the further steps to be taken in reference thereto;
- (f) In the convention the voting shall be per capita and not by states. A chairman shall be elected from the members who shall have the right of speaking and voting, and in the event of an equality of votes shall have a casting vote.

Further resolved,

That the above resolutions be published at an early date to be mutually agreed upon by the governments of the self-governing colonies after the rising of the conference, and that the following statement be issued to the press at once:—

‘The delegates from the self-governing colonies have adopted the principle of closer union and undertake to submit certain resolutions to their parliaments in reference thereto. They also undertake to recommend to their parliaments the appointment of delegates to a National Convention for the purpose of framing a draft constitution.’

#### CUSTOMS UNION TARIFF.

At the third sitting of the Conference, 6th May, item one, Customs Union Convention and Tariff, was taken up and carefully considered, but after three days discussion, little progress had been made towards harmonizing the views of the delegates upon tariff revision. It was therefore decided to adjourn and re-assemble at Cape Town.

Thereupon the following statement was issued to the press for publication:—

‘The conference has had under consideration various matters in connection with the amendment of the Customs tariff and with railway rates, but no final decision upon these questions has yet been reached. The conference will meet again to continue the consideration of these subjects at Cape Town on 26th May.’

#### FURTHER SITTINGS AT CAPE TOWN.

The Inter-Colonial Conference resumed its sittings on May 26, in the parliament buildings at Cape Town. At this meeting the Customs union tariff and railway rates were given further consideration. Although a prolonged discussion of these subjects ensued, the conference was unable to proceed with tariff revision, and adjustment of railway rates.

Thereupon the following resolution was carried unanimously:

Resolved, that this conference,—

Having regard to the practical impossibility under existing conditions of reconciling the differences in the financial requirements and economic policies of the various South African governments;

Having regard also to the fact that if a satisfactory settlement results from the proposal for closer union any alterations now made in the Customs and railway tariffs must of necessity be temporary and provisional.

Decides, That it is inexpedient to disturb existing fiscal arrangements, and that the present Customs Convention be continued until June 30, 1909, subject to such minor modifications as may be agreed upon at this conference, and thereafter for periods of twelve months; provided that any party thereto may give not less than three months' notice either before or after June 30, 1909, of its wish to amend the convention or its intentions to retire therefrom as from June 30, following such notice.

#### MINOR MODIFICATIONS OF CUSTOMS UNION TARIFF.

At the sitting of the conference of May 29, the following minor modifications of the present Customs union tariff were agreed upon, and embodied in a bill, which has been introduced in the various parliaments of the South African colonies for enactment.

The proposed changes in the tariff apply to the following items: Beads, corn and grain, glucose, vinegar, riding saddles, cups, medals and other trophies, oils, potassium and sodium chloride:—

| ARTICLE.                                                                                                                                                                                            | RATE. |    |    | Rebate upon goods the growth, produce or manufacture of the United Kingdom and reciprocating British Colonies. |    |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|----|----|----------------------------------------------------------------------------------------------------------------|----|----|
|                                                                                                                                                                                                     | £     | s. | d. | £                                                                                                              | s. | d. |
| Beads, per lb. ....                                                                                                                                                                                 | 0     | 0  | 6½ | 0                                                                                                              | 0  | 0½ |
| or (whichever shall be the greater) per £100. ....                                                                                                                                                  | 25    | 0  | 0  | 3                                                                                                              | 0  | 0  |
| Corn and grain :—                                                                                                                                                                                   |       |    |    |                                                                                                                |    |    |
| Barley malted, per 100 lbs. ....                                                                                                                                                                    | 0     | 2  | 9  | 0                                                                                                              | 0  | 3  |
| Sugar :—                                                                                                                                                                                            |       |    |    |                                                                                                                |    |    |
| Glucose, per 100 lbs. ....                                                                                                                                                                          | 0     | 3  | 6  | Nil.                                                                                                           |    |    |
| Vinegar :—                                                                                                                                                                                          |       |    |    |                                                                                                                |    |    |
| Extracts or essence of vinegar, acid acetic and pyrodig-<br>neous, per gallon of any strength not exceeding the<br>strength of proof :—                                                             |       |    |    |                                                                                                                |    |    |
| (a) In bottles or other vessels of a capacity of not<br>more than one imperial quart, per imperial gallon..                                                                                         | 0     | 1  | 1  | 0                                                                                                              | 0  | 1  |
| (b) In larger vessels or in bulk, per imperial gallon..                                                                                                                                             | 0     | 0  | 7  | 0                                                                                                              | 0  | 1  |
| And in addition in either case for each degree of<br>strength in excess of the degree of strength of<br>proof, per degree                                                                           | 0     | 0  | 4  | 0                                                                                                              | 0  | 1  |
| NOTE.—Proof will be held to be equal to 6 per cent.<br>of absolute acid, and shall be determined in the<br>manner prescribed by the customs.                                                        |       |    |    |                                                                                                                |    |    |
| Riding saddles, per £100. ....                                                                                                                                                                      | 25    | 0  | 0  | 3                                                                                                              | 0  | 0  |
| Cups, medals or other trophies imported for presentation<br>as prizes at examinations, exhibitions, shows or other<br>competitions, not of a public character, for skill or sport,<br>per £100 .... | 15    | 0  | 0  | 3                                                                                                              | 0  | 0  |

| Carbonate, bi-carbonate, caustic and silicate, chlorate,<br>chloride, bi-chromate, permanganate, red and yellow<br>prussiate of, in bulk.....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 3 % ad val.         | 3 %                                                                                                            |

JOHN A. CHESLEY.

## CITY TRADE BRANCH.

REPORT BY CANADIAN REPRESENTATIVE.

*(Mr. Harrison Watson.)*

73 BASINGHALL STREET,

LONDON, E.C., ENG., August 13, 1908.

## POPULARITY OF SUN-DRIED APPLES IN HOLLAND.

As is probably known, the sun-dried apple has become a favourite form of food in Holland and large quantities are imported from the United States and elsewhere. An Amsterdam merchant who handles produce of various kinds, when calling here a few days ago stated that although Canadian shippers are obtaining some share of the trade, there is still a favourable opening for a large increase.

Sun-dried apples must not be confused with evaporated and rings, from which they differ essentially, and although they are used to some extent in other parts of the continent, it is mainly in Holland that the sun-dried has attained special popularity. The merchant in question stated that he had handled Canadian sun-dried apples for some little time, and has worked up the business to the extent that an established demand exists for certain brands.

•

## DIFFICULTY IN OBTAINING SUPPLIES.

There is, however, frequently a difficulty in obtaining supplies, and he is of the opinion that further Canadian producers might be encouraged to turn their attention to the production of this particular variety because the demand is usually in excess of the supply.

Our visitor would be glad to get into touch with any first-class Canadian firms who are prepared to embark in the production of sun-dried apples, and would be prepared to furnish such with any detailed information necessary.

## CANADIAN TALC SUITABLE FOR ENGLISH MARKET.

At the request of a Canadian correspondent who is interested in a talc deposit which is being worked and who wishes to develop export trade, we made some inquiries relative to the prospects of finding a profitable market for the mineral in this country. There appears to be a considerable importation of talc from France and from Spain, the value depending altogether upon the quality and at present showing the wide range of from 45 to 120s. per 100 kilograms ex wharf London and other United Kingdom ports.

It is claimed that the Canadian talc is similar in quality to French and Spanish, and one large dealer who has had the opportunity of inspecting Canadian samples, estimates that if regular supplies of a standard quality can be relied upon, the Canadian variety should realize from about 60 to 70s.

## BRITISH EXPORTERS AND CANADIAN CERTIFIED INVOICES.

It might be suggested to Canadian importers that upon the occasion of their first transaction with United Kingdom or other houses, they should make a point of

informing the sellers of the existence of the certificate regulations. We still receive a considerable number of applications for information upon this matter and hardly a week passes that we do not receive a visit from some shipper whose goods are being delayed owing to the absence of the certified invoices which are required by the Canadian Customs authorities, and of the necessity of which he was apparently quite ignorant.

## BIRMINGHAM.

REPORT OF ACTING TRADE COMMISSIONER,  
CENTRAL HOUSE, August 22, 1908.

### THE TRADE OF THE EMPIRE.

The Board of Trade returns for the first half of the present year are exceedingly interesting to those who follow the trend of the Empire's trade. The total imports into England from foreign countries exhibit a decrease of approximately £14,000,000; but what is more extraordinary is the £16,000,000 decrease in the imports from British possessions.

Some of the leading figures of the returns may be seen in the under-given table as affecting certain possessions during the six months ending June 30, in comparison with the same period in 1907.

| British Possessions.                 | 1907.      | 1908.     | Decrease.      |
|--------------------------------------|------------|-----------|----------------|
|                                      | £          | £         | £              |
| Cape of Good Hope . . . . .          | 3,742,092  | 2,942,755 | 799,337        |
| Bombay . . . . .                     | 6,106,222  | 3,178,126 | 2,928,098      |
| Madras . . . . .                     | 2,653,124  | 2,361,739 | 291,385        |
| Bengal . . . . .                     | 9,246,140  | 5,958,773 | 3,287,367      |
| Eastern Bengal and Assam . . . . .   | 721,007    | 673,100   | 47,907         |
| Burma . . . . .                      | 1,563,888  | 1,376,594 | 187,294        |
| Straits Settlements . . . . .        | 4,729,393  | 3,709,496 | 1,019,897      |
| Ceylon . . . . .                     | 2,751,762  | 2,597,803 | 153,959        |
| Victoria (Australia) . . . . .       | 6,122,530  | 5,515,216 | 607,374        |
| New South Wales . . . . .            | 8,882,498  | 6,177,004 | 2,705,494      |
| New Zealand . . . . .                | 12,853,593 | 9,838,496 | 3,020,097      |
| Canada . . . . .                     | 9,106,118  | 8,671,822 | 434,296        |
| Newfoundland and Labrador . . . . .  | 79,288     | 55,688    | 23,600         |
| British West India Islands . . . . . | 1,211,196  | 1,395,819 | (Inc.) 184,623 |

The only states showing an increase are:—

|                                                              |         |
|--------------------------------------------------------------|---------|
| Natal . . . . .                                              | £19,537 |
| Western Australia . . . . .                                  | 13,219  |
| Southern Australia, including Northern Territories . . . . . | 299,624 |
| British West India Islands . . . . .                         | 184,623 |

The difference in the amount of Great Britain's imports from foreign countries and her own possessions must not necessarily be attributed to Great Britain's preference for foreign goods. Into any consideration of this marked difference must be introduced the question: To what extent do these imports comprise commodities which British possessions for various reasons have been unable to supply?

## CHIEF COMMODITIES AFFECTED.

The following table shows the decrease in various commodities from British possessions in comparison with the corresponding period of 1907:—

| Commodity.            | British Possessions.       | Amount.   |
|-----------------------|----------------------------|-----------|
|                       |                            | £         |
| Wheat.....            | British East Indies .....  | 1,700,000 |
| " .....               | Australia .....            | 140,000   |
| Oats .....            | Canada .....               | 170,000   |
| Maize .....           | " .....                    | 150,000   |
| Bacon .....           | " .....                    | 250,000   |
| Butter.....           | Australia .....            | 480,000   |
| " .....               | New Zealand .....          | 300,000   |
| Cheese.....           | Canada .....               | 300,000   |
| Wood and timber ..... | " .....                    | 100,000   |
| " .....               | British East Indies .....  | 119,000   |
| Wool.....             | British South Africa ..... | 600,000   |
| " .....               | East Indies .....          | 250,000   |
| " .....               | Australia .....            | 1,200,000 |
| " .....               | New Zealand .....          | 2,000,000 |
| Hides, &c.....        | Australia .....            | 100,000   |
| " .....               | New Zealand .....          | 179,000   |
| " .....               | East Indies .....          | 250,000   |
| " .....               | Straits Settlements .....  | 36,000    |
| Tin.....              | Australia .....            | 164,000   |

## IMPORT OF CANADIAN WHEAT INCREASED.

The above table will be of interest to Canadian exporters as showing the decrease in their shipments of bacon, cheese, oats, and timber. On the other hand the Board of Trade returns show that Great Britain's imports of wheat from Canada are £560,000 in excess of the imports for the corresponding period in 1907; while her imports of cheese from New Zealand show an increase of £200,000. Canadians must not lose sight of the fact, however, that although her exports of wheat to Great Britain show an increase, it is infinitesimal compared with the exports of the United States and Argentina, proving that there is still an unlimited market in the home country for Canadian wheat. Of course, it is well understood by students of the returns that the Canadian harvest of 1907 was exceedingly disappointing. The influence of the United States crisis on Canada's commerce generally is also well understood.

## SHRINKAGE IN BUTTER IMPORTS.

While it is true that Great Britain's imports of butter during the six months were less by £200,000, it is also worthy of notice that the imports from British possessions show a decline of £800,000. Smaller shipments came from Australia and New Zealand, while increased shipments came from Russia, Denmark, France, and various other countries.

## BRITISH FRUIT CROP PROMISES AVERAGE ONLY.

The prospects of a large fruit crop in Great Britain were reported by this office in the month of May. These prospects, however, will not be realized. In April and May there was a magnificent show of blossom, and the fruit set well; but the hot and dry months of June and July have caused a considerable proportion of apples to shrivel and drop off, and consequently there will be but a bare average in districts where bountiful crops were anticipated.

The pear crop will not exceed that of former years, though in many districts the early blossoms were creative of as much optimism as the apple blossoms.

#### SATISFACTION WITH THE GRAIN CROP.

Harvesting is progressing very favourably in all parts of the country, and general satisfaction with the grain prevails. Many acres of wheat are now dead ripe, and farmers are hastening the reaping, as with the wheat in such a ripe condition, they fear loss by shelling of the grain, and probable winds. The quality of wheat and oats will be good, and the quantity about the average. Barley will be of excellent colour, but the quantity is limited.

August 20, 1908.

#### AGRICULTURAL CO-OPERATION MOVEMENT STARTED.

A movement has been recently set on foot in Great Britain with the object of establishing co-operation among farmers. Sir Horace Plunkett, chairman of the Joint Board for Co-operative Agricultural Trade, has issued a memorandum setting forth the scope and purpose of this board.

The three main directions, indicated by the memorandum in which agricultural co-operation is to be advanced, are:—

1. The organization of farmers is to be brought to a higher level of business efficiency by the exchange of experiences between the three organization societies.
2. The co-operative agricultural trade is to be developed by joint action between the organized farmers of England, Scotland and Ireland, and
3. Regarding the agricultural interest as a whole, the new machinery which is to be established for these two purposes will be used, as the opportunity presents itself, for advancing and protecting the interests of the agricultural classes in relation to government.

Continuing his remarks in the memorandum, Sir Horace Plunkett states that the movement will be primarily and essentially practical in its aims; and the matters in which joint action may usefully advance agricultural co-operative trade fall into three main divisions:—

- (1) The acquisition of farmers' supplies of the best quality at the lowest price.
- (2) The marketing of produce in the most economical manner.
- (3) The interchange of certain products between the movements.

The memorandum also deals with the development in relation to government, the value of organization being insisted upon as a means of strengthening the position and influence of the agricultural interest in its relation to local administration and government.

#### DECLINE IN COTTON AND WOOL.

Two items of interest to Canadians, in view of their large imports of cotton and woollen goods, are the decreased British imports of cotton and wool. The decline is something like £16,000,000. The decrease in imports of wool has affected some British possessions very seriously, the shipments from Australia and New Zealand showing a decline in value of over £3,000,000, while British South Africa shipped £600,000 less, and the British East Indies £250,000 less.

In the matter of cotton the United States shipped approximately £3,500,000 less in value to Great Britain than during the corresponding period of 1907. India has suffered by a decline in her customary shipments, as well as the British East Indies.

## GREAT BRITAIN'S EXPORTS TO BRITISH POSSESSIONS.

The exports of Great Britain on the whole have been unsatisfactory, but one cannot overlook the fact that, although a serious decline is apparent in imports from her possessions, the total exports to the said possessions are almost the same as during the first half of the year 1907. Her exports to Canada, however, exhibit a decrease of approximately £2,500,000.

## CURRENT PRICES OF CANADIAN BUTTER AND CHEESE.

Messrs. Waddel & Co.'s weekly report gives the price of butter during the current week at \$27.73 and \$28.22 per cwt. Salted and choicest unsalted at \$28.70. Canadian cheese has sold at \$14.60, \$14.84, and \$15.08 for anything special. The imports of Canadian butter for the week totalled 2,151 cwts., and cheese 65,754 cwts.

## TRINIDAD AND TOBAGO.

## REPORT OF COMMERCIAL AGENT.

(*Mr. Edgar Tripp.*)

PORT OF SPAIN, TRINIDAD, August 7, 1908.

## WONDERFUL INCREASE IN EXPORTS OF TRINIDAD.

The total exports for year ending March 31 were £4,176,941 against for the previous year, £2,872,325, and being £532,672 over the imports.

The rather remarkable rise in the value of exports may be attributed principally to an excellent cacao crop and favourable prices, the value of the produce having risen from £802,073 in 1906-7 to £1,786,386 in 1907-8.

## DISTRIBUTION OF EXPORTS.

Apart from transshipment and other goods not the produce of the colony, the following was the distribution during the last four years:—

|                               | 1904-5. | 1905-6.   | 1906-07. | 1907-8.   |
|-------------------------------|---------|-----------|----------|-----------|
|                               | £       | £         | £        | £         |
| To United Kingdom. . . . .    | 665,397 | 445,889   | 417,824  | 615,641   |
| " British Colonies . . . . .  | 260,558 | 230,842   | 210,766  | 271,948   |
| " Foreign countries . . . . . | 931,323 | 1,045,174 | 927,454  | 1,725,212 |

|                 |         |
|-----------------|---------|
| 1903-4. . . . . | £31,829 |
| 1904-5. . . . . | 247,585 |
| 1905-6. . . . . | 219,029 |
| 1906-7. . . . . | 203,106 |
| 1907-8. . . . . | 264,323 |

## SUGAR.

The export of sugar amounted to 46,270 tons, but as the financial year ends in the middle of the crop season, these figures do not represent the actual crop. This is more correctly stated in returns, of which I inclose a copy, issued by the Agricultural Society, showing that the total sugar crop of the current year has been 48,933 tons.

Of this quantity 36,340 tons was made from canes grown on the estates of the factory owners, and the balance from canes purchased from small farmers and peasant proprietors, to whom the sum of \$303,000 was paid. These farmers number 5,922 East Indians and 5,619 West Indians. They are paid for their canes on a sliding scale, determined by the cable prices at New York, but with a fixed minimum which guarantees the peasant against loss. About half the sugar went to the United Kingdom, the other half to British North America.

## SUGAR CROP AND CANE FARMING RETURNS, 1908.

|                             | Tons.     | Tons.     | Tons.     |
|-----------------------------|-----------|-----------|-----------|
|                             | 1908.     | 1907.     | 1906.     |
| Total sugar made .....      | 48,933    | 50,564    | 62,975    |
| Made from estate canes..... | 36,340    | 35,597    | 39,735    |
| Estate canes grounds .....  | 380,384   | 373,577   | 397,912   |
| Canes purchased .....       | 139,422   | 169,709   | 237,844   |
| Amount paid for canes ..... | \$303,631 | \$340,527 | \$469,122 |

## NUMBER OF FARMERS.

|                  |       |
|------------------|-------|
| East Indian..... | 5,922 |
| West Indian..... | 5,619 |

## GROWING IMPORTANCE OF THE CACAO INDUSTRY.

The growing importance of the cacao industry is indicated by its increasing value. Only a few years ago the value of sugar exported was more than double that of cacao; the value of cacao to-day is three times that of sugar, and its cultivation is being rapidly extended in every part of the country.

France has taken the place of best customer, formerly held by the United States, having taken 123,287 bags against 85,839 by the latter; the United Kingdom came third with 38,718 bags, whilst only 2,045 appear as having been sent to Canada. These figures, however, manifestly do not represent the real consumption in the Dominion, which is principally supplied from New York. The total number of bags shipped was 255,204. Since the visit referred to in last year's report of an expert from the United States Department of Agriculture on the subject of various fungus and insect pests which were seriously affecting the output of many estates, very much greater attention has been paid to cultivation, and it is expected that the total yield of cacao will in consequence increase very materially in the course of the next year or two.

## ASPHALT AND MANJAK.

Of the 141,006 tons of asphalt exported from the Pitch lake, the United States took approximately 831,000 tons, the United Kingdom, 17,000; Germany, 18,000, and France, 6,000; there is none noted for Canada. In 1906-7, the export was 115,875 tons.

Manjak to the amount of 1,806 tons was shipped, as compared with 1,548 of the previous year. The greater part went to America, and one ton to Canada.

## DEVELOPMENT OF FRUIT INDUSTRY.

Thanks to the assistance and encouragement afforded by the establishment of a fruit company, in which the Royal Mail Steam Packet Company has a controlling interest, the fruit industry has developed in a satisfactory manner. The exports amounted last year to £4,682 and for year under review to £11,076. The greater part of the exports consisted of bananas, of which 56,437 bunches and crates were shipped valued at £9,868, and 2,991 packages of oranges valued at £876, &c., British North America took of the above 10 packages of oranges valued at £1.

## FIRST MARKETABLE QUANTITY OF RUBBER.

For the first time rubber appears amongst our exports in a marketable quantity, 4,444 lbs. valued at £603 having been sent principally to the United Kingdom and France. The results of these first shipments have conclusively proved that the colony is capable of producing the highest quality of rubber. The industry is being rapidly extended, and as each year a very large number of trees will arrive at maturity, it is to be expected that within a reasonable time this will form a very important item amongst the other exports of the colony.

## NO REPRESENTATION AT CANADIAN EXHIBITIONS.

It has been decided by the Permanent Exhibition Committee that as the colony will be taking part in two exhibitions in London this year, not to participate in Canadian exhibitions, but they hope to send a fully representative exhibit to Toronto and some other Canadian exhibition in the fall of next year.

## COCOANUTS.

The value and number of cocoanuts exported were £45,233 for 14,867,514 nuts. By far the greater part of these were purchased long in advance by dealers in the United States, but 323,200 went to Canada, where a great many more would also have found a market had not the would-be purchaser been forestalled in New York.

EDGAR TRIPP.

## AUSTRALASIA.

## REPORT OF TRADE COMMISSIONER FOR NEW SOUTH WALES, QUEENSLAND AND NEW ZEALAND.

(*Mr. J. S. Larke.*)

THE ROYAL EXCHANGE, SYDNEY, August 6, 1908.

## LUMBERMEN ASKING PROTECTION AGAINST THE UNITED STATES.

The large importations into New Zealand of timber from British Columbia and the United States have created concern amongst the sawmillers of the Dominion, and they are petitioning the government for an increase of the tariff in order to prevent the competition, which, they claim, is ruinous to them. The cost of building

materials is already very high in New Zealand and rents of houses have gone up very much more rapidly than the increase of wages. These factors have a restraining influence upon excessive taxation upon timber. It has also been pointed out to the government that a large proportion of the imports is due to the universally low prices of Oregon in the United States, the result of the financial crisis of last year. As the effects of the panic pass away, the prices of lumber will likely go up and become more effective in reducing the imports into New Zealand than any legislation the government would venture to undertake.

#### COMMONWEALTH TRADE RETURNS FOR FIVE MONTHS.

The commonwealth trade for the first five months of the years 1907 and 1908 was:—

|                | Imports.    | Exports.    |
|----------------|-------------|-------------|
| 1907.. . . . . | £20,222,884 | £29,639,773 |
| 1908.. . . . . | 20,089,149  | 24,511,971  |

The decline in imports for the month of May is very considerable, having been £3,340,713 as against £3,939,345 in May of 1907. The decrease in exports amounts to about the same extent—£600,000. The decrease in exports has been, in other merchandise than gold, very much larger than is indicated by the figures, as there was an increase in the exports of gold of nearly £2,250,000. The principal decreases are as follows:—

| —                      | 1907.       | 1908.      | —                    |
|------------------------|-------------|------------|----------------------|
| Wool .....             | £10,570,093 | £7,232,182 | December. £3,337,911 |
| Wheat and flour .....  | 3,764,403   | 1,903,008  | " ... 1,861,395      |
| Butter....             | 1,527,529   | 1,244,914  | " ... 282,615        |
| Other merchandise..... | 9,340,402   | 7,491,173  | " ... 1,849,229      |

#### RETURNS INDICATE GENERAL TREND OF TRADE.

These figures give a fair indication of both the character of the trade and of what it is likely to continue to be for the balance of the year. Rains have improved the outlook of both the pastoral and agricultural interests, but there is still a division of opinion as to whether or not the wool shear this year will be equal to that of last. South Australia is an exception, having the prospects of an unusually good year in all its industries. Queensland is very fair.

#### DECREASE IN MIGRATION AND IMMIGRATION.

For the first five months of the year there was a decrease of arrivals in Australia of 1,143 persons, and a decrease of departures of 1,277 persons. Arrivals and departures from and to Canada were:—

|                | Arrivals. | Departures. |
|----------------|-----------|-------------|
| 1907.. . . . . | 345       | 613         |
| 1908.. . . . . | 616       | 389         |

The figures for the United States show still greater difference, the departures for the United States being only 178 persons in 1908, as against 315 in 1907. This is due, no doubt, to the reports of the poor prospects of employment both in Canada and the United States.

## INTENDING SETTLERS MUST HAVE MEANS.

The arrivals of Canadians for settlement in this country have not been many for the last two or three years, but a number have endeavoured to work their passage back to Canada again. I have frequent applications for assistance for passages, and, in some cases, for money, in order to purchase food from men who report that they have been unable to get work and are reduced to the utmost distress. There is not much occasion for the men to go hungry, as the government has made ample provisions whereby a man can earn his food for a short time. But Canadians should be advised not to come to this country unless they have sufficient means to keep them for a considerable time after their arrival.

## NEW STEAMSHIP LINES FROM HOLLAND AND SWEDEN.

Holland is putting on a line of steamers plying between Australia and its East Indian possessions, and Sweden a line of steamers running between Sweden, South Africa and Australia. The trade of Sweden with Australia is relatively very small, the imports into Australia in 1906 amounting to £52,306 and the exports to £15,105. Nine-tenths of the imports were timber, and the balance consisted of carbide of calcium, matches and paper.

This indicates the value which foreign nations are putting upon Australian trade, and the competition to secure it. The promoters of the line assert that there is no question of its securing trade and a certain number of passengers sufficient to make the scheme profitable.

## OUTPUT OF SUGAR IN QUEENSLAND.

The returns give the output of sugar for Queensland for 1907 to be 188,307 tons. This is the highest yield of the state, and is double the yield of 1903. It marks a very great improvement in sugar culture, as the yield represents two tons of sugar per acre. The year previous it was 1·88 tons per acre.

The other industries of Queensland are also enjoying prosperity, its pastoral industry being the most flourishing in Australia. It has had good rains with the exception of a small section of the country, and is receiving some immigration.

## NEW ZEALAND AND ITS BUDGET.

The parliament of New Zealand came together on the 29th of June, and the Premier, as Minister of Finance, brought down his budget on the 7th of July. His statement shows receipts to have been £9,063,989 and expenditure £8,213,965, showing a surplus of £850,024. The public debt had increased by £2,274,857, making it at that time £66,453,897. It is claimed that the increase was devoted to works chiefly of a reproductive character, and is represented by interest-bearing assets, expenditure upon railways, advances to settlers on security on freehold properties, the purchase of estates for closer settlement, and loans to local bodies. He proposed to raise another loan of £1,250,000, and with £800,000 from the surplus, to expend it upon railways, roads, bridges and public buildings.

## INJURIES TO CROP AND STOCK BY WEATHER.

The Dominion has suffered from very severe wintry weather. The South Island particularly experienced exceptionally heavy rains, which produced destructive floods and were followed by equally exceptionally heavy snow storms. Many sheep were killed in the mountainous sections of the country.

## TRADE IN FAIR CONDITION.

Trade is reported to be in a fair condition though the crossbred wools of New Zealand have not recovered as rapidly from the reduced prices of October last as have the fine wools of Australia. The exports of meat are better than a year ago though the exports of butter still show the effects of the drought of last summer.

## LESSENERED PRODUCTION OF WOOL.

Last month I included a statement of the exports and sales of Australian wool for the last wool year. An estimate was made of a decline not only in the number of bales sold and exported, but also in the weight per bale. Further examination has increased this amount until it is now stated to be six pounds per bale. Upon this basis, it was estimated that there was a lessened production in 1907-8 as compared with 1906-7 of 31,500,000 pounds.

The fall in prices from October to May is estimated to have been from 15 per cent for fine wools, to 40 per cent for crossbreds. Sales were held in Sydney at the end of June, and in Brisbane on the 7th of July. The prices realized at these sales show an increase over the reduced prices of about 15 per cent. Later wool sales in England show a weakening of the market, and it is probable that the next sales will not support to the full amount the advances of the early sales of the year.

## TO EXTEND THE SELLING PERIOD.

The selling firms of Australia held a conference and have come to an arrangement for limiting the amount of wool to be offered at each sale. This will carry the selling period over a larger proportion of the year than in the past. It is hoped that the reduction in the amount offered will help to sustain prices, as the exceptional reduction was due, not so much to the decreased demand for the product, as to the inability of speculative buyers to obtain an advance from banks to enable them to make large purchases for future resale.

## PROSPECTS OF THE YEAR'S SHEAR.

There is a striking difference of opinion as to the probabilities of the shear of this year. Correspondents of foreign journals maintain that the crop of this year will be in excess both in quantity and quality of that of 1907-8. Australian journals have come to an opposite conclusion. The foreign writers are supported by the fact that there has been an increase of over 5,000,000 of sheep in Australia during the twelve months. As against this must be reckoned the droughts in large portions of Victoria and New South Wales, which have undoubtedly effected both the quantity and quality of the wool of those sections producing the finest staple of Australia. The probabilities lie half-way between the expert opinions.

## STRIKE OF PUBLIC SERVANTS.

The tramways in Sydney and other cities of New South Wales belong to the state. Discontent has long prevailed amongst the employees, particularly amongst the younger men, alleged to be socialists. Two years ago they obtained a royal commission to inquire into certain grievances against the officers of the department. They failed to sustain their charges by evidence, but it came out that there was a considerable sale of 'canaries,' as reissued tickets were called. The department put on private detectives which led to the dismissal of a number of conductors. The tramway men objected to this espionage, demanded that it should be stopped, and

insisted upon the reappointment of one of the dismissed conductors. The commissioners, who control the tramways as well as the railways of the country, while conciliatory, were firm in refusing to grant either, but stated that the case of the dismissed conductor would come before the final appeal board, and they were prepared to receive any suggestions for improvement in the detective system if the men had any to make.

#### UNANIMOUS VOTE PRECIPITATED STRIKE.

The men by an almost unanimous vote resolved to strike on Friday at noon but precipitated this strike on Friday morning. Efforts were made to induce the government to meet the demands of the men, but the premier, with the approval of the cabinet, upheld the action of the commissioners, and took the ground that no consideration would be given to any of their grievances unless the men returned to work. Some violence was used but a limited service was maintained, policemen being put upon each car and violators of the peace being promptly dealt with. The tramway men had hoped that the railway employees and other unions would strike in sympathy with them. The Labour Council made an effort to bring about these sympathetic strikes but the labour representatives in parliament opposed the project. The railway men refused to come out, and it was clear that the strike on the tramways must speedily collapse. On Wednesday afternoon the men held a mass meeting, and after a long discussion it was determined by a vote of 1,000 to 100 to continue the strike. In spite of the resolution the men left the meeting, and by hundreds made application to be restored. The union executive, upon finding that the men were slipping away from them, on Wednesday night called off the strike.

As will be remembered, there was a similar strike amongst the railway employees in the state of Victoria which lasted but very little longer. In both cases, these singular revolts against the state were brought to a speedy collapse by similar means. The sentiment of the majority of the people was strongly against these strikes. This with the firmness of the governments, and the resolute action of the police, were the elements that brought about a speedy and peaceful ending.

#### PARASITES DO NOT DESTROY FRUIT PESTS.

Canadian newspapers have largely republished a statement that Mr. Gompere, an entomologist in the employment of the government of Western Australia, had discovered parasites that destroyed the fruit flies and other insects so destructive to fruit culture. It was further intimated that these parasites would ensure clean orchards. Mr. Froggat, an entomologist in the employment of the government of New South Wales, has just returned from a tour around the world for the purpose of investigating the possibility of securing such valuable parasites. He reports, that while there are parasites that to a certain extent are destructive to fruit pests, yet they cannot be depended upon to preserve the orchards. He found in India, in the very district from whence Mr. Gompere secured his friendly insects, that the orchards were worse infested than even those of Australia. His conclusion is that nothing is yet known that will ensure good fruit but spraying, fumigation and the maintenance of clean orchards.

#### EXPERIENCE OF TWO CANADIAN BUSINESS MEN.

The representatives of two Canadian manufacturers have completed their canvass of the buyers of the cities of Sydney and Brisbane. One has taken exceptionally numerous orders and could have sold to even more houses than he did, if he had so chosen. The trip of the other was a considerable disappointment, although the

difference was not so much in the demand for the lines represented. In the successful case, the traveller, being a prominent member of the firm, knew his business thoroughly and had liberty to meet the conditions that he found. In the other case, the traveller was hampered by the fact that his firm had once done considerable business here but had not been able to promptly fill its orders. The opinion of the successful traveller is that there is plenty of trade here for Canadian manufacturers but they must do as he did—come out and study the conditions for themselves. In one line of goods he could do nothing. In the other, though there was a duty of 40 per cent upon it, he was unexpectedly successful.

The experience of these travellers supports the statements that have been made in previous reports—that it is more difficult to sell Canadian goods to-day than it was ten years ago. I have endeavoured to get firms interested on behalf of two Canadian exporting houses. One firm wrote that he would not communicate with Canadian houses, as he, unfortunately, had had experience of the uselessness of so doing. Another, a prominent manufacturers' agent, who was very desirous a few years ago of taking on Canadian lines, stated that he did not care to touch Canadian trade. He had been so disappointed in what he had tried to do through the mistakes made in shipping and failure to meet conditions or even to reply to correspondence, that he did not wish for any further experience.

#### BUSINESS FOR THOSE WHO STUDY MARKET.

The business is here to be done, not in all lines, but in very many lines, but Canadian manufacturers, in most instances, must either come out and study the market themselves, or send a thoroughly competent representative with sufficient powers to meet the conditions he finds.

#### \* LOOKING TO CANADA FOR BUTTER SUPPLY.

Owing to the dry season the export of butter from Australia has ceased. There are reported no stocks on hand of any amount and prices for local consumption have gone up in Sydney to 180s. per cwt., and in Melbourne to 187s. The recent rains will help the pasturage in the warmer districts, but it will be a little time before the local supply will bring about normal conditions. New Zealand, too, has little or nothing to spare. It is hoped that Canada will be able to supply a quantity.

#### LOWER PRICES AT SHEEP SALES.

The annual sheep show and sales were held in June. They were both a reflex of the condition of the country. The attendance was less than usual, and while the sheep brought good prices under the circumstances, the prices were 25 per cent below those of last year.

#### RETURNS OF JUNE TRADE.

The Commonwealth returns for the month of June give: Imports, £3,755,502; exports, £3,628,388.

This is an increase in imports over the same month of last year of £30,639, but a decrease in exports of £727,477. The half-year's returns show a decrease in imports of £103,096 as compared with similar six months of the previous year, and in exports of £5,855,279. The exports for the next four months will not show any marked increase but imports will probably decrease in greater proportion than they did for the first half of the year.

## CHANGE IN TRANSFER RATES.

Advices from New York state that there have been some changes in the transfer charges from rails to ships for Australia on less than car lots. Canadian exporters should ascertain what the increase is before making quotations, f.o.b., in reply to inquiries from Australia.

J. S. LARKE.

## BARBADOS.

## REPORT OF TRADE COMMISSIONER.

(*Mr. E. H. S. Flood.*)

BARBADOS, August 14, 1908.

## TRADE OF THE LEEWARD ISLANDS.

Through the courtesy of the Provincial secretary of the Leeward Islands, I have been able to obtain, in advance of publication, some figures as to the trade of these colonies for last year. Their total trade for the year ending March 31, 1907, amounted to £1,038,670, an increase of £232,211 over the previous year.

## INCREASE IN IMPORTS.

There was a considerable increase last year over the previous year in imports, as shown by the following classified table:—

| Article.                          | 1906.    | 1907.    |
|-----------------------------------|----------|----------|
| Live animals.....                 | £ 1,457  | £ 3,290  |
| Foodstuffs.....                   | 150,786  | 173,432  |
| Drinks.....                       | 12,715   | 12,127   |
| Narcotics.....                    | 3,862    | 4,712    |
| Raw materials.....                | 13,460   | 21,093   |
| Manufactured articles (Text)..... | 83,497   | 108,225  |
| "    "    (Raw).....              | 35,191   | 38,779   |
| Other manufactures.....           | 104,408  | 124,955  |
| Coin and bullion.....             | 1,875    | 13,377   |
| Total.....                        | £407,251 | £499,990 |

The following table will show the country of origin of the imports for these years:—

| Country whence Imported.      | 1906     | 1907     |
|-------------------------------|----------|----------|
| United Kingdom.....           | £178,587 | £231,018 |
| British Colonies.....         | 68,227   | 74,844   |
| United States.....            | 147,020  | 177,283  |
| Other foreign countries ..... | 13,417   | 16,845   |
| Total .....                   | £407,251 | £499,990 |

#### OPPORTUNITY FOR CANADIAN MANUFACTURERS IN PROVISIONS.

By the above table it will be seen that these colonies have imported much more largely than last year. It has been a prosperous year, and there is every hope of a continued prosperity. Canadian manufacturers and dealers in provisions and bread-stuffs would have an opportunity to increase their trade in these islands. It will be seen that the greater part of the imports come from Great Britain and the United States. There is a strong Canadian feeling developed where, and an effort is being made by the legislature to induce the different islands to agree to such a rearrangement of the tariff as will give Canada the benefit of a scale of preferential duties. The friendly sentiment now existing should induce Canadians to push for a greater share of the trade.

#### COMPARISON OF EXPORTS.

The value of the exports for 1907 compared with the previous year was:—

| Country to which Exported.  | 1906     | 1907     |
|-----------------------------|----------|----------|
| United Kingdom.....         | £161,614 | £208,562 |
| British Colonies.....       | 178,445  | 235,565  |
| United States.....          | 43,143   | 33,197   |
| Other foreign countries.... | 16,006   | 61,356   |
| Total .....                 | £399,208 | £538,680 |

#### INCREASE IN EXPORTS.

As may be seen, there has been also a substantial increase in the export trade during last year, an increase, indeed, over any previous year for which I have a record. This prosperity is largely due to the increased cultivation of Sea Island cotton and lime. There has been a small increase also in the output of sugar this year.

## LARGEST SHARE OF EXPORTS GOES TO CANADA.

Canada has been taking a yearly increasing amount of the produce of these colonies since 1900. To the British colonies in that year, the total export was £55,810. Last year, it rose to over four times this amount. Under the head of British colonies, Canada takes practically the whole amount, and is therefore the largest consumer of the produce of these islands.

## EXPORT OF SUGAR STATISTICS.

The export of sugar was distributed as follows:—

| Presidency.           | 1906   | 1907   |
|-----------------------|--------|--------|
|                       | Tons.  | Tons.  |
| Antigua.....          | 9,996  | 13,972 |
| St. Kitts-Nevis ..... | 15,142 | 14,132 |
| Dominica .....        | 82     | 107    |
| Montserrat.....       | 351    | 207    |
| Virgin Islands.....   |        | 1      |
| Total.....            | 25,571 | 28,419 |

E. H. S. FLOOD.

# NEW TARIFFS

During the month under review there has been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

## NEGRI SEMBILAN

(FEDERATED MALAY STATES)

Money and weights employed in the tariff.—The dollar is the silver Mexican *peso* of 100 *centavos*, nominal value 4s., average value 23d.

Weights.—*Bhara* = about 4 *cwt.*—*Pikul* = 133½ lbs., avoirdupois.—*Kati* = 1½ lb. avoirdupois.

### ‘CUSTOMS DUTIES ENACTMENT, 1897.’

(*Notification No. 522, published in the Negri Sembilan Government Gazette of December 27, 1907, No. 30, vol. XII.*)

Under the powers vested in him by section 3 of the ‘Customs Duties Enactment, 1897,’ the Resident, with the approval of the Resident-General, hereby cancels the Table of Customs Duties contained in Notification No. 463, published in the *Gazette* on the 6th day of November, 1903, and amended by subsequent Notifications Nos. 91 of 11th March, 1904, 376 of 23rd September, 1904, 146 of 5th May, 1905, 298 of 22nd September, 1905, 426 of 29th December, 1905, 175 of 1st June, 1906, and 477 of 14th December, 1906, and imposes duties in accordance with the following Table, to come into force on the 1st day of January, 1908.

### TABLE OF CUSTOMS DUTIES.

#### *Imports.*

|                                                                                | Duty.    |
|--------------------------------------------------------------------------------|----------|
| Indian opium. . . . . per chest containing 40 balls                            | \$560 00 |
| Opium, other than Indian. . . . . per chest, or packet, weighing 120 katis     | 560 00   |
| Spirituuous liquors:                                                           |          |
| Gin ‘A.V.H.’, ‘Geneva Key Brand’ and similar varieties. per case of 15 bottles | 3 00     |
| and proportionate sums for smaller quantities                                  |          |
| Gin, other than ‘A. V. H.’, ‘Geneva Key Brand’ and similar varieties           |          |
| per gallon, or half dozen quart or dozen pint bottles                          | 1 00     |
| and proportionate sums for smaller quantities                                  |          |
| Brandy. . . . . per gallon, or half dozen quart or dozen pint bottles          | 1 00     |
| and proportionate sums for smaller quantities                                  |          |

| Getah sempor . . . . .      | do            | 80 % |

Exemptions: Any gutta-percha or any such leaves, bark or other part as aforesaid which are obtained from trees growing on alienated land, the holder whereof shall have cultivated such trees to the satisfaction of the Resident, on all of which an export duty of 2½ per cent *ad valorem* is hereby imposed.

<sup>(1)</sup> Five pikuls of tapioca root are taken as worth one pikul flake tapioca.

<sup>(2)</sup> The above rate of duty does not apply in cases in which a different rate is specially stipulated in the title for the land.

Duty.

## Minerals:

Gold, other than gold obtained by any cyanide process:

Two and a half per cent of the value of the export calculated at the rate of £ 4 sterling per ounce, subject to a rebate of the amount, if any, whereby the duty so paid on any gold exceeds  $2\frac{1}{2}$  per cent of the value of the said gold as declared in a written certificate from such bank or other authority as the Resident may approve.

Exemption: Gold won by persons who have paid a commutation fee in lieu of export duty under section 126 (i) of 'The Mining Enactment, 1904,' or under any similar provision of law.

Gold obtained by any cyanide process. . . . . *ad val*  $2\frac{1}{2}\%$

NOTE.—For the purpose of preliminary payment of duty the value of such gold shall be calculated at the rate of £ 2 sterling per ounce, subject to subsequent adjustment by refund to the exporter or by additional payment to the government, as the case may be, of the amount, if any, whereby the duty so paid on any gold exceeds or falls short of  $2\frac{1}{2}$  per cent of the value thereof evidenced in such manner as the Resident may approve.

Tin (3). As in schedule B

Tin ore (3). As in schedule C.

Manufactured tin (3). Same as tin.

Wolfram (3). . . . . pikul \$2 00

Metals and metalliferous ores not specified. . . . . *ad val.* 10 %

## SCHEDULE A.

*Coffee.*

|                                                                      | Duty.<br>Dollars. |
|----------------------------------------------------------------------|-------------------|
| When the price is below \$ 22 per pikul. . . . .                     | Nil.              |
| When \$ 22 per pikul up to \$ 24 (inclusive). . . . . <i>ad val.</i> | 1 %               |
| When 24 do 26 . . . . . do                                           | $1\frac{1}{2}\%$  |
| When 26 do 28 . . . . . do                                           | 2 %               |
| Above 28. . . . . do                                                 | $2\frac{1}{2}\%$  |

The duty on parchment coffee is calculated on two-thirds of the gross weight, and on dry cherry on one-third of the gross weight.

## SCHEDULE B.

*Tin.*

|                                                                           |         |

| do 35 do 36. . . . . do                                                   | 11 00   |
| do 36 do 37. . . . . do                                                   | 11 25   |
| do 37 do 38. . . . . do                                                   | 11 50   |
| do 38 do 39. . . . . do                                                   | 12 00   |
| do 39 do 40. . . . . do                                                   | 12 50   |
| do 40 do 41. . . . . do                                                   | 13 00   |
| do 41 do 42. . . . . do                                                   | 13 50   |
| do 42 do 43. . . . . do                                                   | 14 00   |
| do 43 do 44. . . . . do                                                   | 14 50   |

For every additional \$1 per pikul in the price of tin. . . . . 50

The duty will be reckoned on the price telegraphed daily from Singapore.

(3) For weighing tin, tin ore and wolfram a fee of 3 cents per pikul is charged.

SCHEDULE C.

*Tin Ore.*

Tin ore exported under such guarantees as the Resident may require that it will be smelted in the colony of the Straits Settlements or the United Kingdom—70 per cent of the duty on tin.

Tin ore exported without such guarantees—70 per cent of the duty on tins, plus an additional duty of \$ 30 per pikul.

The duty on tin and tin ore won from the Rin Lode at Jelebu is fixed at 8 per cent *ad valorem*.

NOTE.—In the case of all articles, except tin and tin ore, in respect of which export duty is assessed on an *ad valorem* basis, the value of the article will be taken at a rate to be fixed from time to time by the government, which rate will be published in the *Gazette*.

NOTE.—In cases where the year's sugar crop is sold by contract the duty may be calculated on the contract price.

NOTE.—Dutiable articles on which export duty has been paid in another state of the Federate Malay States shall not be liable to export duty, provided that they shall not be carried through the state otherwise than in accordance with such rules as the Resident, with the approval of the Resident-General, may from time to time make under 'The Customs Regulations Enactment, 1907,' in such behalf.

PAHANG.

(FEDERATED MALAY STATES).

Money and weights employed in the tariff.—The dollars is the silver Mexican *peso* of 100 *centavos*, nominal value 4s., average value 23 *d*.

Weights.—*Bhara* = about 4 *cwt*.—*Pikul* = 133½ lbs., *avoirdupois*.—*Kati* = 1½ lb. *avoirdupois*.

'CUSTOMS DUTIES ENACTMENT, 1898.'

(Notification No. 291, published in the *Pahang Government Gazette* of December 21,

1907, No. 19, vol. XI.)

Under the powers vested in him by section 3 of the 'Customs Duties Enactment, 1898,' the Resident, with the approval of the Resident-General, hereby cancels the Table of Customs Duties contained in Notification No. 85, published in the *Gazette* on the 5th day of April, 1904, and amended by subsequent Notifications Nos. 214 of 18th October, 1904, 139 of 2nd October, 1905, 2 of 2nd January, 1906, and 24 of 1st March, 1906, and imposes in the stead thereof duties in accordance with the following Table to come into force on the 1st day of January, 1908.

TABLE OF CUSTOMS DUTIES.

*Imports.*

|                                   | Duty.                                           |

Exemptions: Minerals exported by certain companies, leaseholders and others to whom special privileges have been, or may hereafter be, granted.

#### SCHEDULE A.

##### Coffee.

|                                            |                    |
|--------------------------------------------|--------------------|
| When the price is below \$22 per pikul     | Nil.               |
| When \$22 per pikul up to \$24 (inclusive) | <i>ad val.</i> 1 % |

(¹) The duty will be reckoned on the latest ascertained market price in Singapore.

|                                           |  |  |                | Duty. |
|-------------------------------------------|--|--|----------------|-------|
| When above \$24 per pikul up to \$26..... |  |  | <i>ad val.</i> | 1½%   |
| do 26 do 28.....                          |  |  | do             | 2 %   |
| do 28.....                                |  |  | do             | 2½%   |

The duty on parchment coffee is calculated on two-thirds of the gross weight, and on dry cherry on one-third of the gross weight.

## SCHEDULE B.

*Tin Ore.*

Tin ore exported under such guarantees as the Resident may require that it will be smelted in the colony of the Straits Settlements or the United Kingdom—70 per cent of the duty on tin.

Exemption: Tin ore exported by certain companies, leaseholders and others to whom has been or may hereafter be specially granted the privilege of exporting tin ore on payment of a duty of 8 per cent *ad valorem*.

Tin ore exported without such guarantees 70 per cent—of the duty on tin, plus an additional duty of \$30 per pikul.

NOTE.—In the case of all articles, except tin and tin ore, in respect of which export duty is assessed on an *ad valorem* basis, the value of the article will be taken at a rate to be fixed from time to time by the government, which rate will be published in the *Gazette*.

NOTE.—In case where the year's sugar crop is sold by contract the duty may be calculated on the contract price.

NOTE.—Dutiable articles on which export duty has been paid in another state of the Federated Malay States shall not be liable to export duty, provided that they shall not be carried through the state otherwise than in accordance with such rules as the Resident, with the approval of the Resident-General, may from time to time make under 'The Customs Regulations Enactment, 1907,' in such behalf.

## ZANZIBAR.

## CUSTOMS NOTICE DATED DECEMBER 24, 1907, RELATING TO IMPORT DUTIES.

On and after the 1st January, 1908, the duty on imported merchandise, at present charged at the rate of 5 per cent *ad valorem*, will be charged at the rate of 7½ per cent *ad valorem*. The duty on spirits will be charged at the rate of 5 rupees per gallon under the existing regulations as regards alcoholic strength.

Goods in transit at the date of this notice will be treated under the existing regulations. Documentary evidence as to date of shipment must be produced when goods are cleared.

# TARIFF CHANGES

## BRITISH HONDURAS.

I.—Proclamation No. 33, of the Governor of the Colony of British Honduras, dated 18th January, 1908, prohibiting the exportation of arms, ammunition and gunpowder.

*British Honduras Government Gazette, No. 4, of January, 18, 1908.*

Whereas by Chapter four of 'The Consolidated Laws' of the Colony of British Honduras as amended by Ordinance No. 21 of 1894, entitled An Ordinance to amend Chapter 4 of 'The Consolidated Laws,' the Governor is enabled and empowered from time to time to issue Our Royal Proclamation prohibiting for such time or times as to him shall appear necessary or proper and as the exigency of things may require to be exported by land or sea from the said Colony or carried coastwise therein arms, ammunition and gunpowder, military and naval stores and also any articles which he should judge capable of being converted into or made useful in increasing the quantity of military or naval stores, provisions, or any sort of victual which may be used as food by man without a license first had and obtained under the hand of the Governor, or unless such other regulations and instructions be complied with as shall be declared in such proclamation; and whereas circumstances have arisen which render it advisable that the power so conferred should be exercised so far as relates to arms, ammunition and gunpowder, we do therefore hereby prohibit for the period of one year to commence and be computed on and from the day of the date hereof to be exported by land or sea from this colony arms, ammunition and gunpowder without a license first had and obtained under the hand of the Governor unless in compliance with the rules and regulations following that is to say:

1. Any person or firm may subject to the proviso hereinafter contained in (3) without any license export by land or sea in any one period of 28 successive days not more than 6 guns 200 cartridges, 150 pounds of gunpowder, and 250 pounds of shot.

2. The Collector of Customs in the Belize District or the District Commissioner in any other district may by license under his hand authorize any person or firm subject to the proviso hereafter contained in (3) to export within 28 days from the date of such license to any state or country named in such license not more than 12 guns, 400 cartridges, 300 pounds of gunpowder, and 500 pounds of shot.

3. Provided that the two above written rules and regulations shall not extend or apply to and nothing contained therein or done thereunder shall protect any person or firm exporting any arms, ammunition or gunpowder from this colony into the Republic of Honduras.

II.—Ordinance entitled 'The Tariff Ordinance, 1908,' to amend the law relating to Customs (Import) Duties.

*(No. 6 of 1908.—Assented to 30th April, 1908.)*

This Ordinance repeals Ordinance No. 12 of 1904.—Schedules A and B to the present Ordinance are of the same tenor as those annexed to the repealed Ordinance, save the following modifications or additions indicated in italic type:

## IN SCHEDULE A.

*Table of Customs Duties.*

Sugar, raw, the importation of which is not prohibited by any law for the time being in force in this colony. . . . . lb. \$ 0 01½

## IN SCHEDULE B.

*Goods free of Duty.*

*Articles imported for the use of the public service of the colony.*

*Articles imported for immediate use in the construction, extension or repair of any building to be used exclusively as a church or school.*

*Asbestos paint.*

*Machinery—Agricultural, electrical, marine, mining and manufacturing or parts thereof, including boilers, belting, steam pipes, packing, lagging, fittings, batteries and charges.*

*Wire gauze and perforated zinc for screening purposes.*

## CANADA.

## CHANGES IN CANADIAN TARIFF.

The following regulations have been made under section 286 of the Canadian Customs Act, viz.:—

The following articles used as materials in Canadian manufactures shall be transferred to the list of goods which may be imported into Canada free of duty until otherwise ordered;

(a.) Brass in bars and rods, in coil or otherwise, not less than six feet in length, and brass in strips, sheets or plates, not polished, planished or coated when for use as materials in Canadian manufactures.

(To be designated as item 717 of the Customs Tariff.)

(b.) Asphaltum oil for use only for paving purposes.

(To be designated as item 718 of the Customs Tariff.)

(c.) Pressed felt, elastic webbing and hollow blocks of wood when imported by manufacturers of artificial limbs, for use only in the manufacture of artificial limbs.

(To be designated as item 719 of the Customs Tariff.)

(d.) Iron or steel rods, rolled or drawn not less than five-sixteenths of an inch in diameter when imported by manufacturers of chain for use only in the manufacture of chain in their own factories.

(To be designated as item 720 of the Customs Tariff.)

(e.) Tinsel thread and tinsel wire when imported by manufacturers of braids, cords, tassels, ribbons or trimmings for use only in the manufacture of such articles in their own factories shall be subject to the following reduced duty, viz.:—

Under the British Preferential Tariff, 5 per cent ad valorem.

Under the Intermediate Tariff, 7½ per cent ad valorem.

Under the General Tariff, 10 per cent ad valorem.

(To be designated as item 721 of the Customs Tariff.)

(f.) Finished parts of iron or steel for repairs of portable engines and traction engines for farm purposes shall be subject to the following reduced duty, viz.:—

Under the British Preferential Tariff, 15 per cent ad valorem.

Under the Intermediate Tariff, 17½ per cent ad valorem.

Under the General Tariff, 20 per cent ad valorem.

(To be designated as item 447 (a) of the Customs Tariff.)

(g.) Flat steel, cold rolled, not over half an inch thick for use only in the manufacture of cups and cones for ball bearings when imported by manufacturers of such ball bearings shall be subject to the following duty, viz.:—

Under the British Preferential Tariff, free.

Under the Intermediate Tariff, 5 per cent ad valorem.

Under the General Tariff, 5 per cent ad valorem.

(To be designated as item 722 of the Customs Tariff.)

## GAMBIA.

AN ORDINANCE TO AMEND THE CUSTOMS TARIFF ORDINANCE, 1905.—No. 1, PASSED AND ASSENTED TO 24th APRIL, 1908.

(*Gambia Government Gazette of 25th April, 1908.*)

Whereas it is expedient to introduce certain changes in the system of measuring the strength of spirits in respect of which customs duties are payable when imported into the Colony and Protectorate.

Be it therefore enacted by the Governor of the Colony of the Gambia, with the advice and consent of the Legislative Council thereof, as follows, viz.:—

I. This Ordinance may be cited for all purposes as the Customs Tariff Ordinance, 1908, and shall be read and construed along with the Customs Tariff Ordinance, 1905, the Customs Tariff (Further Amendment) Ordinance, 1905, the Customs Tariff Ordinance, 1906, and the Customs Tariff (Amendment) Ordinance, 1906.

II. The Customs Tariff (Amendment) Ordinance, 1905, is hereby repealed.

III. The amount of alcohol in spirits shall be ascertained by Tralles' Alcohometer and method of computation.

Spirits of standard strength, shall mean spirits so ascertained to contain 50 per cent of alcohol (being the approximate equivalent of twelve and a half per cent under proof by Skyes' Hydrometer).

IV. From and after the passing of this Ordinance there shall be charged on all spirits imported and brought into the Colony and Protectorate the following duties, viz.:

Upon spirits, except perfumes:

|                                          | Per Imperial Gallon<br>or part thereof. |    |    |
|------------------------------------------|-----------------------------------------|----|----|
|                                          | £                                       | s. | d. |
| Of or under standard strength . . . . .  | 0                                       | 4  | 2  |
| Of greater strength . . . . . per degree | 0                                       | 0  | 1  |

Provided that in the case of spirits, other than brandy and whisky, under standard strength an abatement shall be allowed at the rate of one penny for every degree of strength below 50 per cent down to a minimum of 30 per cent after which no further abatement shall be allowed.

Upon all kinds of spirits sweetened so that the degree of strength cannot be ascertained by Tralles' Alcohometer . . . . . 0 4 2

## SIERRA LEONE.

ORDER IN COUNCIL NO. 10 APPROVED APRIL 7, 1908, AMENDING 'THE CUSTOMS DUTIES ORDINANCE' NO. 26 OF 1900.

*(Sierra Leone Royal Gazette of April 11, 1908).*

In pursuance of the powers conferred by section 2 of 'The Customs Duties Amendment Ordinance 1907' (No. 25 of 1907). It is hereby ordered:—

1. That in the Second Schedule to 'The Customs Duties Ordinance, 1900' (No. 26 of 1900) there shall be added after the words 'Flour—In barrels or half barrels' the words 'or in bags or half bags';

2. That in the Third Schedule to the said Ordinance there shall be omitted the item 'Machinery' and that there shall be substituted in lieu thereof the item:

'Machinery and Apparatus (and all parts and appliances thereof) consisting of a combination of moving parts or mechanical elements which may be put in motion by physical or mechanical force and admitted as such by the Collector of Customs, of the following descriptions:—

Agricultural.

Industrial.

Electrical.

Manufacturing.

Marine.

Mining and gold dredging.

Pumping and boring for water.

Machinery for use in connection with the preparation of any natural product of the Colony or the development of any industry in connection with such product.

This order shall come into force on the 14th day of April, 1908.

## REPORTS OF BRITISH CONSULS.

### ARGENTINE REPUBLIC.

#### REPORT ON THE TRADE AND COMMERCE OF BUENOS AYRES.

(By H.B.M. Consul A. Carnegie Ross.)

From Canada there have been imported lumber, windmills, carbide of calcium and agricultural implements. From Australia as before have come agricultural implements and thoroughbred rams. From India jute and gunnies. From Natal a cargo of coal. The direct trade from British possessions has fallen off compared with 1906.

The British colonial trade was as follows:—

#### IMPORTS FROM BRITISH POSSESSIONS, 1907.

|                          |           |
|--------------------------|-----------|
| Africa.....              | £ 11,502  |
| Australia.....           | 13,833    |
| Canada.....              | 320,305   |
| British possessions..... | 1,209,628 |

#### CLASSIFICATION OF BRITISH TRADE.

It is worthy of notice that the values of some twenty articles represents more than half the British share of the trade. There must be a large number of smaller articles on the sale of which good profits can be made, which could be, but are not, supplied by the United Kingdom. The value of the 2,250,000 tons of coal the United Kingdom supplies is an important item in the total British trade.

Imports from the United Kingdom occur in all of the 1,000 odd classes given in the statistics except special articles, as petroleum or timber, which are not produced in the United Kingdom. It only requires study of the character of the country, agricultural with a few very modern cities, to increase the United Kingdom's share of the trade.

#### FOOD PRODUCTS RIGIDLY INSPECTED.

All food products of animal origin coming into the country, and more especially hams, bacon, &c., before being admitted have to be examined and passed by a food

inspector. Such products must also be accompanied by a certificate regarding the conditions under which they were prepared.

#### MACHINERY MAY NOT BE STORED.

The rates charged in the government dockside warehouses for storage have been increased, with the result that these are less used than formerly by the importers as stores. Inflammable goods and heavy machinery may not now be landed at Buenos Ayres.

#### POSSIBLE OPPORTUNITIES IN TRADE.

Subject to the limitations inseparable from the tastes of the people (Latin) and the climate (sub-tropical), most things made in the United Kingdom are saleable. There is no sort of prejudice against British goods on account of their nationality. There is no differential duty in favour of any country. Banking facilities are ample, and the opportunities of freight to and from most large British seaports are numerous. If a manufacturer wants to introduce a new article or to oust an old brand he must be prepared to spend money and time on propaganda. Greater attention has been given by British exporters to principles similar to those that have been advocated in the trade reports from this consulate, to the establishment of new agencies and the visits of more commercial travellers.

It is safe to say that no British business man who has come to this country knowing his business and determined to push it has been disappointed with the result obtained. It is most essential that trade-marks should be registered; the procedure is simple and not costly.

### JAPAN.

#### REPORT ON THE TRADE OF JAPAN.

(By Mr. E. F. Crowe, Commercial Attaché to His Majesty's Embassy, Tokio.)

#### CANADA GAINED IN IMPORTS.

Trade with Canada has only shown a light increase of 12,804*l.*, or 2.5 per cent., a gain in imports, accounted for by an advance in wheat and flour, being counterbalanced by a falling-off in exports; of these latter, tea, matting and rice were shipped in larger quantities, but there was a reduction in raw silk and silk piece-goods.

#### SHRINKAGE IN TOTAL FLOUR IMPORT.

Once more a decrease occurred in the total import of wheat flour, the figures for 1907 being £634,200 as compared with £836,200 in 1906 and £1,061,000 in 1905.

The United States were the chief sufferers, their share falling off from £809,000 to £598,000 last year; the Australian contribution also declined from £9,000 to £4,000, but it is satisfactory to note that Canadian flour improved considerably on its previous position, having increased by £9,000, or 53 per cent; the Japanese, however, are not yet experienced enough to distinguish between cheap American flour and the better but high priced Canadian products. The reduction in the import of flour is, of course, directly ascribable to the growth of the flour-milling industry in this country and the larger purchases of wheat; the figures for wheat being £374,600 in 1907 as against

£140,000 in 1906. It is doubtful whether the number of flour mills started is not too large for the present need of the country and during the year the amalgamation of some of the bigger concerns was proposed. So far, however, the negotiations do not appear to have proved successful.

#### JAPAN AS A MANUFACTURING NATION.

Many persons talk of the great possibilities after 1911, when Japan will have recovered her tariff autonomy and will be in a position to protect her own industries by heavy duties on imported articles, but even leaving these possibilities aside there would seem to be no good reason why she should not succeed in manufacturing articles in large quantities for other markets, provided that drawbacks were given on the imported raw materials. As the giving of drawbacks would cause unfavourable results from the British manufacturer's point of view, I naturally do not advocate it, but I am merely looking at the question as it might appear to a British capitalist who had thoughts of investing money out here.

In many cases, of course, raw materials, such as those used in the manufacture of matches, are duty free, while, as mentioned in last year's report, the makers of clocks, umbrellas and hats and caps and those engaged in the tinned provision industry receive some encouragement. Still there are doubtless many other cases where the absence of drawbacks has prevented any development of what might become profitable openings—two instances which have been brought to my notice being those of confectionery and musical instruments.

#### JAPANESE MANUFACTURERS CANNOT ATTAIN QUALITY.

The most important reason, however, which appears to militate against the possibilities of any great success on her part, is the inability of her manufacturers to maintain a high standard of quality. Where goods are distributed amongst various households it is naturally inevitable that there should be considerable differences in the output; good workers and bad workers there always will be.

The complaint, however, is that, animated by a desire to rapidly enlarge their production and their profits, makers accept contracts for goods which they cannot possibly execute, except by turning out an inferior article. Thus, for a short season large sums may be gained, but at the sacrifice of future business and of the reputation of Japanese goods.

#### GOVERNMENT EXPECTED TO DO EVERYTHING.

This is a subject which has attracted a good deal of attention, and as in Japan the government is expected to do everything, all sorts of schemes, such as government inspection and government monopolies have been proposed. The latter would probably fail, and the former could only be of use if it were certain that the government inspection stamps were not tampered with after being affixed to the goods. This is alleged to have happened in cases where it has been tried. It is difficult to suggest a remedy. Too many speeches have been made imploring the manufacturers to realize that their country's reputation and prosperity were at stake for one to have much hope of attaining the end desired by such methods.

But until the ordinary Japanese manufacturer realises that articles can be made of good quality as well as cheap, and does not sacrifice everything to lowering his price, exports will not expand as they ought to.

#### COMMERCIAL TRAVELLERS MUST BE AUTHORIZED REPRESENTATIVES.

My attention has been drawn to the following point, and it is perhaps worthy of notice by those who may intend to send out travellers:

Most of the commercial travellers who visit Japan are not responsible representatives of the different makers or firms whose samples they are carrying about. They are usually doing business purely on a commission basis, and any orders they may secure on samples which have been supplied to them are always subject to specific confirmation by the home firm. In such cases it is doubtful whether the engagements they enter into are legally binding on the principals, unless they carry with them a power of attorney. It is therefore advisable that travellers who are sent out should be specially authorized to do business on behalf of their principals.

### REPORT ON THE TRADE AND COMMERCE OF THE CONSULAR DISTRICT OF TAMPICO.

(By H.B.M. Consul Hubert W. Wilson, Tampico.)

#### TRAVELLERS MUST BE FAMILIAR WITH CONDITIONS.

In order to open up and further British trade in Mexico British exporters should pay more attention to securing and sending out here capable commercial representatives. It is absolutely necessary that they should have a thorough knowledge of the Spanish language and be prepared to meet keen competition. Price lists and trade catalogues are valuable adjuncts towards retaining trade after it has once been secured, but in order to open up new fields it requires the personality of an efficient commercial traveller well posted in the language and customs of the country and thoroughly familiar with the class of goods that he is handling. A complete line of samples is also a great aid in securing business, as by this means a commercial traveller is often able to interest a customer and get into closer touch with him than by simply looking over a catalogue.

#### ATTENTION TO LOCAL REQUIREMENTS ESSENTIAL.

Particular attention should be paid to local requirements, and it should be borne in mind that the local trader generally knows exactly what he wants to suit the trade he is catering for. When dealing he wants small traders in interior towns it will often be found of great assistance to quote prices c.i.f. Home firms are in a better position to keep posted on ocean freights than traders in the interior of Mexico, and although there are very few Mexican merchants who are not well posted on their own customs tariff, the working out of freight rates and insurance, when quoted in British money, becomes too complicated.

Commercial travellers would often find it advantageous if they made a habit of calling on their consular representative wherever they intend soliciting business, as by this means they can often secure information as to the local standing of their prospective customers, local requirements, &c.

#### IMPORTED GROCERIES IN DEMAND.

Owing to the large number of foreigners visiting this district, many of whom engage in trade or settle down to farming, the demand for imported groceries is rapidly increasing. This increased demand is not, however, limited to the foreign element, but also includes the middle and higher class Mexicans. Some of the articles which now appear to be in general demand are as follows:—

Cheese.—Put up in air-tight tins of from 1 to 5 pounds.

Butter.—Put up in air-tight tins the same as above.

Mustard and spices.—Put up in air-tight tins.

Jams.—Put up in air-tight tins.

Raisins and currants.

Biscuits and breakfast foods.—Put up in air-tight tins.

Tea.

#### DETAILS AS TO DUTIES, PACKING AND PRICES.

The duties upon cheese, butter, jams and spices are based upon the weight of the goods, including the tin boxes in which the same are placed, so that manufacturers should use the lightest possible package consistent with the preservation of the contents.

Owing to the heat and moisture of the climate all the articles mentioned above deteriorate very rapidly unless put up in air-tight tins, and it is on this account that the retailer has to charge such an exorbitant price, as the goods, if kept in stock more than a few months, are a total loss.

Mustard, spices, &c., although generally sold in tins, deteriorate very rapidly on account of the tins not being air-tight, and merchants refuse to order or keep in stock this class of goods, which, if carefully packed in air-tight tins, should have a ready demand.

Fresh butter retails at from 75c. Mexican currency to \$1.10 per pound, with the supply limited. A good trade might be established by introducing salt butter packed in 1-pound to 5-pound tins. Butter put up in this manner would have a large demand not only in this district, but all over the Republic at interior points where fresh butter is obtainable.

## MEXICO.

### REPORT ON THE TRADE OF MEXICO.

(*H. B. M. Consul-General Stringer, Mexico.*)

#### INCREASE IN CANADIAN AND COLONIAL IMPORTS.

Taking the United Kingdom, India, Canada, Australia, and British Honduras together, the imports from these British dominions in 1906-7 amounted to 2,513,566l., which gives the British Empire the second place in imports and shows an increase of 322,010l., or 14.69 per cent, on the total of 1905-6.

The increase in the imports from Canada is very satisfactory. They were:—

|                  |         |
|------------------|---------|
| 1904-5 . . . . . | £ 5,239 |
| 1905-6 . . . . . | 27,852  |
| 1906-7 . . . . . | 44,768  |

The monthly service of the Canadian-Mexican Steamship Line between Vancouver and Salina Cruz and intermediate ports, and the Elder-Dempster steamships which ply between Vera Cruz and Halifax or Montreal, on the Atlantic side, are probably the cause of the increase. Canada has a trade commissioner resident at Mexico City, and Mexico has consular officers at Montreal, Halifax, Quebec, Toronto, Vancouver and Victoria.

## CANADA CUTTING INTO AMERICAN TRADE.

It is, of course, only natural that America should have the largest share of Mexican trade owing to the proximity of the United States and the comparative ease with which goods can be transferred from one country to the other. Besides the railways, there are American steamship lines connecting American and Mexican ports, both on the Atlantic and Pacific coasts.

Canada, however, also has steamship connection with Mexican ports on both coasts, and the rapid increase of trade with Canada is encouraging.

## SEVEN MONTHS' RETURN OF IMPORTS.

The returns of imports during the seven months ending January 31, 1908, show increases as compared with the same period in 1906-7, as follows:—

From—

|                          |          |
|--------------------------|----------|
| United Kingdom.. . . .   | £569,618 |
| Germany.. . . .          | 417,205  |
| France. . . . .          | 265,348  |
| Spain.. . . .            | 13,424   |
| Belgium.. . . .          | 68,396   |
| Italy.. . . .            | 30,937   |
| Canada.. . . .           | 24,668   |
| Australia.. . . . )      | 7,510    |
| British Honduras.. . . . | 603      |

Decreases are shown in imports from the United States of America of 70,214; India, 4,632l.; Portugal, China, Russia, Egypt and Cuba.

The total imports from the United Kingdom, India, China, Australia and British Honduras show an increase for this period of 597,767l., or 44·83 per cent.

## NATURE OF IMPORT TRADE.

The imports showing increase are animals and animal products, textiles, chemicals and pharmaceutical products, wines and spirits, &c., paper and paper manufactures, machinery and implements, vehicles and miscellaneous imports all show an increase.

The imports showing decrease are vegetable products, minerals and metal manufactures, arms and explosives.

## IMPORTS BY COUNTRIES.

TOTAL Imports during Period from July 1, 1907, to January 31, 1908.

| Country.                | First Seven Months of Mexican Fiscal Year. |            | Increase or Decrease in 1907-08. |
|-------------------------|--------------------------------------------|------------|----------------------------------|
|                         | 1906-07.                                   | 1907-08.   |                                  |
|                         | £                                          | £          | £                                |

## PERU.

*Report on the Trade and Commerce of Peru (By Mr. L. J. Jerome, Acting British Chargé d' Affaires at Lima.)*

## NATURE OF COLONIAL TRADE.

Considerable quantities of wheat are imported from Australia and Canada (British Columbia). There is a market for British Columbian ties (sleepers) and lumber, as well as for canned fish. Coal is imported in considerable quantities from Newcastle, New South Wales. Rice and jute bags come from India and Rangoon.

## MARKET EXISTS IN VARIOUS LINES.

In the last report made by Mr. Consul-General St. John, attention was drawn to the possible market for the following articles, among others:—Sugar, machinery, railway material, telegraph and telephone wire, mining tools, electrical appliances, hats, frozen meats, bungalows, cotton gins, timber and agricultural implements.

On the other hand, I do believe that there will be an increasing demand for railway material: rails, fish-plates, pins and bolts, ties (sleepers), as well as steel culverts and bridges. Many of the existing railways require renewals and from now on it is to be expected that there will be considerable railway construction. The railways of Peru are run according to American ideas, and the type of rolling-stock is according to American standard patterns, both as regards passenger coaches, goods wagons and locomotives.

#### LIMITED DEMAND FOR ELECTRICAL GOODS.

The market for electrical appliances is very limited. In Lima there are electric tramways, urban and suburban, and an electric light plant.

Electric power is very little used for industrial purposes; a 100 horse-power per hour costs £1 1s. 6d. Light for private houses is expensive, 16 candle-power lamps costs about 8d. per kilowatt hour. Moreover, the Santa Rosa Electrical Company have a clause in their concession which stipulates that no consumer can use any appliances which they the (company) do not provide. The tension of current supplied by this company is subjected to great variations, so that lamps are continually being burnt out and the light is very unsatisfactory. It is estimated that there are 23,090 lamps actually in daily use in the town of Lima.

#### FORTUNE IN COLD MEAT BUSINESS.

There is a fortune, and a handsome one, in store for the enterprising person who would, after investigation, start a well organized business in chilled meat. As Mr. St. John says: this applies not only to Peru, but to the Republics of the North and the whole South Pacific Coast. I most earnestly recommend this very practical suggestion to persons interested in this trade.

#### IMPORTS SIMILAR TO THOSE OF SPANISH AMERICA.

Peru offers nothing of particular interest with regard to this import trade. The class of goods imported for general consumption is identical with what is usually imported into the rest of Spanish America, and I find Lima is visited by many commercial travellers, British, American and German, whose acquaintance I had previously made in Mexico. Incidentally I made remark that the present exorbitant fares charged by the steamship companies on the west coast are distinctly a difficulty placed in the way of trade. Many firms no longer send their representatives as frequently as before.

Commercial travellers are subjected to no particular disabilities. Travellers coming here for the first time should, however, be consigned to a well-known house who will be willing to act as surety for them as regards the entering and clearing of samples at the custom house.

## ST. PIERRE AND MIQUELON.

*Report on the Trade and Commerce of St. Pierre and Miquelon.*

(By H. B. M. Consul Kestell-Cornish, St. Pierre.)

## INDUSTRIES AND COMMERCE OF THE ISLANDS.

The islands of St. Pierre and Miquelon have no agricultural resources. Nothing of any commercial significance is produced or manufactured in them, and consequently all the necessities of life are imported. The inhabitants live by means of the cod fishery, a very small quantity of the product of which is locally consumed, as will be shown at a later stage in this report. British articles of trade are almost entirely received from Halifax, and indeed it is from the Dominion of Canada that nowadays practically all British trade emanates. The time when it was direct with the United Kingdom has long since passed away.

Two American houses have been for many years represented here, but one of them recently withdrew its interest in St. Pierre and only one Boston firm has now an agency in this town.

## CANADA THE PRINCIPAL CONTRIBUTOR.

In the general trade of this port with foreign countries Canada is the principal contributor, whilst the United States claims a good share in the general import. An American house dealing in paints and established at Portland, Maine, sends a representative to St. Pierre every year, whilst a representative of a Canadian firm of paint and varnish manufacturers recently arrived at St. Pierre with a view to gaining a footing at St. Pierre in the same line. Newfoundland now supplies St. Pierre with little but fish and timber. It is, at first sight, a curious fact that at the very basis of the French cod fishery of North America, fresh fish as an article of consumption is very difficult to obtain, yet so it is. Nearly all the codfish caught by the inhabitants of these islands, is exported, and there is even some demand for supplies of this article from Newfoundland.

## CUSTOMS DUTIES LEVIED ARE THOSE OF FRANCE.

Customs duties levied in this colony are those of the general customs of France which was made applicable to St. Pierre and Miquelon in the year 1892.

## TOTAL IMPORTS.

|                                                                                | 1906.<br>£ | 1907.<br>£ |

## TRADE JOURNAL EXTRACTS.

## VIOLATION OF TRADE MARKS IN DENMARK.

H.M. Legation at Copenhagen reports that, in consequence of proceedings instituted upon the representations of H.M. government, a Danish firm, who had imitated a British trade mark on goods imported from Germany, have been fined 50 kr. (2l. 16s.) for contravention of Law No. 70 of 27th April, 1894, regarding the illegal use of trade marks. The goods bearing the mark in question have been re-exported to Germany.

Article I. of the law on which this judgment was based provides that whosoever sells goods, stamped with the name of a foreign firm, without taking reasonable care to ascertain that the indication used is correct, shall be liable to a fine of from 50 to 2,000 kr.

Article II. provides that whosoever shall have been penalized under Article I. shall be further compelled, if the goods, or any part of them, are still at his disposition, to remove or correct such false indication, with the alternative, if the goods have been imported, of re-exporting them.—(*British Board of Trade Journal.*)

## COMMERCIAL CONDITIONS IN MEXICO.

H.M. Legation in Mexico reports that although that country has certainly been passing through a period of financial and business depression owing to the lack of ready money, it cannot be said to have amounted to a crisis. There have been no failures, either of financial or industrial houses, and the depression in the silver, copper and lead mining industries, and the sisal hemp industry, must be attributed to other and anterior causes.

There are now signs that the financial situation is rapidly improving, the influx of foreign capital into the republic, which had ceased practically, as a result of the general disturbance of the world's money markets, which followed on the financial crisis in the United States, has now resumed its flow, and the National Bank has been able to borrow sufficient money on easy terms to relieve the Ministry of Finance of all anxiety as to the gold reserve or the stability of the exchange value of the peso.

## ESTABLISHMENT OF CHAMBERS OF COMMERCE.

H.M. Legation also reports that the Bill providing for the establishment of Chambers of Commerce in the more important towns of Mexico (see *Board of Trade Journal* of 30th April, pp. 260-61) has been passed by Congress, and that a presidential decree was issued on the 12th June, by which the measure became law.—(*British Board of Trade Journal.*)

## WEST INDIAN PRODUCE FOR CANADIAN EXHIBITIONS.

An excerpt from the British West Indies *Agricultural News* with reference to exhibits which were being forwarded from that colony to Canadian exhibitions, appeared in Weekly Report No. 228. Further particulars are published in the latest number of that periodical:—

## REPRESENTED ONLY AT TORONTO.

Since the Toronto and Halifax exhibitions for 1908 will be in progress at the same time, it will not be possible, as on previous occasions, for exhibits that have been on view at Toronto to be afterwards shown at Halifax, and therefore, since sufficient funds are not available for sending two sets of exhibits, the West Indies will this year be represented at Toronto only.

Recognizing the value of these exhibitions as a means of making the nature and quality of West Indian produce more widely known in Canada, the Permanent Exhibition Committee of Barbados despatched a large collection of samples of the products of the island to Toronto, by the C.L.S. *Oruro*, on July 13. The samples sent included white, yellow and dark crystal sugar; centrifugalled and ordinary muscovado sugar, syrup, 'Prime,' 'Fancy,' crystal sugar, and muscovado sugar molasses; rum, falernum, bitters, manjak, green tar, in fusorial earth, Sea Island seed-cotton, cotton lint, and Circassian beans. The total number of exhibits sent from Barbados was eighty-six. A handbook of Barbados, issued in connection with Canadian exhibitions in previous years, has been brought up to date, and a new edition published for distribution to persons visiting the West Indian court at Toronto. This contains a list of the exhibits sent, together with the names of the persons forwarding them.

## ST. LUCIA ISLAND INCLUDED.

The Agricultural Society of the island have undertaken the responsibility of collecting and despatching exhibits from St. Lucia, and the following is a list of the products which it is intended to forward: Cacao (about 10 lb.), sugar (various grades of usine, 10 lb.), molasses, rum, molascuit, nutmegs and mace (1 quart of each), cassava starch and meal (2 quarts), copra, kola nuts, musk seeds, Cassia Fistula, a full assortment of guava and other native jellies and marmalades, logwood, pimento sticks, samples of native woods, honey and wax, oranges, Pere Louis and grafted mangos, limes and lime juice, and bananas.

## TRADE MARKS ON THE CONTINENT.

The British Chamber of Commerce in Paris is again drawing the attention of the British and French governments to the increase of fraudulent British marks on the continent. It has in particular notified the Board of Trade of some flagrant cases of this abuse, such as the employment of the word 'Sheffield' on files and cutlery of continental manufacture and the application of the phrase 'Made in England' stamped on boots of French manufacture. The Chamber has also reported these cases to the British manufacturing associations specially interested. As these frauds do incalculable harm to the reputation of British goods, the Chamber suggests that they should be early suppressed by a short and simple agreement between the two governments, which would be equally advantageous to British and French exporters. Both governments have expressed their readiness to negotiate such an agreement, but so far no practical steps have been taken in that direction.—(*Indian Trade Journal*.)

## CANADIAN IMPORTS TO MEXICO YIELD GOOD RETURNS.

'The British Vice-Consul at Guadalajara writes that British trade in that district is so small as to be a negligible quantity. Only one British trader resides in Guadalajara, and the openings for British trade entirely depend on whether merchants will take steps to avail themselves of the opportunities which will arise when Guadalajara is connected by railway with the Pacific port of Manzanillo in September next. Should British steamship lines extend their itinerary from the western ports of

South America to Mazatlan, many lines of goods would find a market at Guadalajara. The Canadian-Mexican Steamship Company will supply that town with canned fish, lumber, knocked-down boxes, &c., and the Canadians are already arranging imports, which will yield them good returns. On the completion of the connecting railroad to Guadalajara, Mazatlan must become a considerable coaling port, and it is reasonable to suppose that owners of British colliers would be able to offer advantageous terms to shippers of ores for treatment in Wales.—(*British Board of Trade Journal*.)

## FOREIGN TRADE OF COREA IN 1907.

H.M. Consul at Chemulpo (Mr. A. H. Lay) writes as follows on the subject of the foreign trade of Corea during 1907:—

The total value of the foreign trade of Corea during 1907 amounted to 5,908,172*l.*, of which 4,190,467*l.* were imports and 1,717,705*l.* exports. In comparison with the figures for the year 1906 the total volume of trade increased by over 50 per cent., the imports showing an increase of 1,176,785*l.* and the exports of 888,759*l.* Judging from these figures, the foreign trade of Corea was in a flourishing condition during 1907, reaching a higher total than in any previous year.—(*British Board of Trade Journal*.)

## WORLD'S PRODUCTION OF PIG IRON.

The following was the production of pig iron in the leading iron producing countries of the world during the three years ending 1907:—

## CHEAP ALCOHOL FROM PEAT.

The first industrial trials for manufacturing alcohol from peat date from the year 1870, when the Danish chemist Zetterlund hydrated and converted by means of sulphuric acid the cellulose of the peat into a soluble carbohydrate, which was fermented by letting it stand. The very small production obtained in the beginning was increased by different chemists. Important progress has been made in the last two years by fermenting the carbohydrate sap by means of a special yeast, which has hitherto been kept secret. A Copenhagen company has been founded, which already has two experimental plants established, one in Denmark and the other in France. The results obtained are said to be so encouraging that the erection of an industrial plant in the north of Germany is imminent. According to statements made by Pro-

fessor Ramsay, one ton of dry peat is said to furnish about 162 litres (litre=1·5 quarts) pure spirits and about 66 pounds of sulphate of ammonia of 100 per cent. The Danish company asserts that the manufacturing costs of 1 litre of alcohol of 97 per cent are at most 11 pfennigs (1·3 annas), whereas the cost of the process of distilling from potatoes is about 38 to 42 pfennigs (4½ to 5 annas). It is self-evident that such a process would be of the greatest interest, not only from an agricultural stand point, but especially for new uses in the chemical industry and as a cheap material for lighting and power.—(Indian Trade Journal).

#### WOOD-PULP INDUSTRY IN NEW ZEALAND.

A Christchurch syndicate is the first body to take advantage of the provision under the Land Laws Amendment Act, which sets apart land for the development of the wood-pulp industry. It has secured a lease of 30,000 acres in the Westland District, about 10 miles from Lake Brunner. Paper-making from wood-pulp forms an important industry in the United States and Canada, from which New Zealand largely imports, and it is probable that the new venture will prove to be the beginning of an industry which will assume great proportions in New Zealand, with its immense areas of suitable bush lands. The timber used for wood-pulp is not the ordinary millable timber, but the smaller trees and scrub. The land referred to is covered with bush, which grows very freely, so that any gaps made are soon effaced by the natural growth. In 1906 New Zealand imported printing paper to the value of £133,009, representing 156,724 cwt., in addition to miscellaneous paper of various descriptions.

#### ARTIFICIAL FERTILIZER IN AUSTRALIA.

'The British Board of Trade Journal' publishes an extract from the 'Advertiser' of the 4th July, relative to the use of artificial fertilizers in the State of South Australia, from which it appears that their use has had such an unqualified success that the quantity consumed has increased from 3,000 tons in 1897 to 65,000 tons in 1908 in regard to cereal cultivation alone. Thousands of acres, which a few years ago used to be looked upon as entirely valueless for wheat growers, have been converted into rich grain-producing areas by chemical manures. Land which used to grow malee scrub only now yields 10 to 20 bushels of grain per acre, and the undoubted value of the manures has led, and will still lead, to the opening up of a great expanse of poor country which, under the old conditions, could not be cultivated at a profit.

Mr. W. L. Summers, the Inspector of Fertilizers, estimates that between 68,500 and 69,000 tons of commercial fertilizers were used in South Australia during the year which ended with June last. Of that quantity, at least 65,000 tons had been required for the present season's cereal crops. Mr. Summers states that the imports from Great Britain and the Continent represent a marked falling-off compared with the figures of two or three years ago, while the inter-State imports have increased. The Mount Lyell manure works at Port Adelaide, he added, will be in full swing during the coming season, and he confidently expected that the imports generally would show a considerable diminution as the result of the establishment of the local industry.

#### SOUTH AFRICAN REGULATIONS RE COMMERCIAL TRAVELLERS.

The governments of Natal and the Transvaal allow a refund of import duty to commercial travellers if their samples are re-exported within *twelve months* of importation.

The Cape government states that the import duty paid on commercial travellers' samples is refunded on satisfactory proof of re-shipment, and provided that the traveller has complied with the Customs Union Regulations, so that there may be

no difficulty in adjusting any credits of duty between the governments in the Union. A refund of duty will be made, it is stated, even if the re-shipment takes place at a port in another colony in the Union, provided that a certificate of re-shipment under the hand of the Customs authorities at the place of export is produced.

No time limit is, as yet, fixed in Cape Colony within which reshipment of commercial travellers' samples may take place in order to obtain a refund of duty, but the High Commissioner for South Africa is communicating with the governments of the various territories comprised within the South African Customs Union with a view to secure agreement to the adoption of a uniform period of twelve months as that within which such refunds may be claimed.

In New Zealand and the Australian Commonwealth, the period during which the refund of duty may be accorded on the re-exportation of samples is fixed at *six months* from the date of landing.—*British Board of Trade Journal*.

#### TRADE MARKS IN BOLIVIA.

H.M. Consul at La Paz (Hon. H. C. Dundas), writing on the subject of foreign trade with Bolivia, advises British firms dealing with that country to watch their interests carefully in the matter of labels and trade marks. It is reported that in Arequipa a regular system exists of manufacturing spurious labels, and the Consul is also informed that a traveller visits La Paz once a year bringing with him imitations of every well-known label, to be affixed to bottles, &c., containing spurious imitations of the articles specified on the labels.

In order to legalize and register a trade mark, a power of attorney, legalized by the Bolivian Consul, should be sent to His Majesty's Consul at La Paz, together with a typewritten description of the trade-mark, besides six copies of the trade-mark. £10 covers all the fees, and it takes about eight months to settle and obtain papers of registration.—*British Board of Trade Journal*.

#### THRIVING TRADE WITH BRITISH COLUMBIA.

Since the establishment of the Canadian-Mexican Steamship Company, a year ago, reports H.B.M. Vice-Consul MacNeill at Colima, there has been a great deal of interest taken in the opening of business relations between British Columbia and the Pacific coast of Mexico, and it is undoubtedly susceptible of great possibilities.

From Canada coal, lumber, railroad sleepers, tinned fish, dried and fresh fruits and even butter can be brought and find a ready market. From Manzanillo, coffee, hides, salt, tropical fruits and ores to the Ladysmith smelter are shipped on nearly every steamer to British Columbia.

#### GOVERNMENT INTELLIGENCE BRANCH IN AUSTRALIA.

The following notice has been received from Captain R. Muirhead Collins, C.M.G., the Representative of the Australian Commonwealth in London:—

'The Minister of Trade and Customs of the Commonwealth has under consideration the establishment of an Intelligence Branch in connection with his department which shall be a thoroughly reliable depository of data concerning all Australian industries. The branch will eventually include an embryo museum of Australian products, an up-to-date sample room, a complete library of Australian catalogues available for consultation by traders, and a monthly or quarterly publication.'—(British Board of Trade Journal.)

## DECLINE IN WHEAT EXPORTS FROM NEW YORK.

His Majesty's Consul-General at New York (Mr. C. W. Bennett, C.I.E.), in reporting on the large shrinkage which has taken place in the exports of grain from that port, remarks that Canada now appears to be obtaining the great bulk of the grain trade, Montreal having booked since the opening of navigation this year eight million bushels, whilst New York has secured but a little more than two million bushels. The shrinkage in the New York exports is attributed chiefly to the cheap water rate on wheat from Duluth and Fort William to Montreal, as compared with the railway rate to New York via Buffalo.—(Indian Trade Journal.)

## BRITISH GUIANA FAVOURS RECIPROCITY WITH CANADA.

Although the Governor is understood to be opposed to reciprocity with Canada, the general feeling towards it is decidedly favourable. In their annual report the Chamber of Commerce state that it is essential that the present market for the bulk of the colony's exports should be retained, and they add that a satisfactory preferential tariff in Canada on all the Colony's exports is most important and desirable, and if negotiations on the basis of the Barbados concessions can be made to maintain and extend the Colony's existing preference in Canada it will be of great mutual benefit to both countries.—(The Standard of Empire.)
